

ABOUT THIS DOCUMENT

Opening Doors to the World: Canada's International Market Access Priorities – 2004 outlines the government's priorities for improving access to foreign markets for Canadian traders and investors through a range of multilateral, regional and bilateral initiatives in 2004. It also presents significant market-opening results from 2003 that will benefit Canadian business. Subjects range from Canada's broad negotiating objectives at the World Trade Organization to the details of specific bilateral trade irritants. The report is not intended as an exhaustive catalogue of government activities to improve access to foreign markets; neither is it a comprehensive inventory of foreign barriers to trade or investment.

The Department of Foreign Affairs and International Trade coordinated the preparation of this report with the assistance of its embassies and missions abroad, other federal government departments (especially Agriculture and Agri-Food Canada, Finance Canada, Industry Canada and Natural Resources Canada), provincial governments and, of course, Canadians doing business abroad. Its contents are current up to March 2004.

Opening Doors to the World: Canada's International Market Access Priorities – 2004 updates and expands on topics presented in the 2003 report, which was released in April 2003.
