

HARRY DE WINDT'S JOURNEY ACROSS ICY SIBERIAN WASTES

Arrival of Arctic Traveler in the Windy City.

CIRCLING THE GLOBE BY LAND

Railway Will Be Built Some Day—He Does Not Care to Repeat His Journey.

Chicago, Aug. 22.—Harry De Windt, who left Paris to circle the world via the all-land route by Bering Straits, has got as far eastward as this city, and is now at the Auditorium, under the same roof as the Grand Duke Boris, who in San Francisco lately denounced some of De Windt's statements as rubbish.

Mr. De Windt says he landed at Cape Prince of Wales in Alaska June 19, three months to a day after he left Paris. His railway journey from Paris to Irkutsk, the eastern capital of Siberia, occupied exactly nine days. Thereafter for three months he went northward into the long tongue of Siberia that juts into the Pacific, and skirted the Arctic coast for hundreds of miles to Bering Straits, which he crossed half by boat and somewhat on the ice.

De Windt, who had three companions, determined to demonstrate that the proposed Trans-Siberian and Alaskan Railroad was practicable, and that it would be possible to make the journey from Paris to New York by rail if such a line was ever constructed.

On the Arctic, in extreme Northeastern Siberia, De Windt entered a village of Eskimos who had not seen a white man for thirty years, whose inhabitants were unacquainted with the progress of the world in all that time.

There was a village of Eskimos who welcomed him as a voice from the unknown, and he told them all he could of the world's latest history.

Mr. De Windt estimates the distance he traveled from Paris to Bering Straits at 25,000 miles. At Irkutsk, he went through an immense territory, into which the Russians contemplate extending a branch of the Siberian Railway.

Mr. De Windt expresses his gratitude to the Siberian officials. "I owe it to the government of Siberia that I got through at all. He telegraphed ahead, sent messages ahead, and had reindeer, dogs, sleds, provisions and hospital arranged for us. Indeed, the officials at every point did all that could for us and were courteous indeed."

Mr. De Windt estimates the distance he traveled from Paris to Bering Straits at 25,000 miles. At Irkutsk, he went through an immense territory, into which the Russians contemplate extending a branch of the Siberian Railway.

reputation is well earned. The traveler goes on to remark: "The distance was covered by means of 122 drivers and 732 horses. The total cost for each sleigh was \$150."

IN FROZEN WILDS. The traveler bound for the Kolyma district must take all his provisions in a frozen state, for food is scarce along the lonely tract of 1,300 miles. The reindeer stations are 150 to 200 miles apart, but shelter huts are located at shorter intervals. These are little houses of wood and water in the form of slabs of ice, but nothing else.

POUND ON SIBERIAN COAST. At last the inhospitable seashore was reached, and there the entire party nearly perished from exposure and hunger. They were found at a place called Cape Nome by Capt. Cottie, who supplied them with provisions and offered to take them off in his boat. This offer De Windt declined.

CLASH WITH DUKE BORIS. In San Francisco Mr. De Windt and Grand Duke Boris clashed. "I made the statement to the reporters," explained the explorer, "that the criminal exiles in Siberia could not be better treated, but that the political exiles lived in hell. The grand duke reported in the newspapers that that was rubbish, and that how the grand duke He no doubt has been in Siberia and has visited a village of political exiles as I have. The duke may have his own views, but he would rather be in hell than in one of those villages."

TWICE FAILED. In May, 1896, Mr. De Windt started out on his first venture into Siberia. He set out across the Bering Sea and British Columbia. From Juneau, on the Alaskan coast, they went to Fort St. Michael, on the Bering Sea. This journey lasted three months, and was one of extreme hardship and exposure.

SUMMARY. To sum up: Mr. De Windt took nine days to travel from Paris to Bering Straits, a distance of 25,000 miles. He took three months to travel 1,300 miles from Irkutsk to and across Bering Straits. He has been traveling down the western coast of North America to San Francisco and Chicago. He has gone where no Cosmo-grapher has ever shown in Siberia. He has proved the feasibility of the journey, although not its profit. He has seen a gold country the Russians are working on the sly, and visited people who have been shut off from the world for 30 years, and has learned the horrors of the political exiles' lot face to face.

Victim of Mosquitoes. Eldora, Iowa, Aug. 22.—Charles Jensen, a railroad flagman, who lives at Clarion, near here, is a victim of mosquitoes, and so severely bitten that it is feared he will be attacked by blood poisoning. Jensen was tending his duties on the Rock Island tracks when he was surrounded by thousands of mosquitoes and bitten until he could scarcely see. He built fires to drive away the pests, but smoke and flame had no effect upon the insects. The man was compelled to remain at his post during the long night, and when relief came in the morning he was incapable of moving. He was taken violently ill and is now under the care of physicians.

