NATURE OF BUSINESS
The company manufactures John Mackintosh's celebrated Toffee, the trade names which are "Old English Toffee," "Treacle Toffee," "Vienna Toffee," "Butter Scotch," "Russian Toffee," and "Buttermilk Toffee" as supplied to Queen Alexandra and the Empress of Russia. The business is particularly profitable and possesses the advantage of being thoroughly established in Canada, as in all other large countries. An understanding of the profit and sale may be gleaned from the knowledge that over 22 tons daily, or 8,000 tons annually are consumed in Great Britain alone.

HISTORY OF JOHN MACKINTOSH'S TOFFEE
THE MACKINTOSH TOFFEE business was established some 40 years ago in the City of Halifax, England. Mr. Mackintosh commenced business absolutely without capital, boiling his celebrated Toffees in an ordinary kitchen pan on his cottage fire. Today Mr. Mackintosh controls the largest and oldest Toffee manufacturing business in the world.

IMPORTED FROM ENGLAND AND UNITED STATES
Prior to an establishment in this country, over three cases, or 2,688 packages, of Mackintosh's Toffee were consumed by Canadians daily. This business was done from England and the United States, without the assistance of advertising or local management.

BROOKVILLE WORKS
The company's building at Brookville are large and commodious, and are constructed and equipped in a manner suitable for the purposes of the business. The most modern machinery and special appliances installed guarantee a manufacturing capacity of 7 tons of John Mackintosh's Toffee daily, or 2,555 tons annually.

ACTUAL PROFIT
The cost of producing one case, containing 396 packages of John Mackintosh's Toffee ready for sale is \$14.00. Study these profits:
COST OF PRODUCING ONE CASE \$14.00

I visited Brookville on January 14th and remained there four days. My sole object in going there was to investigate the works and business of John Mackintosh's Toffee, Limited. I studied the details of the business carefully, and in addition to finding a magnificently equipped factory in active operation, I found a good business managed by men of sterling worth and sound reputation, who have a thorough and practical understanding of the business, and at the works of the parent company of John Mackintosh, Limited, Halifax, England, the oldest and largest Toffee Manufacturers in the world. The future welfare of the company is centered in the business, and the result of their determination and effort will be the building of a large and immense enterprise in Canada.

BRINSMEAD

The Piano of the King's Empress, His Holiness the Pope, The Piano for you.
The famous (School) piano on exhibition in our window.
This piano is built especially for the London Conservatories of Music. Same construction in every detail as the most expensive Brinsmead we carry. By putting it in a cottage size case the English manufacturers are going to try and compete with the price of the average Canadian piano.
The cabinet work alone ought to sell this piano at the price we are going to ask.
We invite all music lovers to inspect this instrument.
Open evenings in February.

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay
Grantville, Vt. — "I was passing through the Change of Life and suffered from nervousness, headache, and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter." — Mrs. CHAS. BARCLAY, R.F.D., Grantville, Vt.
No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures for female ills as has Lydia E. Pinkham's Vegetable Compound.
For more than 30 years it has been curing female troubles such as inflammation, ulceration, local weakness, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.

WILL SHARKS ATTACK HUMANS WHEN ALIVE?

This Still a Mooted Question, With Much to Be Said on Either Side

Large Reward Once Offered for Proof That Sharks Bite Living Men Never Claimed.

The destruction of the steamship La Seyne near Singapore a short time ago calls up in the mind speculation as to the ability of any one to prove, to actually demonstrate by first hand evidence, that a shark was ever known to force the fighting, so to speak, and attack a living man in the water. There is much to say on both sides. The disaster to La Seyne, in whatever light it is viewed, can be contemplated only with a sensation of horror. The picture in the mind is vividly dreadful. On one hand we have the Frenchman steering to the northward, the picture in the mind is vividly dreadful. On one hand we have the Frenchman steering to the northward, the picture in the mind is vividly dreadful. On one hand we have the Frenchman steering to the northward, the picture in the mind is vividly dreadful.

Then come the tales of the sea monsters that were cruising about, with a weather eye lifted for dainties of any description; here was a feast ready prepared, and from all the cardinal points came the sharks, in seas that are famous for their ferocious citizens. It is told that in the attack, men fought furiously in defence of the women, fought till they themselves vanished in the handkerchief, and the sharks, that sleep in the tropical sea, the little bodies of their murderers waving and darting among their victims.

