| Dr. V. K. Prest,<br>Geological Survey of Canada,<br>Victoria Museum,<br>Ottawa, Ontario.   |   |
| Col. R. L. Franklin,<br>Director,<br>Directorate of Vehicle<br>Development,<br>Department of National Defence,<br>Ottawa, Ontario.                   | Mr. R. Peterson,<br>Prairie Farm Rehabilitation<br>Administration,<br>505 Canada Building,<br>Saskatoon, Sask.                    |
| Mr. N. D. Lea,<br>Assistant to the Vice-President,<br>Foundation of Canada<br>Engineering Corp., Ltd.,<br>200 Bloor Street, E.,<br>Toronto, Ontario. | Mr. J. L. Wickwire,<br>Chief Engineer,<br>Department of Highways,<br>Halifax, N.S.  |
|  | Mr. W. J. Eden, Secretary,<br>Division of Building Research,<br>National Research Council,<br>Ottawa, Ontario.                    |

The Associate Committee on Soil and Snow Mechanics was initiated in 1945 to study military track problems. After the war the Associate Committee became a co-ordinating body for research on various aspects of the terrain of Canada. The Committee's activities are now centred in four major fields: soil mechanics, snow and ice research, muskeg, and permafrost. Four subcommittees have been set up, each dealing with one of these particular fields. A fifth subcommittee, closely allied to the Soil Mechanics Subcommittee, deals with problems relating to Canadian landslides.

*Associate Committee on Survey Research*
