split second,

Three-quarters size of watch % or % second Fly-back.

ACCURATE AND RELIABLE

Its size and Form same as ordinary watch. It is the best and most perfect timer made; the only one that marks eighths of seconds. These timers add immensely to the interests of sports of all kinds and are invaluable for scientific and mechanical purposes.

My split second is perfect in its accuracy; it enables the time to be taken of each one-quarter of the mile as well as of the full mile or more. This repeated subdivision of time by the same instrument can only be accomplished by my Timer and by the highest priced of Foreign Chronograph Watches.

My fine tenth of a second timer I make for delicates scientific purposes, to order only, of two sizes, the one the class of the marks chronometer.
