

Baptism, lately published by the Presbyterian Board of Publication. They discuss, and, in our estimation, settle several of the points in dispute between Pedo-baptists and anti-pedo-baptists. They may be profitably circulated in regions where the people need to be instructed and established in the scripture doctrines on these points.

LITERARY NOTICE.—SCIENTIFIC AMERICAN

One of the most interesting and useful publications of the day is the *SCIENTIFIC AMERICAN*, a weekly publication, devoted to popular science, new inventions, and the whole range of mechanical and manufacturing arts. The *SCIENTIFIC AMERICAN* has been published for fifteen years, by the well-known Patent Solicitors, Messrs Munn, & Co. 37 Park Row, New York; and has yearly increased in interest and circulation, until it has attained, we understand, nearly 30,000 subscribers, which is the best of evidence that the publication is appreciated by the reading public.

To those of our readers who may not be familiar with the character of the paper, we will state some of the subjects of which it treats. Its illustrated descriptions of all the most important improvements in steam and agricultural machinery, will commend it to the Engineer and Farmer, while the new household inventions and shop tools which are illustrated by engravings and described in its columns, with the practical receipts contained in every number, render the work desirable to housekeepers, and almost indispensable to every mechanic who has a shop for manufacturing new work.

The *SCIENTIFIC AMERICAN* is universally regarded as the inventors' advocate and monitor; the repository of American inventions, and the great authority on law, and all business connected with Patents. The Official List of Claims, as issued weekly from the Patent Office, in Washington, are published regularly in its columns. All the most important patents issued by the United States Patent Office are illustrated and described on its pages, thus forming an unrivalled history of American inventions.

It is not only the best, but the largest and cheapest paper devoted to Science, Mechanics, Manufactures, and the Useful Arts, published in the world. Hon. JUDGE MASON, formerly Commissioner of Patents, is not only engaged with the publishers in their immense Patent Agency department, but as a writer on Patent Laws and Practice, his ability is forcibly portrayed in the columns of this paper;

The *SCIENTIFIC AMERICAN* is published once a week, (every Saturday,) each number containing 16 pages of Letter press, and from 10 to 12 original Engravings of New Inventions, consisting of the most improved Tools, Engines, Mills, Agricultural Machines, and Household Utensils, making 52 numbers in a year, comprising 832 pages, and over 500 Original Engravings, printed on heavy, fine paper, in a form expressly for binding, and all for \$2 per annum.
