

A WORD TO THE PUBLIC OF CANADA.

Have You Investigated the Great Remedy

Wm. RADAM'S MICROBE REMEDY

If interested directly or otherwise in alleviating human suffering it behooves you to give heed to our appeal, requesting your personal investigation as to what this remedy has accomplished in the past and is doing at the present time.

We speak advisedly, knowing full well the responsibility attached thereto, when we claim to possess the only true remedy that has ever been brought before a people to thoroughly free the blood from its impurities, whenever disease has fastened its fangs upon human flesh and blood. Disease is caused by living germs in the blood and tissues, in other words called MICROBES.

ALL SICKNESS, no matter by what name it is called, whether Cancer, Tumor or Blood-poisoning, Asthma, Consumption or Kidney Troubles—in fact, all—are caused through this microbic infection of the blood. This much being settled as true, the next thing wanted is a remedy to destroy and cast out of the human system this foreign evil successfully and without harm to the patient.

What remedies are generally used the world over to do this? Chloroform, Cocaine, Morphine, Mercury, Arsenic, Belladonna, Digitalis, Calomel and a host of other fearful poisons are all in daily use to kill the Microbe, but they all fail, for the one reason that we can not administer these dangerous drugs in large enough doses, nor for any length of time, without destroying the life of the patient.

On the other hand, "RADAM'S MICROBE KILLER" has been in use over four years throughout the civilized world and has been almost universally successful in its mission of cleansing the blood from its living pests, driving out disease and bringing back the bloom of health again to the patient.

"No funerals have ever been the outcome of using this remedy." This medicine contains powerful Antiseptic Gases, which are death to every living organism in the human system not belonging thereto. The public are not to be blamed for having lost considerable faith in the healing art after witnessing so many failures on the part of those whose occupation and duty it should be to search out continually towards a succor for the human ill. "But Medical and Chemical Chicanery," backed by "Educated Ignorance," has alike tended to throw discredit upon an honorable God-like profession and a striving by others to attain the end in view.

"\$1000 FORFEIT. Wm. RADAM" will give to professional or layman, if upon using his remedy as directed upon any and every disease, it fails to be a "GENUINE MICROBE KILLER."

Now then who will try and earn this fee? We possess thousands of testimonials embracing every known form of disease cured by the "Microbe Killer," which can be had by applying to our offices anywhere, and if any single one is found not genuine the above amount will be forfeited to them. The medicine is requested to faithfully use our remedy as directed, and if we fail we will refund their money.

This medicine is a pure water charged with life-saving gases, put up in One-Gallon Jars only, price \$3.00. Sent to outside points, two jars for \$5.50.
