G. Kitchen, president, pointed out

that more enthusiasm would be en-gendered if the urgency of greater food production and the seriousness of the situation was placed before the people, and suggested that a public meeting be held at an early date. The will receive the immediate attention of the committee.

It was further suggested that the Methodist Church office be used permission of Rev. Peter Bryce for residents in applying for and offering lots for cultivation.

W. Cryderman said that plots should be allotted as far as possible convenient to where people resided. In reply to a question as to the amount of land which should be cultivated by each person, the president stated that the Rotary Club advised the cultivation of 4000 squars feet.

# "BEATS ANYTHING" I'VE EVER SEEN

McEwen Relieved by Tanlac After Suffering for Ten Long Years.

"I have the best reasons in the world for speaking up for Tanlac," said James McEwen, of 269 Palmerston avenue, Toronto, recently. "About ten years ago," he continued, "I began suffering from a disordered stomach and kidneys, and since that time I hardly knew what it was to feel well until now. Sometimes the pains in my back would get so severe that I would just have to stop whatever I happened to be doing and lie down. I suffered so I couldn't get lie down. I suffered so I couldn't get any rest scarcely, and many a night I had to put hot water bottles to thy back to ease the pain. I never had one bit of appetite, and what little I managed to eat always gave me indigestion. My food just seemed to lay in my stomach like lead and make trouble for me. I just feit tired, worn out and bad all the time; and not so long ago I got in such a bad shape long ago I got in such a bad shape that I couldn't do a bit of work for

three months.
"During those ten years I tried everything I knew about, but nothing ever helped me until I got Tanlac.
Tanlac has relieved me entirely and it beats anything I've ever seen. The pain has all disappeared from my back and my kidneys never bother me at all. My appetite is great and I never feel a sign of indigestion. I sleep like a child every night and am feeling just fine all the time, and I am more than glad to let everybody know wha.

TORONTO HAMILTON

Because for some time back the street cars have been heated by soft coal, it has been suggested that the company ought to be prosecuted; that an automobile ought to pursue a given street car and note if it did emit feloniously soft coal smoke for a period of more than six minutes.

With no desire to deprive any officials of a joyride, it must be admitted that soft coal has been burned in the cars for exactly the same reason that it has been burned in the homes of thousands of citizens at one time or another this Winter.

What was supposed would be an ample supply of hard coal was laid in for the street cars, but the sustained cold weather exhausted the stock before the Winter was over, and other coal had to be bought. It was impossible to buy hard coal; charcoal was not to be had. In order to keep the cars warm, soft coal had to be secured. It is better that the stove pipes in the cars emit soft coal smoke than that the passengers should be without heat.
