Bring Your Friend Close by Talking Directly Into the Telephone

Supposing you were face-to-face with a friend. You would not go to the far side of the room and talk loudly?

When you telephone, do you place your lips close to the mouthpiece and talk easily, or do you have them six inches away and almost shout?

Every part of an inch you are away from the Telephone, when speaking, places the called party miles distant. One inch from the Telephone lengthens the line six miles; two inches, ten miles; three inches, sixteen miles, etc.

There is less exertion in talking, and less effort in hearing, when each speaks into the Telephone properly.
