Those Present.

Among those present at the annual general meeting were: E. O'Keefe, Thomas Flynn, E. G. Gooderham, W. Parkyn Murray, Lieut.-Col. J. Davidson, Lieut.-Col. J. Mason, P. E. Luke, George F. Burns, Wm. Crocker, C. B. Powell, Colin Burgess, Edward Galley, H. C. Funck, L. H. Baldwin, A. W. Thomas, Isaac Moody, C. Cooper, J. O. Patterson, R. B. Street, H. T. Kelly, K. C. W. T. Kernahan, W. H. Partridge, J. M. Clark, K. C. John, Kenneth, E. Swart, Man; T. J. Healey, Widmer Hawke, H. W. Evans, H. G. Hopkirk, John Batho, C. E. P. McWilliams, E. Flanagan, Wm. LeVelle, Paris, Ont.; L. J. Applegate, George F. Clare.

The Report of the Directors.

On motion of J. M. Clark, K. C., seconded by Mr. John Kennedy, the president, Mr. Eugene O'Keefe, took the chair, and the general manager, Lieut.-Col. James Mason, acted as secretary.

Mr. Eugene O'Keefe, the president, presented the report of the directors: "The directors have pleasure in submitting to the shareholders the fourth annual report, giving the result of the bank's business for the year ending May 31, 1909, together with the balance sheet of the bank, to that date.

"Rates of money ruled lower, but the results of the year's business and the progress made by the bank were satisfactory.

"Four quarterly dividends amounting to 6 per cent on the paid-up capital have been paid and provided for, a sum has been added to the rest, sufficient to make that amount equal to one-third of the paid-up capital, and \$55,629.65 has been carried forward to the credit of the profit and loss account.

"The connection established in the Northwest referred to in the last annual report is proving to be a valuable one. Three new branches have been opened there, and some three hundred and thirty farmers have already become shareholders. The number is steadily increasing, and while in most cases their holdings are but limited in extent, the bank should in time derive much advantage from having a large body of shareholders of so valuable a class in that important section of the Dominion.

"The expectations regarding the crops in the Northwest mentioned in the last annual report were fully realized, and the prospects for the

NEW THEATRE USED FOR THE PASSION PLAY

Religious Drama Given First Presentation of Quadrennial Performance.

Selzach, July 2.—The first presentation of the performance of the Selzach passion play, "The Swiss Ober-Ammergau," was recently successfully given in the famous theatre built especially for that purpose.

The representation began punctually at 11 a.m., and with a short intermission from 1 to 2 o'clock, lasted until 5 p.m. The morning performance consists principally of living pictures from the Old and New Testaments, while the afternoon performance is chiefly oratorical and dramatic.

The first part serves as an historical introduction to the main theme of the Christ life and offerings of the cross. The remarkable groupings of the tableaux realize many of the world's famous paintings of Biblical subjects. The Crucifixion recalls Perugino's painting; the Resurrection that of Leonardo da Vinci's, and the Angelic salutation, Fra Angelico's.

The theatre was built in 1895, with special reference to the comfort of the spectators. It is completely roofed over, well ventilated and all the seats are numbered. More than 100,000 francs have been spent in rendering the electric light effects and the scenery and the orchestra efficient for such performances.

The marvellous results obtained by electric light produce a startling effect in depicting such a presentation as a realistic impression of golden ascent to heaven, while the ascension itself is a dazzling picture of glory, in which Christ is seen rising into the clouds, his brow crowned with brilliant light. These two tableaux were perhaps the best received by the audience, but those representing the entry into Jerusalem and the angel appearing to the shepherds were also greatly admired. It is intended to repeat the performance each Sunday up to Sept. 19.

Selzach is a little village of 1,600 inhabitants, nestled at the foot of the Jura Mountains and charmingly situated near Solothurn. Its inhabitants are engaged in agriculture, and are devoted to music, the drama, gymnastics and rifle-shooting. A generation has developed that has a preponderant interest in these arts—all culminating in the passion play. They are a simple peasant class, speaking the Swiss-German dialect. Their homes are styled in a simple, unadorned, but comfortable manner.

"Our deposits have increased by nearly \$1,000,000, of which \$732,000 has been added to the savings account and \$240,000 to the current account. The increase in the savings account is due to the fact that the deposits of about 20 per cent, a very satisfactory result, we consider. Our circulation is also somewhat in excess of last year's.

"We have added to the rest account \$35,648, making it \$333,652, equal to 35 per cent of the paid-up capital. The balance of the balance, \$55,629.65 to profit and loss account.

"We have opened during the year branches at Sunderland, Ont., Lyleton, Ont., Crystal City, Man., and St. John's, Nfld. The total assets show an increase of \$1,182,220.76."

An Enthusiastic Director
Mr. John Kennedy, vice-president of the Grain Growers' Company, of Winnipeg, and a director of the Home Bank, was present at the meeting, and described the nature of the organization of which he is the vice-president. In each of the three Northwest provinces there is a voluntary organization of the farmers, called Grain Growers' Associations, organized for the purpose of obtaining for their members the full market price for their grain. There are between twenty and thirty thousand farmers members of these organizations, and their number is rapidly increasing, and the expectation is that in time they will embrace practically all the farmers of the west, now numbering some 130,000.

