POVERTY-GRIEF-DISEASE WHAT A TORONTO!

WHAT a Toronto this would be if there existed no agencies to combat conditions such as are pictured here? Can you imagine what sort of a city this would be if everyone were selfish—too selfish to support Toronto's charities? Do you think you could live as comfortably and pleasantly as you do now? Of course you do not. If no provision were made for the care of the sick, how long would your own community be free from the ravages of disease? How long could you keep it out of your own family? If there were no institutions for the care of the indigent aged, for the helpless orphan children, for the physically handicapped, and those born "without a chance," what would our street—and your street—be like? Are you willing to give famine, grief, and worse, a chance in Toronto? That's what it amounts to unless you do your part in the Community Fund. These things have to be fought; and fighting them — conquering them — takes money. The Community Fund is the practical, proved answer, providing the money without waste, with an honest accounting in results for every dollar. It is protecting you and yours—don't forget that! If you think this work of help-

fulness benefits only those on whom the money is spent, you're wrong; it is safeguarding you and yours. There'll be no more money-raising for the 1920 operation of Toronto's nearly fifty federated organizations of charity and helpfulness through the Federation for Community Service if you give enough. Give this once, give enough, and be through with it. Don't think in terms of how little you can give and still satisfy your conscience. Think rather in terms of what it's worth to you to live in this wholesome, forward-looking, prosperous city. Even if this question were put on a purely selfish basis, it would justify your giving liberally and gladly. Do just that.
