**HOLSTEINS FOR SALE.**

**"BARRINGTON."**

No. 278 N. H. B. No 2103 H. H. B. Out of Hamming, with milk record of 99lbs. in single day

We now have in quarantine, at Quebec, an importation of over 60 head of Holsteins, which will be released Dec. 29th. This herd consists of cows, yearlings, and calves; and has many prize animals from this year's great "International Exhibition," at Amsterdam;—including the cow, that won first prize of \$160 and bronze medal as giving the best quality of milk, for cows giving over 40 lbs. per day. Also the cow with her gold medal, won at Schagen in 1881. The cows of this importation have milk records from 65 lbs. per day,—as three years olds;—and the ancestors of the young stock, have equally good records. Wishing to give our Canadian friends and patrons, the benefit of our personal selections, of first class Holstein stock, without the necessity of a second quarantine, we, with great difficulty, succeeded in obtaining transportation to Quebec;—and feel confident that they will, in return, embrace the present desirable opportunity of securing them before quarantine expires;—as all not then disposed of, will be removed to the Sinclairville Stock Farm. Write for Illustrated Catalogue. All correspondence should be addressed: B. B. LORD & SON, Sinclairville, Chant. Co. N. Y.

**CHEAP FARMS**

**NEAR MARKETS.**

The State of Michigan has more than 4,500 miles of railroad and 1,600 miles of Lake transportation, schools and churches in every county, public buildings all paid for, and no debt. Its soil and climate combine to produce large crops, and it is the best fruit State in the Northwest. Several million acres of unoccupied and fertile lands are yet in the market at low prices. The State has issued a PAMPHLET containing a map also descriptions of the soil, crops and general resources which may be had free of charge by writing to the COMM'R OF IMMIGRATION, DETROIT, MICH.

**MUSICAL.**

*From the Boston Evening Traveller.*

THE KNABE PIANO, which has such a wide popularity, is considered by many experts to be superior in every way to any other Piano in the world. The success of this Piano has only been attained by years of careful study, and the Knabe, with its excellent singing quality, its great power, the elasticity of touch, and superior workmanship, is justly the favorite. Herr Faeltner's piano solos at the recent Worcester festival, the Schuman's concerto, in A minor, op. 54, and Liszt's Rhapsodie No. 4, which were so highly praised, were both performed upon a Knabe Piano, Herr Faeltner pronouncing it to be the best Piano he had ever seen.

We call the attention of the readers of the *Journal of Agriculture* to the Enterprise Meat Choppers advertised in our present issue. The demand for these Choppers has attained such immense proportions that the manufacturers have been compelled to largely increase their facilities for making them, and we are assured that they are now being turned out at the rate of 2,500 per week, 150 hands being steadily employed on them.

There can be no doubt as to the excellence of the Choppers, as they have been tested by the editors of nearly 100 agricultural papers, who have given them a hearty endorsement. We cordially recommend them to all our subscribers as by far the best machine of the kind ever introduced to public favor.
