The Price Current says: The week now ded has introduced changes in the crop nations of an adverse nature, the ser stuations of an adverse nature, the seriousness of which cannot at this time be determined. Freezing temperatures have been experienced thruout the central and wstern agricultural sections. It seems doubtful if the wheat crop in winter grain sections has suffered essential injury; and in spring grain regions the position has probably not been such as to mean much injury. Corn planting has suffered, and the fruit has to a donsiderable extent been cut short. The cats crop will likely be injured to some extent, how much cannot now be determined. The general position of the crops affected by these adverse conditions may not prove to be so seriously disturbed as apprehended in the first conclusions. Rains which have occurred within the week will be beneficial.

KITCHENER A FIELD MARSHAL Declares Britain is Quite Able to Take Care of Herself.

LONDON, April 28.-King Edward nanded Lord Kitchener the baton of field marshal at an audience at Buckingham Palace to-day. Richmond Burdon Haldane, secretary of state for war, stated that it was proposed that Kitchener should shortly commence his duties as field marshal and commander in chief of the Mediterranean with

Interviewed with reference to the defence of Australia, Lord Kitchener said that for £1,700,000 a year Australia would in due course have a complete system that will make her secure against attack. She will no longer need to look to the mother country for an instant for aid in the event of danger. The amount of money is but trivial to such a rich country.

Kitchener added that England is not

decadent. Whatever anyone may say or think, her sons are as good as ever, and as full hearted. She is quite able, under God, to determine her own des-tinies. She needs help from none of her children or from strangers. She can quite take care of herself.

"She has yet full youth of days I assure you," said Kitchener.

one of the first danger signals that announce something wrong with the heart is the irregular or violent throb. Often there is only a fluttering sensation, or an "all gone" sinking feeling; or, again, there may be a most violent beating, with flushings of the skin, and visable pulsations of the arteries.

There may also be experienced a smothering sensation, gasping for breath, and feeling as though about to die. In all such cases the action of Milburn's Heart and Nerve Pills in quieting the heart and restoring it to its normal beat, is, beyond all question marvellous, as our thousands of testimonials will show.

Mrs. Martha Mason, Marlbank, Ont., writes:—'Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I have been troubled with weakness and palpitation of the heart, would have severe choking spells and could scarcely lie down at all. I tried many remedies but got none to answer my case like your pills did. I can recommend them highly to all with heart or nerve trouble."

Market Notes.

Dunn & Levack sold the best steer on the market, weighing 1540 lbs., at \$7.50 per cwt., the top price of the market. This animal was bred and fed by Gilbert Kincede of Bethany, Oht., and sold to R. G. Kells of Montreal.

McDoneld & Halligan had at the Union Stock Yards this week, two car loads of cattle from Mr. William Dryden, son of the Hon. William Dryden of Brooklyh, Ont. It was said by the best judges that these were two loads of equally as good, if not the best cattle that have been on the Toronto market this year. Mr. Dryden is known as a first-class shorthorn breeder and raiser, and his selection of feeding cattle, and also his finishing of them, makes him one of the best feeders we have in Ontario.