Result of New York Expert's Analyses of Canadian-Made Soaps. Dr. Deimel Linsen-Mosh Co. writes: "We sent samples of the leading 'soaps' made in Canada to an expert in New York, and had them thoroughly analyzed. As a result of this analysis, we find your 'Sunlight Soap' to thoroughly cleanse without danger to the clothes, and we are therefore pleased to recommend wearers of the Dr. Deimel 'Underwear' to use Sunlight Soap for washing."

CARRIED A PISTOL

Robert R. Remington Planned to Kill the Van Alen Family.

New York, Aug. 21.—A Sun special from Newport, R. I., says: A wreath measuring four feet across was sent last night to the undertaker to be placed on the coffin of Robert R. Remington, who shot himself yesterday at the reading room. It was made of American Beauty roses and lilies of the valley and was tied with white satin ribbon. On a wreath was a sealed envelope with instructions that it was not to be opened.

Headache. Pain across the forehead or at back of head is dangerous. It slowly but surely weakens the intellectual powers, impairs the vitality and will. Headache is sometimes from the eyes but more frequently is caused by a disordered condition of the stomach and digestive organs.

Abbey's Effervescent Salt. It never loses its effect. Cures by driving out the poison, and does not simply deaden the pain as do so many preparations containing narcotics.

CANCERS CURED WITH THE X-RAYS. The Efficacy of the Treatment Fully Demonstrated. ALSO WORKS AS A MASSAGEUR. The Wonderful Electrical Light Is Said To Be Relieving an Ossified Man.

How the Ex-Slave Won His Freedom—Then Fought for the Union—Ill in Hospital.

Detroit, Aug. 22.—Sick and deserted, William Hamilton, an ex-slave, is at Emergency Hospital, where he was taken last week. He is 76 years old. Until 16 years of age he was the property of a Southern Judge named Duncan, living near Lexington, Ky.

Detroit, Aug. 22.—X-rays are destroying cancers at the Harper Hospital clinic. One patient has already been discharged, his cancer all gone. Two other men are taking daily treatment under the rays, and their cancers are rapidly falling off in much the same way that a scab drops off a healing wound.

HOW IT WORKS. In one of two ways the X-rays destroy cancer, either by destroying the cancer germ or else by destroying the cancer cells. X-rays, if turned for a sufficient time on any part of the body, will produce a horrible burn. The first effect is like severe sunburn. The X-rays keep on burning deeper and deeper, and would ultimately destroy an entire limb. Cancers are even more readily destroyed by the rays than a healthy tissue, and external cancers are easily removed.

ABSOLUTE SECURITY. Genuine Carter's Little Liver Pills. Must Bear Signature of Dr. Wood.

Very small and as easy to take as sugar. FOR HEADACHE, FOR DIZZINESS, FOR BILIOUSNESS, FOR TORPID LIVER, FOR CONSTIPATION, FOR SALLOW SKIN, FOR THE COMPLEXION.

Anyone troubled with boils, pimples, burns, bruises, sprains, stiff joints, rashes, festering sores, or any chronic or malignant skin disease should use Burdock Blood Bitters, externally, and take internally. It will cure where else fails.

Headache.

Pain across the forehead or at back of head is dangerous. It slowly but surely weakens the intellectual powers, impairs the vitality and will. Headache is sometimes from the eyes but more frequently is caused by a disordered condition of the stomach and digestive organs.

THE WEATHER TODAY—Fine.

There is no time like the present to select your Fall Dress. Those who wear the nicest clothes are always among the first to buy.

For Fall Dresses

We are glad that it is so—that right in the heart of August we are showing the latest and most fashionable fabrics for Autumn Dresses—because already there's a flutter of excitement among those who always dress particularly nice. They know that while the assortments are complete it is the very best time to buy. You will be pleased with the quantity of style you can secure this season for very little money. For example:

- At 50c yard, we are showing a very fine All Wool Basket Weave in all the latest shadings of reseda, rose, cardinal, mid navy and brown. This is very suitable and stylish for girls' wear, only 50c.
At 50c yard, a very special line of All Wool Cheviot, just the thing for young ladies' autumn dresses; beautiful colorings, also plain grounds by all. Only 50c.
At 65c yard, a great line of 48-inch Cheviot; in the sweetest shades—cardinal, four elegant shades of blue, two of brown, one castor and rose. Very special value at only 65c.
At 65c yard, a very pretty line of fine Venetian Cloth; has a beautiful finish and is particularly suitable for young ladies' dresses; in all the newest shadings. Ask to see this new material at only 65c.

See Our Show Window Filled With Autumn Dress Goods.

New Black Gilbert Linings at 12 1-2c to 45c Yard.

Showing some of the newest Fast Black Gilbert Linings, suitable for both waists and skirts. These goods are absolutely fast black; are firm, durable, well-finished linings, and in some of the better qualities closely resemble silk. Splendid range at the yard, 12 1/2c to 45c.

