SEASON OF 1885.

CLEAR GRIT STALLION

The Major.

Sorrel horse foaled June 16th, 1881; bred by Mr. James McMullin, of Seaford, the home of old "Clear Grit," sire of Abber, 225; Little Billy, 225; St. Patrick, 226; Clothas Pin (trial), 222; Flora F., 224; Billy M. (sacer), 219; Fuller (sacer), 213. The Major is a beautiful golden sorrel, with white on all of his feet and white blaze on face, stands 15 1/2 hands good, and weighs 1,100 lbs., being a splendidly developed horse of great bone and muscle, with the fine, slashing gait characteristic of the great family of Clear Grits. He also took second prize last fall at the Industrial Show against a field of eighteen. He has never been handled, but a brother of his, twenty months old, trotted 1 mile this winter in 15 seconds.

The Major's dam, Aunt Betsy, by Harper by Lexington, out of a Black Hawk Morgan mare, Aunt Betsy being one of the best roadsters in Western Canada, and being recently sold to Mr. George Jackson, of Minneapolis, U.S., at a large figure, for breeding purposes. The Major is considered by the best judges to be the finest bred colt left from his renowned sire, old "Clear Grit."

The Major will be located at the CITY HOTEL, STABLES in GUELPH, for the season of 1885, where he will serve a limited number of mares, being stinted to 25 mares.

TERMS - To insure, \$20, payable in January, 1886, if mare proves in foal. Season service, \$15, payable at end of season. Single service, \$10, payable at time of service. Insured mares must be returned regularly to the horse, or they will be charged for as with foal. Groom's fee, fifty cents. Best attention given, but all accidents at risk of owners.

What is Catarrh?

Catarrh is a mucous purulent discharge caused by the presence and development of the vegetable parasite ameba in the internal lining membrane of the nose. This parasite is only developed under favorable circumstances, and these are: Morbid state of the blood, as the blighted corpuscle of tubercle, the germs poison of syphilis, mercury toxemia, from the retention of the effete matter of the skin, suppressed perspiration, badly ventilated sleeping apartments, and other poisons that are generated in the blood. These poisons keep the internal lining membrane of the nose in a constant state of irritation, ever ready for the seeds of these germs, which spread up the nostrils and down the fauces or back of the throat causing ulceration of the throat up the eustachian tubes causing deafness, burrowing in the vocal cords causing hoarseness; usurping the proper structure of the bronchial tubes, ending in pulmonary consumption and death.

Many attempts have been made to discover a cure for this distressing disease by the use of inhalations and other ingenious devices, but none of these treatments can do a particle of good until the parasites are either destroyed or removed from the mucous tissue.

Sometimes since a well known physician of forty years' standing after much experience, succeeded in discovering the necessary combination of ingredients, which now fails in absolute and permanently eradicating this horrible disease, whether standing for one year or for forty years. Those who may be suffering from the above disease should, without delay, communicate with the business manager of MESSRS. A. H. DIXON & SON, 305 King Street West, Toronto, and get full particulars and treatise free by enclosing stamp. - Mail (Canada.)

INTERNATIONAL COLONIAL EXHIBITIONS.

ANTWERP IN 1885.

LONDON IN 1886.

It is the intention to have a Canadian representation at the INTERNATIONAL EXHIBITION at Antwerp, commencing in May, 1885, and also at the COLONIAL and INDIAN EXHIBITION in London in 1886.

The Government will defray the cost of freight in conveying Canadian Exhibits to Antwerp, and from Antwerp to London, and also of returning them to Canada in the event of their not being sold.

All Exhibits for Antwerp should be ready for shipment not later than the first week in March next.

These Exhibitions, it is believed, will afford favourable opportunity for making known the natural capabilities and manufacturing and industrial progress of the Dominion.

Circulars and forms containing more particular information may be obtained by letter (post free) addressed to the Department of Agriculture, Ottawa.
