### Tan Bark.

The *Globe* says Canadian capitalists should take immediate note of an enterprise just being introduced on the rivers of the Southern States—namely, the pressing of tan-bark for carriage by rail or export. The press is carried on a stern-wheel steamer which is to run on the Tennessee River as far up as Florence, Ala. She cost \$50,000. The press, which is a 14 inch cylinder, is driven by the engines which drive the boat. A pressure of 1,500 tons is put on the bark in the cylinder. The bark is first ground on a machine located in the fore part of the vessel, and is then conveyed by a traveller to hoppers which feed the cylinders. Another traveller conveys the pressed cylinders of bark to the hold for shipment. The substance when pressed is as hard as rock, and needs no barrel, bale tie, or covering. On soaking in water it expands to its former size. In that section loose tan-bark is worth \$10 to \$15 a ton. The price in Europe is about \$30 to \$35 a ton.

The *Port Hope Times* says that the Georgian Bay Lumber Co. intend shipping 50,000,000 feet of lumber at Port Hope next summer.

LARGE quantities of cedar are being gotten out in Door county, Sturgeon Bay region, Wis., notwithstanding the lack of snow. The local papers pronounce the industry a bonanza to the people in that vicinity.

The *Duluth Lake Superior News* says that the Shell Lake Lumber Co. recently received one hundred cars of snow with which to manufacture lumber roads.

**GOLDEN INFORMATION.**—A while ago, said Mrs. Dr. A. A. Jordan, 51 Lincoln street, Worcester, Mass., one of my friends from the south spoke to me very highly of St. Jacobs Oil. I resolved to try it on my patients, and I must confess that I was surprised at the results. It has never failed to cure all that it claims to, and I prescribe it willingly and confidently to those of my patients who suffer with rheumatism, sprains and all bodily pains. It is certainly a wonderful remedy, and I can highly recommend it.

Is it a HUMBUG? Some people think all proprietary medicines humbugs. In this they must be mistaken. A cough medicine like N. H. Down's Elixir that has stood the racket of 52 years must have some virtue, and must cure the diseases for which it is recommended, or people would not continue to buy and use it as they do. It seems to us that even if we knew nothing of its merits, the fact of its large and continually increasing sale justifies us in recommending Down's Elixir to all who may need a reliable cough medicine.

**How to CURE A COLD.**—Upon the first feeling of chill or shivering remain indoors if possible, bathe the feet in tepid water, gradually increasing the heat as long as it can be comfortably borne, drink freely of warm ginger tea or sage tea, to induce perspiration, and take Hagyard's Pectoral Balsam according to directions on the bottle. Hagyard's Balsam cures coughs, asthma, and bronchitis.

# MALTOPEPSYN

Artificial Gastric Juice.

A WONDERFUL FACT, proving the remarkable digestive power of Maltopepsyn.

Two doses (30 grains), of Maltopepsyn will digest the entire white of a hard boiled egg in a bottle of water, in from 3 to 4 hours. How much more will it digest in the stomach assisted by that organ? About twenty times the quantity.

Test this for yourselves,—it is an interesting and useful experiment.

Get from your druggist ten drops of Hydrochloric Acid in a four ounce bottle, fill bottle half full of tepid water (distilled water is best, though soft water will do), then add the finely cut white of a hard boiled egg, then add two doses (30 grains) of Maltopepsyn and shake bottle thoroughly every 15 or 20 minutes, keep the bottle warm, as near the temperature of the body (100° Fahrenheit) as possible, and in 3 to 4 hours the egg will be entirely dissolved or digested.

Maltopepsyn is endorsed by the leading Physicians and Chemists throughout the Dominion of Canada.

Send for Pamphlet, 24 pages, giving full treatment of Dyspepsia with the rules of Diet, etc., mailed free upon application to HAZEN MORSE, TORONTO.

Price per bottle, with dose measure attached, 50 cts., contains 48 doses or about one cent per dose.
