THE EAGLE FURNACE.

A Cut of the EAGLE FURNACE will appear in this space Next Issue.

FOR WOOD.
The Most Powerful Heater ever Invented.
EASY TO MANAGE AND DURABLE.

Warranted to give double the amount of Heat of any other Furnace from the same quantity of fuel.

For Quickness of operation it is unsurpassed, there being no escape of heat into the cellar or chimney; neither gas nor smoke into the rooms above.

SATISFACTION IN EVERY RESPECT GUARANTEED TO ALL MAKING A TRIAL OF THE FURNACE.

FAVORITE DIAMOND.

FOR WOOD OR COAL.
The fire box for Coal is oval, and is the heaviest and most durable made. The stove is supplied with either the Duplex Grate or the new patent Flat Shaking and Dumping Grate. When the fire box for coal is removed and the Fire Back and False Fire Bottom and front fender put in, they surpass all other cooking stoves for burning wood, as they have a large fire box, with the advantage of a central delivery of draft to the wood, making a quick, hot fire with a small amount of fuel. The reservoir is large and made of copper, and water can be boiled in it. The ornamentation is very beautiful, and the castings fittings, etc., are guaranteed to be of the best workmanship.

ROYAL DIAMOND, With Reservoir and Heating Shelf, FOR WOOD.

This Handsomely Finished Stove has a large and well ventilated oven, with an unusually large feed door and Fire Box, admitting very coarse wood. It is entirely new and First Class in finish, while every point of excellence is embraced in its Construction.

REASONS WHY

The STEEL CLAD is the Best.

It is open and accessible. No place for accumulation of impurities. Dampness cannot affect it. Nothing about it to shrink or decay. It cannot leak. It is light, but strong and durable. It is handsome in appearance.

It is THE CHEAPEST BATH IN THE MARKET.

Hilborn's Hot Air Furnace

MADE IN 2 STYLES, 8 SIZES. BRICK SET OR PORTABLE.

The body is corrugated and made very heavy. The Furnace is arranged so that it can be operated from the rooms above, obviating the necessity of going to the furnace for regulating drafts.

The drums are of heavy sheet steel well riveted together.

It is the only wood burning furnace that can be easily cleaned out at all times. This very necessary arrangement is too often overlooked by parties buying furnaces, and as a result, they are forced to take them apart in order to clean them.

A BROTHER AND A SISTER

Became Husband and Wife and as Such Live Together for Eighteen Months.

BRANTFORD, Aug 20.—To-night's Expositor says: A brother and sister residing in this city as man and wife have accidentally discovered they are brother and sister and the paper gives the following particulars: Violet Buckingham, a young woman of 21 years of age was born in Ireland, and some years ago came to Canada and located permanently in London, Ontario, where she made her home with friends. A little more than 18 months ago she was introduced to a young man named Edward Vezzy, who had shortly before arrived in the Forest City from New Zealand, and who had been a soldier in the second Emmettilien militia stationed at Secunderabad. The friendship ripened into courtship, and the young man pressed the girl to marry him. The marriage took place in London in the usual way. After residing there for some time they removed to Brantford where Vezzy got employment with Messrs A. G. Montgomery & Company. After coming to reside in Brantford for some time, the young woman sent a photograph of her husband to an uncle, who is the superintendent of one of the largest public charities in the city of Dublin. The picture so strikingly resembled this gentleman's nephew and Violet's brother whom she had not seen since she was nine years of age, that a feeling of fearful horror struck him. Being in an influential position in Ireland, he had no difficulty in securing the government's assistance to locate the retired or time expired soldier, whose name was Leopold Buckingham, and who at the present time would be about 25 years of age. He was traced to Brantford and the young wife found that her husband was her brother. Vezzy's real name was of course Buckingham, but when he enlisted in the army he adopted the other name in order to hide his identity from his friends who would have been enraged at his enlistment. The couple have not lived very happily together, Vezzy being of a very passionate nature. The young woman, who is almost crazed with grief, has stated to her neighbors that she did have the most extraordinary suspicions that all was not right, particularly during the last few months, but never did she dream for a moment of her awful position. The matter has been placed in a lawyer's hands. Vezzy, or Buckingham as his real name appears to be, has suddenly left the town and cannot be found. The woman has closed her home and is living with friends. The case will be placed in the hands of the police, who will satisfy themselves that it is most extraordinary that these people should meet accidentally and be married, unconscious of their relation, or whether it is a villainous scheme of the man Vezzy.
