

THE L ORGAN AND PIANO COMPANY, LIMITED, Guelph, Ont.

Bell Pianos.

VISITORS to the Fair could do well to inspect our exhibit of PIANOS and ORGANS, which for Neatness of Design, Finish, Durability, TONE and General excellence have never been surpassed by ourselves or any manufacturer.

Our new "SERAPHONE" Organs are unquestionably the most Pipe-like reed Organs ever constructed, and are well worthy of a careful examination.

The world-renowned diva, Adelina Patti, writes:

"I have used your exquisite organ which I recently used from you gives entire satisfaction. The tone is the most pipe-like I have heard in a reed instrument."

"Yours faithfully,
ADELINA PATTI."

Bell Organs.

The Bell Pianos still retain their acknowledged superiority and are unequalled by any instrument of Canadian manufacture.

The following testimonials speak for themselves, and are among the many which have been and are constantly being received:

Harold Jarvis,

the Renowned Tenor, says: "I have sung your piano a great many times during my engagements throughout Canada, and have always been greatly pleased with the brilliant finish, yet delicate tone of the Bell Pianos, and it gives to the voice, and is unsurpassed by any piano—either of American or European make. It gives me the opportunity to testify to the high excellence of your pianos."

From Madame Albani's

Special Accompanist:

"THE QUEEN'S,
Toronto, Feb. 22, 1897.

From May Concern: "I have come to Canada as a pianist, and I have had the opportunity to observe various makes of pianos, but have been much impressed with the excellence of the Bell Piano, and the fact that it is being made in the art and construction of this young and rising country. One of the most recent instruments to arrive at my attention is the 'Bell' Piano. Its tone is admirable, and the touch firm and responsive. It gives me the opportunity to testify to the high excellence of your pianos."

(Sgd.) ARMANDO SEPIELLI,
Golden Royal Italian Opera, Covent
Garden, London, England.

Madame Albani, Canadian
Artist.

"The 'Bell' Piano is a good, honest
instrument, and so recommended it to
my purchasing."

THOMPSONS MUST STAND TRIAL

For Killing William H. Sawyer at Maple Lake—Medical and Other Evidence Strong Against Them.

Haliburton, Sept. 9.—At the resumed inquest on the cause of death of W. H. Sawyer, Hiram Sawyer, father of the dead man, continued his evidence. He said that Matt Thompson had jumped past him while defending his son, and had kicked William Sawyer twice on the head. The witness then sprang at Thompson and was attacked by both brothers, who kicked and struck him several times. Sawyer was driven back after the light and became unconscious. In half an hour he revived, but remained stupid all night, only saying that Thompson had kicked him twice in the morning. Sawyer again became unconscious and on Saturday died.

Dr. Frost told of having visited William Sawyer on Saturday afternoon, and found bruises on the forehead and right side of the body. He thought the patient's condition was such that he would have died in a few days. Dr. Curry swore he thought the injuries to the body sufficient to have caused death, though those to the brain might not have been sufficient. Dr. Frost corroborated this opinion.

The evidence of Hiram Sawyer was corroborated by James Barry, who said he saw Matt Thompson kick and hit Sawyer twice. Thompson Archer swore to having seen Thompson on top of H. Sawyer's head, and having kicked and kicked Thompson down the hill, and having seen him several times. At Clarke's witness met the Thompsons and Matt Sawyer, and he saw them.

Clara Clarke told of having heard Matt Thompson saying that anyone who quarrelled with Tom would have to deal with him. After the fight the Thompsons came to where they were sitting, and said they were against them, but they could not do anything. When they were told that the Thompsons had killed Sawyer, they were told that the Thompsons had killed Sawyer, and they were told that the Thompsons had killed Sawyer.

The jury's verdict was that deceased came to his death from kicks and blows administered by Matt and Thomas Thompson on Sept. 1, 1897.

A New Departure by the Wash.

The Washburn Railroad now runs its own solid trains from Buffalo to Chicago, St. Louis and Kansas City, passing through Niagara Falls, St. Catharines, Hamilton, Woodstock, London and Hamilton. These trains are the finest ever seen in Canada, and are well equipped with the latest improvements.