Some New Linens For Fancy Work.

Everybody interested in fancy work is aware that we carry the newest ideas in Linens for Fancy Work, and will be pleased to learn of the recent arrival of a number of lines, which we invite you to see. In the lot are: Fine Irish Round-Thread Linens, for drawing or hemstitching, 13 to 30 inches wide. We are selling it at the yard as low as 35c.
13-inch Fine Spot Damask, for sideboard runners, etc.; hemstitched on both sides; sold by the yard at 60c.
27-inch Showdrop Damask, very fine quality for runners, dolly centers, etc., the yard 75c.
72-inch Plain Damask, for tea cloths, table cloths, etc., at the yard only \$1.25.
Fine Huck Towelings, 22 to 27 inches wide, at the yard, 25c, 30c, 35c and 40c.
See our 25-inch Huck with damask floral pattern, at the yard only 40c.

New French Flannels, Finnet Laines and Printed Cashmeres.

Our fall stock of French Flannels, Finnet Laines and Printed Cashmeres is now one of the attractions of the store, as we now have a larger and better assortment than we have ever shown so early in the season. The cool days of fall are hastening on, so be prepared for them with snug garments. French Flannels, 27 inches wide, in all color grounds, with spots, small stripes, Persian stripes and floral designs, also plain grounds with fancy Persian borders; any of these at per yard, only 50c.
Finnet Laines, 32 inches wide, all wool, fine twilled cloth, will not hold the dust, in all shades, with spots and stripes; some of these have a fancy border for use in trimming; any of these for the yard only 50c.
Printed Cashmeres, 28 inches wide, in fancy stripes and small sprigs, while some have the fancy Persian border; these will wash; the yard only 35c.

SMALLMAN & INGRAM, 149, 151 and 153 DUNDAS STREET.

Empire Soda. BEST FOR BAKING. doesn't cost as much as other leavening agents which are not as pure, good and wholesome. It will help even an indifferent cook to get good results. Ask your grocer for Empire Soda. If he hasn't got it he can get it for you. Price 5c a packet.

SWINDLERS IN THE TOILS

A Gang of Green Goods Crooks Spotted and Captured.

Six of Them in the Coils—Victim Paid \$300 for Blank Paper.

New York, Aug. 22.—What is said to be the biggest round-up of the green goods swindlers ever made by the federal authorities in this city was announced yesterday. Five men and a woman were taken into custody and an entire green goods plant was captured. Four of the prisoners, Joseph R. Baker, Elmer Brown, S. Gottlieb, and the victim's wife, were arrested in Newark, and George Brown and Thomas Henry were arrested in this city.

According to Postoffice Inspector Michael Boyle, he has secured as complainant against the prisoners, Antonio Capersese, a New Haven, Conn., butcher, who paid \$300 in cash, and received green paper in return. Many complaints from green goods victims have reached the postoffice recently, and the alleged "plant" was located in Newark after much work. Inspectors Courtey and Duray, of Philadelphia, and Bullman and McMillan, of Boston, came here, and set to work under the direction of the local inspectors.

It appears the inspectors saw a man come to the house with Elmer Brown, the alleged "steerer," followed by Baker, the alleged "trailer." The pair entered the house and came out, the victim carrying a miniature trunk about ten inches long and four wide. The "steerer" took him to an express office, where the trunk which the victim thought contained \$2,000 in bills printed from stolen Government papers, was shipped to New Haven. Then the inspectors placed Brown and Baker under arrest. "The victim said he had paid \$300 for the supposed money, and was thunderstruck when the inspectors showed him the trunk containing only slips of green paper cut the size of bills."

Soon after Brown and Baker were arrested the "plant" was raided and the Gottliebs were arrested. The victim said in the house were found all manner of green goods paraphernalia, a circu-

Uncle Sam's New Guns.

Washington, Aug. 22.—The test of the seven field guns subjected to trial at Sandy Hook, N. J., and at Fort Riley, Kas., with a view to the selection of a new weapon of this type for use in the United States army, are practically complete. It is the general opinion of army officers who have witnessed the workings of the guns that the choice lies between the three long coil weapons, the ordnance gun, the Eastleigh piece, otherwise known as the Lewis gun, and the Ehrhardt gun.

Piles of Precious Stones.

New York, Aug. 22.—The importation of precious stones this month at this port has so far, according to Appraiser Whitehead, amounted to \$2,000,000, an unusually large amount for the period. The total importations for the seven and a half months of this year amounts to \$19,250,000. This also is very much ahead of the previous year.

Fureka Harness Oil. Rain and sweat have no effect on harness treated with Fureka Harness Oil. It keeps the leather soft and pliable. It is the best oil for harness. It is sold everywhere in the world. Made by Imperial Oil Company.