The Grain Growers' Grain Company is an incorporated institution, with its headquarters in Winnipeg. It has a paid-up capital of \$1,000,000, and its company is \$25, and no one can hold more than four shares. The stockholders must be farmers or associated with farming, and must have a minimum of 100 acres of land. This company handles the grain of the members of the Grain Growers' Associations, advancing a certain proportion of the price, and the balance is paid to the farmers. Mr. Kennedy stated that they handled some \$8,000,000 bushels of grain in the season just closed and were more than ready to handle the grain of the year just closed at the bands of the Home Bank of Canada. The company was particularly fortunate, he considered, in having its headquarters in the Home Bank, and the bank found in the company a safe and profitable branch.

The bank, when asked to open a branch, found a great many of the neighboring farmers stockholders of the bank, and also members of the association, and having its headquarters in the Home Bank, and the bank found in the company a safe and profitable branch.

A resolution moved by Mr. L. H. Baldwin and seconded by Mr. W. T. Kernahan was adopted providing for an increase of one thousand dollars to be added to the sum appropriated for directors' fees.

On a motion by Mr. H. G. Hopkirk, the thanks of the shareholders were tendered to the president, vice-president and directors for their careful attention to the affairs of the bank.

On a motion by Mr. H. T. Kelly, K. C., seconded by Mr. H. W. Evans, the thanks of the shareholders were tendered to the general manager, Lieut.-Col. James Mason, and the other members of the bank for their efficient manner in which they have respectively discharged their duties during the past year.

Directors for 1909-1910.
Messrs. W. T. Kernahan and Wm. Crocker were appointed scrutineers and reported the following gentlemen duly elected directors for the ensuing year: Messrs. Eugene O'Keefe, Thos. Flynn, E. G. Gooderham, Lieut.-Col. J. Davidson, Wm. Parkyn Murray, John Persse, John Kennedy and Lieut.-Col. James Mason.

At a meeting held immediately after the close of the annual meeting of shareholders, Mr. Eugene O'Keefe was re-elected president, and Mr. Thos. Flynn re-elected vice-president of the bank.

SUSPICIOUS OF HAMILTON

estimate. It does not make any difference to London if they don't come. We will be able to live up to the original figures, because we are under our estimates fully half a million dollars.

"The line loss estimate," said Ald. Beattie, "was struck from the original estimate."

"That was made without Hamilton being considered," said Mr. Beck, "and we find that the cost of the power will not vary."

"If Hamilton comes in that should reduce our cost," said Ald. Beattie, "we can make good on our figures," replied Mr. Beck, "because we were under our original estimates."

Guarantee Wanted.
"Is there any way outside of what you tell us," said Ald. Moorhead, "that we can get any guarantee that Hamilton will not get cheaper power than London?"

"They won't," answered Mr. Beck. "It is a mistake to say that they will. The only change is that in case they want more than the 1,000-horsepower estimate, they are bound to take it from the commission."

"Why can Hamilton go to, say, the Leonard and Victoria, and ask Ald. Beattie, 'and London?'" asked Ald. Moorhead.

"Keep them out altogether if you like," said Mr. Beck. "If you had been down there three years ago, though, as I was and heard the talk about selling the city to Newcastle by bringing more power to Hamilton and had seen the fight we had, and now see their attitude, you would appreciate it, I can tell you. Anyway it makes it all the better for you."

"I think the municipalities should all be on the same basis," said Ald. Beattie.

"They are," said Mr. Beck. "But as you increase the demand the cost is naturally reduced."

The Delay in London.
"Do you think London has suffered any by the delay?" said Ald. Moorhead.

"That depends entirely," said Mr. Beck. "If you are ready when the power comes, it will not matter. If you are not ready it will indeed be a serious thing for the city."

"Do you think it would be wise for us to let our contracts before Hamilton has signed the contract?" inquired Ald. Moorhead.

"That is entirely your own lookout," Mr. Beck stated.

"Don't you think it would be just as well for us to sit down and do nothing for a while and try to get the same terms as Hamilton?" Ald. Beattie asked.

It is good business usually to sit down to do nothing," said Mr. Beck. "If St. Marys takes 1,500 horse-power instead of the 500 they are put down for in the estimates, and they are very likely to do so, it will help you in some way, and the total cost of the power will be reduced, and the nearness of St. Marys to London."

City's Liability
"You may as well understand first as last," Mr. Beck began, "that the city is bound to pay the interest on the sinking fund and on the moneys invested to bring the power here, whether you use it or not."

heavy bonds to have his share of the work completed.

Contract Signed.
"Is that contract actually signed?" said Ald. Beattie.

"Yes, it was signed six months ago," was the reply.

Sifton read a letter from Mr. McGuigan saying that the work will be done before March 10, and also a letter from the commission received yesterday urging the city to go ahead with the construction work, as follows:

"You are losing a good deal of valuable time in not beginning your constructive work at once, and I would advise you to get on with the receipt of Niagara power, otherwise we believe that it will be impossible for you to be ready in time. Tenders have been called for the erecting and transportation of buildings, and in the near future we will call for tenders for the construction of the London station."

The contractor is proceeding with construction and expects to have the entire telephone line completed in four months. After we commence to erect towers and transmission buildings, and in the near future we will call for tenders for the construction of the London station.

"P. W. SOTHEMAN," "Chief Engineer."

"Hamilton's Contract."
"Is there any way that we can find out the contract that Hamilton will get and will have to sign?" asked Ald. Beattie.

"I suppose if you write to the chairman of the commission," said Mr. Beck, "you understand that we, as commissioners, are not going to assume any of your responsibilities. We simply give you the power, as we said we would."

"If we are ready and the commission are not can we go after them?" asked the mayor.
