Real Estaters Against Innovation Do Not Favor Board of Control Idea

Would Like One Civic Engineer official would have a more thorough knowledge of all the details of the for All Civic Departments Appointed.

The Real Estate Owners' Association held a lively meeting last night, and discussed the question of apbe given complete charge of all the different departments in the city.

It was the unanimous opinion of the members that if the waterworks, hosthe direction of ce man, that the city better by reason of having one. would benefit greatly. In the opinion of the members the way benefit by having one.

city utilities, and would be able to make valuable recommendations which would result in a large saving to the city annually.

Besides this the members thought the city would have someone who could be held responsible, whereas, now, in thier opinion, there is no one. The question of appointing a board pointing one city engineer, who should of control was also taken up and discussed at length.

The majority of the members were of the opinion that the board of control had proven a most expensive inpital and school boards were united stitution in other cities, and that the and the whole business placed under affairs had not been administered any Lodnon, it was thought, would in

Figures Are Ready When Wanted Says Mr. Beck of Niagara Power FIFTY PERISH
