

SEPTEMBER.

The 1st day of this month will set in with bright weather and temperate heats, and will continue so with only occasional showers, until the 16th, when blustering and rainy weather will prevail more or less until the 23d, when it will become settled, with clear pleasant weather until the end of the month.

CURE FOR THE BOTS OR GRUBS IN HORSES.—Pour out half a gill of the spirit of turpentine into the hand, and rub it on the breast of the animal while suffering. Let it be applied to the hollow or pit of the stomach, just at the point where the neck joins the breast, on a space six or eight inches in diameter. The relief is certain if the grubs have not already cut through the coats of the stomach.
