SLOW PROGRESS MADE WITH SELECTION OF JURY

Another Special Verdict May be Needed in Trial of Haywood

PEREMPTORY CHALLENGES USED

Incident of Orchard Interview is Passed with Report from Prosecuting Attorney

Boise, Idaho, May 17.—District Judge Wood, before the Haywood jury was brought into court today, drew attention to the interview with Harry Orchard published in the morning papers, which he said undoubtedly was calculated to influence the witnesses and the jury.

Judge Wood directed the county prosecutor to make an investigation of the facts connected with the Orchard interview, and to take such action as he found to be warranted.

Judge Wood announced that he had seen articles concerning an interview with the state's most important witness against the defendant. He declared the publications were highly improper, coming as they did during the empanelling of the jury.

"While they appear to the court as not precisely in contempt," continued Judge Wood, "they are nevertheless calculated to influence the jury in this case. Something must be done to prevent a recurrence of this if we are ever to get a jury."

Conceding to defence and prosecution in the case, which today began its fifth day, much doubt as to the probability of securing a jury for several days. The fact that eleven foremen were caused at today's session in the effort to fill the one seat vacated by a peremptory challenge, and that it took two hours and a half to qualify one man for cause alone at the half day session yesterday, are part of the reasons for the delay.

Notwithstanding the fact that 57 foremen are yet to be called from the grand venire, announced by Sheriff Johnson, fear is expressed that this venire may be exhausted and another will have to be called.

Additional witnesses are arriving on every train. Two witnesses who are expected to arrive here in connection with the discovery of what is known as the Green fire, or "Pettibone dope," buried in an old sawmill at Pocatello, and in connection with the confession made by Steve Adams, said to have been made by Adams, are expected to arrive here.

Adams is said to have confessed that he went to Pocatello to blow up a carload of non-union miners. In his confession he is alleged to have named the place where he buried the explosive, as the car failed to come through the town. After the confession was made Adams himself, with a party of officers, including the Governor of Idaho, travelled to Pocatello, located at the place where the explosive was said to have been buried. It was found that a farmer, who is one of the witnesses here, yesterday testified that his children unearthed the explosive and that it exploded, seriously injuring the children.

In the confession Adams told of the hotel at Pocatello at which he registered and that it was feared that this hotel was the place where the confession was made, but another of the witnesses who came in yesterday was the proprietor of the hotel, which was destroyed, and who it is said has with him the old register showing that Adams did register at the hotel on the day he was arrested. It has been stated that Adams will be called as a witness by the defence, but now it is intimated that Adams may testify for the state.

The interview given by Orchard yesterday to representatives of the Associated Press has caused the charges that Orchard was kept in concealment and that he was insane, or that his confession had been forced from him under duress or extracted by promises to be completely exonerated by the statements and appearance of the man.

Boise, Idaho, May 18.—Prosecuting Attorney Keesch today completed his investigation of the circumstances under which Harry Orchard, the principal witness for the state in the Stoneberg murder case, was interviewed and presented to the district court a report exonerating him from charges of improper motives all persons connected with the incident. He found that the only motive the newspaper man had in interviewing Orchard was to obtain news of him. In announcing the report, Judge Wood directed that it be filed.

Progress toward the completion of a jury is being made by the suspending of peremptory challenges allotted by the state and the defence, if by no other means. Up to adjournment this afternoon, the state had used five of its ten challenges, and the defence four of its ten, so that there remain unexpended only eleven peremptory challenges.

The special venire of 100 talemans that reported in court last Monday was

A BIOLOGICAL STATION AT DEPARTURE BAY

Board at Ottawa Decides on Establishment for Marine Scientific Work

HONORS FOR JAPANESE PRINCE

Ottawa, May 17.—The Marine Biological board has decided to establish a station this summer near Departure Bay, which is regarded as splendid ground for scientific work. Prof. Prince will spend some weeks at the station during the summer and British Columbia scientists will be made welcome. Mr. Sloan strongly urged the establishment of the station during the last session.

GOVERNOR HUGHES HONORED

Washington, May 17.—Governor Charles H. Hughes, of New York, was today elected president of the new Northern Baptist convention, which was organized here today. The action was taken at the general meeting of the delegates of the general Baptist societies and other Baptist laymen.

CONVEYING BUFFALO HERD FROM MONTANA

One Trainload to be Taken to Edmonton This Week and Another in August

Calgary, May 18.—A train load of the buffaloes which the Dominion government has purchased in Montana, and which will be shipped to Edmonton this week and another in August.

WHEAT CROP ON PRAIRIE MAY NOT BE MUCH DECREASED

Reports Show That Seeding Has Been Practically Completed

ACREAGE SLIGHTLY DIMINISHED

Crop Yield Expected to Be Almost or Quite as Large as that of Last Year

Winnipeg, May 18.—It is surmised from reports coming in from all over the country that from 85 to 90 per cent of the wheat will be sown by night, or practically all.

WELLS-JACKSON CASE

Administration of Justice in Ontario Called in Question

Toronto, May 18.—The Globe devotes considerable space to the famous Wells-Jackson case, of Orangeville, a two column article from that town appears on the front page, and the case is carefully reviewed.
