theoretical point of view, it now rebody the principles involved in concrete legislation. If left to itself questions will soon arise which will either force the parties concerned to enact such legislation as will give effect to the ideas involved in the project, or else convince us that the project is unworkable. The copyright question, for instance, is now an urgent one, and the Imperial authorities will have to deal with it in some manner or other in a very short time. The present is an opportune moment for us to consider whether that question should be settled according to the Mother Country and the colonies, or whether it should be settled on the lines of the new constitution, which both Great Britain and the colonies are anticipating as the outcome of the federation accepted the appointment as assistant teacher and drill instructor at the school.

The nearest approach to such representation that we have had has been in the appointment of a few of our most celebrated statesmen to Her Majesty's Privy Council; but these appointments were given to us as a matter of honor and not as a matter of right. The endorsement by physicians of Scott's Emulsion is no bombast or buncombe. In all diseases or unhealthy conditions indicated by excessive wasting, Scott's Emulsion aids medical science more than any other nourishment. Scott's Emulsion helps a dyspeptic person by aiding the digestion of other foods, and to a person who is failing in health it gives increased appetite and promotes the making of solid flesh and gives vital strength. It enriches the blood, makes new lung-tissue and overcomes all wasting tendencies.

In cases of Inflammation of Throat and Lungs Scott's Emulsion has no equal in

the most stubborn cough, soothes and cures sore throat, and overcomes all the early stages of consumption.

In the wasting of the vital elements of the blood Scott's Emulsion also works wonders. Anaemic or scrofulous persons are made well by it, and there is restored the pure skin and healthy color.

People who are exposed to the sudden changes of our Northern climate have little chance of escaping colds, coughs, sore throat and lung troubles. The best safeguard is to keep Hagyard's Pectoral Balsam at hand. It is a quick relief and reliable cure for such complaints. 246
