Important To Nova Scotia Farmers Plan to Grow Clover Seed This Year.

While many farmers in Nova Scotia were paying from 65 to 90 cts per pound for clover seed this spring others had their own which they grow at small expense, thereby saving themselves a substantial cash outlay and also providing themselves with an ample supply of clover for all their needs. Many more should plan to grow their own clover seed.

The best way to grow clover seed is to cut the first crop of clover about June 20th to 25th. The second crop will thus get an early start and will in all likelihood produce a good crop of seed to be harvested in Oct. Sometimes a satisfactory crop of seed may be obtained by allowing the first growth of clover to thoroughly ripen but it will not be as clean and generally not as heavy as the yield from the second growth. The farmer who cuts his clover so early in the season will get a fair amount of fodder and when he has added to this the straw from the second crop he will get almost as much fodder for feed purposes as if he had cut his crop in the ordinary way and he will have his valuable clover seed to the good.

A farmer in Antigonish County, Nova Scotia cut one half acre of his clover on June 25th 1918; he harvested from this half acre in the fall 215 pounds of clover seed of prime quality. Some of this he sold at eighty five cents per lb or at the rate of \$365 per acre. Half the yield he obtained would have been a very profitable return for his work. Many other farmers in Nova Scotia could do as well as this Antigonish farmer.

In respect to threshing this clover the Department of Agriculture who annually operate one clover thresher in various parts of the Province and who have bussed two other clover threshers one in Kings County and one in Pictou County. The Department is also trying out a small easily portable machine which will handle the clover after it has been put through an ordinary grain threshing machine. Thousands of dollars could be saved by farmers in Nova Scotia and thousands of dollars added to the fertility of the soils of Nova Scotia if many more farmers would copy an example of the foregoing Antigonish farmer.

DIRECTIONS FOR THE MARKETING OF WOOL

Those who wish to take advantage of co-operative marketing facilities for their clip should note the following facts. Receiving stations have been arranged for at Port Hood, Antigonish and Truro. The men in charge at these points, to whom shipments should be addressed are: D. F. Fraser, Port Hood, Dr. Hugh McPherson at Antigonish and L. W. Black at Truro.

The very first step to be taken is to secure from Mr. Black, Agricultural College, Truro, paper twine for tying up the separate fleeces. This comes at 40 cts per lb, plus postage, being sufficient to tie the 40 fleeces. Freight charges are paid by the receiving station and deducted from the final remittance. Twenty cents per lb will be remitted on receipt of wool, the balance to be paid when the wool is graded. No guarantee can be given as to the final amount, but it will be remembered that the Canadian Co-operative Wool Growers, Limited, last year paid on an average about 40% higher prices than the ordinary dealers.

Any person desiring further information would do well to write to the Agricultural College, Truro. The above receiving stations will be ready to accept shipments from June 15th to July 15th.

Nova Scotia last year sold 111,377 lbs of her wool clip through the Canadian Co-operative Wool Growers, Limited. Of this amount, almost as much as the two other Maritime Provinces put together, marketed through this organization, only some 8,000 lbs fell below the highest quality. This is a fine record.

HARD TO REALIZE SHE'S SAME WOMAN

Mrs. McClanahan Brimful Of New Life and Energy Since Taking Tanlac

"I have not only gotten rid of a severe stomach trouble of nine years standing since I started taking Tanlac, but have gained ten pounds in weight and am still gaining," said Mrs. D. McClanahan, Green Bay, B. C., recently. "Before I started taking Tanlac, I was so weak I could hardly get about and my appetite was so poor I had no relish for any kind of food and just had to force down every mouthful. When I did manage to eat a little something it began to ferment almost at once, I would have intense cramping pains in the pit of my stomach and gas would form and press against my heart until it palpitated dreadfully. I suffered with such severe headaches nearly all the time they almost made me desperate, and at times I became so dizzy it was all I could do to stand on my feet. Then, too, I was extremely nervous so the least little noise would completely upset me. Why, I could not even stand the rustling of a newspaper and it was just impossible for me to get a good night's sleep, as I would toss about all night long, and I always felt worse on getting up than I did when I went to bed. I was always troubled a great deal with constipation and had to always be taking some sort of laxative.

"But things are altogether different now, for since taking Tanlac I am completely rid of all my troubles. My appetite is simply wonderful and I can hardly eat enough to satisfy myself. I eat just anything I want without suffering any bad after effects whatever, I am never troubled with pains, gas or palpitation of the heart and have not had a headache or dizzy spell since I began taking Tanlac. My nerves are in such good condition I can sleep all night long as peacefully as a child and always get up feeling greatly refreshed. I am not troubled with constipation any more and have regained my strength to such an extent, and feel so good and am so full of life I can hardly realize I am the same woman. My husband, whose stomach was in every bit as bad condition as mine was, has gotten the same results from Tanlac that I have, and we both recommend it every chance we have. Tanlac is sold in Bridgetown by S. N. Wear and in Middleton by Clifford A. Mumford and in Bear River by L. V. Harris.

