The lumber of the late Robt. Connor's estate is being driven to St. John, instead of being sawed up river, as much of it was formerly done, and therefore less employment is afforded to the laborers of St. Francis. Reports from several sections of the province state that the irrepressible potato bug is making his presence felt in a manner that is not to be mistaken. One man, who, by the way, is somewhat of a scientist, states positively that the bugs held a convention early in the season, and when it was announced that the price of Paris green had gone up, resolved unanimously to give the potatoes no quarter this season. The Sun gives this gentleman's opinion simply as a bit of information.

Hugh S. Normansell died Monday morning, in his 70th year. On Friday, while at Ray's lake, he was suddenly attacked with paralysis of the brain. He was brought to town, and medical care obtained, but he never regained consciousness. Mr. Normansell at one time did a large grocery and meat trade. He was an indefatigable fisherman, and had many friends.

There is the usual activity in and around Millard's shipyard at Liverpool, N. S., this season. A 70-ton schooner is in frames, and the material is being prepared for a brigantine 70 feet keel, 28 feet beam, 10 feet 9 inches depth of hold, and will register over 200 tons. Benson, Hamilton, Ont.; Dr. Mitchell, New York; Harry Fairweather, St. John; E. G. Davis, New York; J. W. Barnes, New Jersey, and other notables. The Scottish American says: During hot periods here in New York, with the thermometer above 90 degrees, both night and day, existence becomes a burthen, food an abomination and sleep an impossibility. To transport a man from here to St. John at such a time is to renew his life, and give him fresh vigor for his struggle for daily bread at home. Its advantages may not be fully appreciated by the natives, but to strangers the climate of St. John seems the ideal of all that the heart can desire. The stranger admits that in St. John he can experience in summer the delights of being cool, of being able to sleep under the blankets, and of resting undisturbed by mosquitoes and other forms of insect life.

James A. Belyea, who looks after some property for Mrs. Wm. H. Mahoney, formerly of St. John, now of San Francisco, has received from Mrs. Mahoney a San Francisco paper containing intelligence of the loss of the steamship Colima (before reported). On the margin was written the news that Mr. Mahoney was one of the men lost on the steamer. The Colima belonged to the Pacific Mail S. S. company, and left San Francisco on May 18 for Panama and way ports. She was wrecked a week later near Manzanillo on the Mexican coast and most of her passengers and crew were drowned—over 140 in all. Mr. Mahoney had been running on the vessel for some time, having secured a position through his brother, who holds an important office in the mechanical department of the company. Mr. Mahoney was a St. John man who was for a long time engaged in the lively stable business in Hampton, Kings county. Three years ago he went to the Pacific Coast and was doing very well. Mrs. Mahoney was a Miss Yorkie of this city.

H. D. Selleck of New York is in Moncton negotiating with Marvew Lodge for the purchase of gypsum mining properties held by Mr. Lodge in Pictou and Halifax county. It is proposed to operate these mines on a large scale, if the quantity is forthcoming, of which there appears to be no doubt. It is estimated that about 30,000 tons of gypsum a year will be shipped from Pictou to the United States via Moncton, going by water from here.—Moncton Times.

GENERAL HERBERT.

He Will Retain His Position Until the Expiration of His Term.

London, June 16.—Despite the many statements and rumors to the contrary, your correspondent has the best authority on which to declare that no successor has been appointed to Major General Herbert as commandant of the Canadian militia forces, nor yet has the name of any officer been before the war office. Major General Herbert, it is expected, will retain his position at least until the expiry of his term on Nov. 19th next.

IN CHAMBERS.

J. M. McIntyre applied to Judge Tuck Saturday to have Hannah Upham, confined in the Hampton jail for a violation of the Scott law, released on habeas corpus. Mr. McCully opposed, and as some preliminaries had not been complied with, an adjournment was made until next Saturday. Mrs. Upham is to be released on bail, her surety in \$100, and two sureties in \$75 each.

The application to have Wm. Coulson, caretaker of the Chatham Social club, released from the eight days' imprisonment to which he was condemned by the Chatham parish court commissioner for contempt in refusing to answer a question, was heard by Judge Tuck. W. Fugley, Q. C., and E. B. Bennett appeared for Coulson, and L. A. Curry and Wm. Butler against him. Coulson's counsel argued that he was not bound to answer the question, because it might incriminate him, and also that the commissioner had no jurisdiction. On both these points Judge Tuck decided against them. On the third point that the period of imprisonment and the period of adjournment of the court must be co-extensive, and that, if not, the prisoner should have been given a hearing at the adjourned sitting, there was quite a discussion. Judge Tuck said his opinion was the commissioner had the power to commit, and was not required to have the prisoner before him at the adjourned session, but, as the matter was an important one, he would consider and give judgment on Monday. Coulson's term expires on Wednesday.

Before Judge Tuck, at chambers on Monday, in the case of Coulson, steward of the Chatham club, his honor refused habeas corpus, deciding that the magistrate had jurisdiction, and that Coulson was properly imprisoned. R. B. Bennett and W. Fugley, Q. C., for Coulson; L. A. Curry, Q. C., contra.

STUNNED BY LIGHTNING.
(Chatham World, 15th.)

The air has been full of rumors since Thursday morning, of four or five men having been injured by lightning at the South-west boom, one of them very badly, but the telephone has been working so badly that it has been difficult to get particulars. We learn that four men, who were working together on the logs, were knocked into the water. Three of them were only dazed, and soon recovered, but the fourth was unconscious and had not recovered at last advices. He was using an auger when he was struck. The top of his hat was ripped off and his shirt was torn. He is reported to have scorched ashore, his unconscious state, thus saving himself from drowning, the others being too much dazed by the shock they had received to pay any attention to him. The name of the man is James Duffy, and his home is at Indiantown. His breast was badly burned by the electric fluid. He was alive this morning, but in a precarious condition.