The following testimonial speaks for itself, and are among the many which have been and are constantly being received:

Harold Jarvis,

the Renowned Tenor, says:

"I have sung your piano a great many times during my engagements throughout Canada, and have always been greatly pleased with the brilliant finish, yet delicate tone of the Bell Pianos, and it gives to the voice, and is unsurpassed by any piano—either of American or European make. DEATH OF REV. FATHER LYNCH.

The Parish Priest at Niagara-on-the-Lake Passes Away After a Long Illness.

Niagara-on-the-Lake, Sept. 9.—(Special.)—Rev. John J. Lynch, parish priest here, died at his residence this morning. The deceased priest, although a young man, had been ill for the past few years until this morning at 10 o'clock, when he succumbed to the fatal disease. Rev. Dean Harris was present, with other priests at his last moments.

Father Lynch was born at Navan, County Meath, Ireland, about 35 years ago. He made his first studies in his native town, and afterwards completed his theological course at All-Hallows, Dublin, where he was ordained in the year 1886. Coming to this country at the invitation of the late Dr. Lynch, he was appointed curate to Bishop O'Malley at St. Paul's Church, Toronto. He remained there for five years, and became justly popular on account of his many noble and priestly virtues. He was sent to O'Neill to act as administrator of the parish of the late Archbishop Campbell, and fulfilled his mission with credit to himself and satisfaction to his superiors and to the people.

Afterwards his failing health obliged him to seek for a change. He returned from Florida and took up his residence at the Sacred Heart Orphanage, Sudbury. In 1894 he was assigned in succession to Father Harold, and pointed pastor of Niagara-on-the-Lake, and since then, as a priest, he merited the just esteem in which he was held by his fellow-workers in the archdiocese of Toronto. His death, which was quite unexpected, will cause a severe shock amongst a large number of acquaintances and friends. The funeral will take place at 10 a.m. Saturday.

AURORA AND SCHOMBERG RY.

King Township Carried the \$11,000 Bonus Bylaw Saturday by a Good Majority of 129.

King, Sept. 9.—(Special.)—Voting on the bylaw to grant a bonus of \$12,000 to the Aurora and Schomberg Railway took place today, with the result that the bylaw was carried by a majority of 129.

This ensures the building of the road this fall, or next year at the latest, the directors being favorable to constructing the line as soon as possible. The line has both Dominion and Provincial charters, and has secured a million bonus from the Dominion Government.

The result of the vote by polling places was as follows:

Schomberg 102 5
Lloydminster 12 36
Scitcheby 15 49

Majority for bylaw, 129.

OUR TRADE WITH BRITAIN.

The Result for Four Months Under the "Preferential" Tariff is Disappointing to Britons.

Montreal, Sept. 9.—A Star cable from London says: "Four months have now elapsed since the new Canadian 'preference' tariff went into operation. The results to Great Britain, as shown by the actual trade returns, are most disappointing. The trade in goods and manufactures of the four has shown a large decline in British exports to the Dominion of Canada, culminating in the August decline, as compared with August, 1896, of \$86,797. The total decline in the four months since the tariff change went into effect is \$111,553, or 14 per cent. Cotton, linen and woollen goods show very substantial declines, and worsted fabrics alone among the manufactures show an increase, which amounts to \$218,000. Under the new tariff the value of the four has shown a large decline in British exports to the Dominion of Canada, culminating in the August decline, as compared with August, 1896, of \$86,797. The total decline in the four months since the tariff change went into effect is \$111,553, or 14 per cent. Cotton, linen and woollen goods show very substantial declines, and worsted fabrics alone among the manufactures show an increase, which amounts to \$218,000. Under the new tariff the value of the four has shown a large decline in British exports to the Dominion of Canada, culminating in the August decline, as compared with August, 1896, of \$86,797. The total decline in the four months since the tariff change went into effect is \$111,553, or 14 per cent. Cotton, linen and woollen goods show very substantial declines, and worsted fabrics alone among the manufactures show an increase, which amounts to \$218,000. Under the new tariff the value of the four has shown a large decline in British exports to the Dominion of Canada, culminating in the August decline, as compared with August, 1896, of \$86,797. Under the new tariff the value of the four has shown a large decline in British exports to the Dominion of Canada, culminating in the August decline, as compared with August, 1896, of \$86,797. The total decline in the four months since the tariff change went into effect is \$111,553, or 14 per cent. Cotton, linen and woollen goods show very substantial declines, and worsted fabrics alone among the manufactures show an increase, which amounts to \$218,000.