NOT TO BE BEATEN

An American gentleman spending his holidays in County Roscommon fell into conversation with Pat, who was feeding hens. "I guess, Pat, you haven't as good hens here as we have in the States." "Perhaps not," said Pat. "I'll tell you," said the Yankee, "about a hen my mother had: 'She went out one day and ate a feed of corn and returned and laid twelve eggs. She went out on the next day and ate a feed of corn and laid twelve more eggs. She went out on the third day and ate more corn and returned and laid another twelve eggs. 'She sat on the thirty six eggs, and hatched seventy-two chickens out of thirty-six eggs. 'Now, that is the kind of hens we have in the States.' 'Well,' said Pat, 'I'll tell you about a half blind hen my mother had. She ate a feed of sawdust thinking it was oatmeal. She went to her nest and laid a plank 12 feet long. 'She ate more sawdust next day, and laid another plank 12 feet long. She ate more sawdust the third day, and laid another 12 feet plank. She sat on the three planks, and hatched three kitchen chairs, a sofa, one table and a mahogany chest of drawers. 'Now,' said Pat, with a twinkle in his eye, 'that's the kind of hens we have in Roscommon.'"

HEALTHY CHILDREN ARE HAPPY CHILDREN

The well child is always a happy child—it is a baby's nature to be happy and contented. Mothers, if your little ones are cross and peevish and cry a great deal they are not well—they are in need of medicine—something that will set their bowels and stomach in order, for nine-tenths of all childhood ailments arise from a disordered state of the bowels and stomach. Such a medicine is Baby's Own Tablets. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach, and thus drive out constipation, colic, indigestion; break up colds and simple fevers and make the baby healthy and happy. Concerning them, Mrs. Albert Hamel, Pierre-ville, Que., writes: "Baby's Own Tablets are the best medicine I know of for little ones. They relieved my little girl from constipation when nothing else would and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

PRINTING COSTS MOUNT

With paper, ink and other mechanical charges mounting and wages being repeatedly advanced the day of cheap printing seems to be rapidly passing.

Many country weeklies have raised their subscription rates from \$1 to \$1.50 and from \$1.50 to \$2 and this latter price is being readily accepted by the readers as a logical outcome of the trend of times.

A religious paper of one of the strong Protestant religions has recently notified the Church that it is not prepared to stand behind and finance the paper, it will have to give up the struggle. Another Protestant church confesses that it loses \$20,000 a year on its publications in spite of a \$2 subscription price for the Church paper.

The cost of printing is becoming a serious matter.

The finest collection of live stock in Canada is kept at the Agricultural Farm at Truro.

Keep Them Growing Children who are over-thin, listless or delicate, should take Scott's Emulsion regularly every day as an aid to growth and sturdiness. Nothing surpasses Scott's Emulsion as a tonic-nutrient for a child of any age.

Scott & Bowne, Toronto, Ont. 29-56

Quarterly Meeting United Fruit Cos.

Decided to Establish Canneries and Vinegar Factories in the Valley (Berwick Register)

The quarterly meeting of the Board of Directors of the United Fruit Company, Limited, opened at Kentville on Saturday.

President Bishop was in the chair. The reports show that the affairs of the company are in excellent shape. There was a lengthy and enthusiastic discussion with reference to the establishment of canneries as well as vinegar factories in the Valley for the purpose of taking care of apples that are not strictly up to the Nova Scotia standard for shipment abroad. The Board of Directors unanimously adopted the proposition, and instructed General Manager A. E. McMahon to proceed accordingly.

BEFORE PROHIBITION

A farmer gave a printing office an order for Sale Bills. The job was promised for June 30th. The date being just before the prolonged drought started, the printer decided to take a few parting drinks. He took several. Then he happened to remember the bills that were promised for delivery that day and staggered to the office to get out the job. The farmer called for the bills, paid for them, took them home and the next day started to put them up. This is what he read when he came down to the list of articles for sale:

25 cows broke to work; 10 head of cultivators, coming in soon; 10 head of shovelling bars, with scoops by side; 8 piano mares, 120 rods of canvas belting better than new; DeLaval cow with ice cream attachment; McCormick binder in foal; Poland China booted due to farrow in April; 14 head of chickens with grass seed attachments in good working order; 2 J. I. Case riding helters good as new; Spraying outfit can be ridden by children; 15 hilly goats, 70 bushels capacity with spraying nozzle and other attachments; many other articles too numerous to mention, which I expect to get at night between now and the sale.

EXPERT ADVICE

The curate prided himself on his oratorical powers. He was describing the downward path of the sinner and used the metaphor of a ship drifting and going to pieces on the rocks. A sailor in the audience was deeply interested.

"The waves dash over her—" bellowed the curate. "Her sails are split! Her yards are gone! Her masts are shivered! Her helm is useless! She is driving ashore. There seems no hope! Can nothing be done to save her?"

The sailor rose in his seat, his eyes wide with excitement. "Let go the anchor, you darn fool," he shouted.

WRIGLEYS

After a hearty meal, you'll avoid that stuffy feeling if you chew a stick of WRIGLEYS

Other benefits: to teeth, breath, appetite, nerves. That's a good deal to get for 5 cents!
