

Pedlar's "Perfect" Steelcrete

IDEAL FOR CONCRETE ROAD CONSTRUCTION

Pedlar's "Perfect" Steelcrete is manufactured in our new plant at Oshawa, and is made by a cold-drawn process. It, therefore, possesses great unit strength and a high elastic limit. It is uniform in quality and stiffness, which makes a taut reinforcing material requiring no stretching or placing to take the "waves" out of it that often happens in other types of reinforcing. It enables the more extended use of unskilled labor thus conducting to greater economy.

Pedlar's "Perfect" Steelcrete is a Canadian-made product, fabricated in Canada from the raw material to the finished article.

By placing your orders with us you will save the duty and delay which are inseparable from import orders.
