ON TRIAL FOR BRIBING GOVERNMENT OFFICIALS

Director and Agent of Krupp Works Implicated in Charges.

[Canadian Press.] Berlin, Oct. 23.—The trial began here today of one of the directors and a former agent of the Krupp armament works, who are charged with bribing Government officials to betray official secrets. The accused are respectively Otto Eccius and Maximilian Brandt.

Several army officers and ordnance department clerks were sentenced by court-martial on Aug. 5 to terms of imprisonment for accepting bribes in return for secret information given to Brandt.

In the meantime, another Lieutenant of the war department has been detected and sentenced to three weeks' confinement, and another culprit is being sought.

The proceedings today were uninteresting except for the disclosure, by Brandt of his original instructions from the Krupp works to approach his former comrades in the German army and to obtain information at Krupp's expense in order to obtain in advance information as to contracts about to be given out by the German Government.

INTERNATIONAL COUNCIL TO RUN PHILIPPINES

Important Suggestion Made by Assistant Solicitor of Dept. of Agriculture.

[Canadian Press.] Mohonk Lake, N. Y., Oct. 23.—Control of the Philippines by an international council was proposed today at the Lake Mohonk conference of Friends of the Indian and other Dependents of the Philippines. The suggestion came from A. S. Lanier, of Richmond, Va., assistant solicitor of the United States Department of Agriculture, who served in the Philippines for several years as assistant secretary for the bureau of justice.

Mr. Lanier let it be known that he had just submitted his plan to President Wilson and to the departments of state and war. He offered it as a solution of the problem he considered not only perplexing, but menacing, to the one of all others most likely to embroil this country with Japan.

The plan provides for a council composed of members selected by the United States, England, France, Germany, Russia and other nations. This body would select a chief executive. It would be the upper legislative house of the islands with a lower house composed entirely of natives. Its creation, Mr. Lanier thinks, would do away with the necessity of keeping troops in the Philippines outside of the native forces.

The session of the conference today was devoted to the Philippines.

MONSTER APPLES

Brooke Farmer Has Some Pippins Weighing a Pound and a Half.

[Special to The Advertiser.] Brooke, Oct. 23.—This is supposed to be an off year for apples, but there are some pretty fine specimens in the orchard of Richard Williamson, 121 line. He has some pippins which measured 13x13½ inches, and weighed 1½ pounds, and the quality was just as satisfactory as the size.

INSTANTLY KILLED

J. P. Healy Slipped in Front of Incoming Express.

[Canadian Press.] Port Arthur, Oct. 23.—J. P. Healy, formerly general merchant of Rosport, and lately resident in Port Arthur, where he was heavily interested in real estate, fell in front of the Canadian Pacific Railway express from west at noon today, and was ground to pieces. He leaves a wife and nine children.

Healy's death was purely accidental, and that he was caught while trying to run around in front of the incoming express to put a letter in the mail car. It is supposed he slipped on the wet rail.

NO MONEY HIDDEN AWAY.

[Canadian Press.] New York, Oct. 23.—Sulzer denied a published report that he has \$100,000 hidden away in a Toronto bank. He again declared he was poorer than when he became governor, and that his recent statement of debts would stand in answer to any stories of his having other funds.

IN GOOD SHAPE FOR HANDLING BIG CROP

Saskatchewan Is in Best Position in Its History at Present.

[Canadian Press.] Regina, Oct. 23.—Saskatchewan is in a much better position today than ever before in her history in regard to movement of crop, condition of the labor market, and supply of transportation facilities, according to statistics received at the provincial department of agriculture.

Figures show that the amount of grain shipped out of the three western provinces during the months of September and October is more than double the amount shipped last year.

Conditions which prevail in other provinces are also evident in Saskatchewan, where with a crop that comprises 50 per cent of the entire western shipment the situation is reported to be favorable in the extreme.

Telegraphic reports received from correspondents of the department throughout the province show threshing is nearly completed. From only a very few points is there any report of shortage of cars, and the condition of the labor market is also of a most encouraging nature.

KILLED BY EXPLOSION

Sheet Metal Worker Was Making Repairs to Gas Tank.

[Canadian Press.] Ottawa, Oct. 23.—Harry Chevertoff, sheet metal worker, with a wife and family, was instantly killed last night at the laboratory of Prof. L. H. Burrows, here while engaged in making repairs to a gas tank. The scientist is experimenting on a powerful hydrochloric gas, and the tank was thought to have been emptied and blown out by steam preparatory to the repair work. Some of the hydrochloric solution must have been left in it, however, for the instant one of the pipes was disconnected and air allowed to enter, the top of the tank blew off, wrecking the room. Chevertoff was struck under the chin by the ascending tank cover.

Had a Stroke Of Paralysis

And Found a Cure in Dr. Chase's Nerve Food.

It is always better to prevent serious diseases of the nerves. There are many warnings, such as sleeplessness, irritability, headaches and nervous indigestion.

Prostration, paralysis and locomotor ataxia only come when the nervous system is greatly exhausted. Even though your ailment may not yet be very serious, there is a great satisfaction in knowing that Dr. Chase's Nerve Food will cure paralysis in its earlier stages.

Mrs. R. Bright, 215 Booth avenue, Toronto, writes: "Two years ago my husband had a stroke which left him in a weak, nervous condition. He started taking Dr. Chase's Nerve Food and Kidney-Liver Pills, and we saw the good results almost immediately. They have made a new man of my husband and we cannot speak too highly of them."

New Fashions Opening Up--- Great Sales Going On

Every Department Humming With Busy-ness

Almost every industry, art and fashion of the world is represented here. The much greater part of our merchandise is, of course, Canadian or British manufacture (of which we are proud), which is imported under favorable tariff preference. But where we find other foreign goods better, more artistic or revealing new ideas or novelty, it is our business, acting as your agents, to bring them here for you at the lowest possible cost.

This business steers clear of all will-o'-the-wisp allurements. Our early-established system, established in the 70's at the beginning of this business, is still adhered to, which is to gather the best merchandise produced, and sell it at a moderate profit, taking back whatever the purchaser prefers not to keep. And those who deal with us know that nothing would induce us to dishonor that motto: **WE ARE YOUR AGENTS.**