WHO HAS SEEN IT?
Reports arrived that nearly one hundred persons lost their lives through the sharks, which, if true, would sum up visions of the horrors of fabled sea monsters in the West Indian Sea, a century ago. But, looked at coldly, it is not that, but the fact that the sharks, which, if true, would sum up visions of the horrors of fabled sea monsters in the West Indian Sea, a century ago. ONE LOST A LEG.
One lad always captured the hearts of the women aboard because of the fact that his left leg had been severed by a shark, and when he went cheerfully hobbling about the decks, looking for his livelihood, he never wanted for either sympathy or alms, and overboard he would go, and with his one sound leg and the stump of the other, which had been taken off above the knee, he would successfully kick and wriggle his way under the big ship and come up with a happy grin on his face, and also at Colombo, Ceylon, the inference being that accidents have occurred in the last few years.

WORTH MOUNTAINS OF GOLD
There was a card in the purse bearing the name Beatrice B. Snyder. With the lower river jammed with ice and the jam increasing hourly, there is little hope that the body ever will be recovered.
BUFFALO, N. Y., Feb. 7.—Miss Snyder was chief clerk in a Buffalo hotel. She had been dejected since the death of her fiancé, George F. Meyers. They were to have been married in a few months.

Her Daughter Took Very Sick As Result Of Catching Cold.

Mrs. Dennis Delaney, Fair's Head, N.B., writes: "At the close of the year 1897, our youngest daughter, five years old, took very sick as the result of catching cold. She became very weak and would not move around at all. We consulted doctors and gave her various kinds of medicine but they did not seem to relieve her any. On the advice of a friend I procured a bottle of your valuable remedy, Dr. Wood's Norway Pine Syrup, and after using the first bottle noticeable improvement was the result and after using three bottles she was entirely cured. I can certify that it was through your valuable remedy that she regained her strength and would advise every mother having young ones similarly afflicted to obtain your valuable remedy. For myself I would not be without a bottle in the house."

THEY HAD TO LEAVE BERTHS

Pullman passengers on the Boston train which reached here yesterday at noon had a most unpleasant experience during the night.
At Portland, which was reached shortly after eleven o'clock they were called from their beds and had to dress and leave the sleeper for a day coach. They had just got well asleep and, naturally, did not receive the summons with pleasure. For the ladies the experience was particularly disconcerting.
The pedestal portion of one of the trucks had given out and could not be replaced, neither could a new car be had.
There were about twenty people on board, six ladies in the number. Among the passengers were Miss Holly and Miss Holly, William Rivers, and Mrs. Rivers, F. P. Starr, Mrs. Linton, and R. A. Sinclair, all of St. John.

PAIN LEG FOR 60 Years

OLD LADY'S SENSATIONAL TESTIMONY TO ZAM-BUK.

Here is strong proof of how Zam-Buk cures long-standing sores, or chronic wounds. Mrs. J. Minnett, of 192 Thurburn Ave., Providence, Rhode Island, says:

"When a child of eight I was bitten on the leg by a dog. The wound never healed up soundly, and I have suffered with an ulcerated leg for over 60 years. At one time, I was an in-patient at the East Suffolk Hospital for a long period, and for three years I was in and out of hospitals with it. I was continually in pain, and the sore would not heal, but continued to discharge.
"Twelve months ago I came out here to my daughter, and as soon as she saw how bad the leg was she sent for a doctor. He gave me some ointment, but it did me no good. Doctors said my leg would never be healed.
"One day my youngest daughter brought home a box of Zam-Buk and induced me to try it. With the first application I seemed to find ease. I kept on with the Zam-Buk treatment, and soon saw that the wound was getting better. I persevered, and, to cut a long story short, Zam-Buk healed up the sore. It is marvellous to think that, after suffering for sixty years, Zam-Buk has been able to heal the wound."
Zam-Buk is superior because it is nature's own healer, composed entirely of pure herbal essences. For eczema, ulcers, cold sores, chaps, abscesses, piles, burns, scalds, cuts, bruises, rashes, etc., it is unequalled. All druggists and stores 50c box, or post free from Zam-Buk Co., Toronto, for price.

SMILES A FAREWELL; PLUNGES OVER NIAGARA

Young Girl Suicide Leaves Note Behind Asking Parents to Forgive Her.

NIAGARA FALLS, N. Y., Feb. 7.—Smiling a farewell to her would-be pursuers as she swept over the brink of the cataract, a woman thought to be Mrs. Beatrice B. Snyder of Buffalo committed suicide by vading into the river just above Prospect Point and going over the American Falls.
A park policeman and another man were talking together when the young woman appeared on the path leading to the river bank. Too late to intercept her, they saw her towards the river. Without hesitation she waded into the stream. She turned once and smiled to the men who were calling upon her to stop, but continued to move rapidly into deep water.
In an instant she was whisked off her feet and went careening toward the falls. As she passed out of sight she was still smiling.
On the bank was found a hand-bag and in it was this note:
"Mamma and Papa—May you both forgive me for bringing this awful disaster upon you in these years of your life. Also may our heavenly father forgive all my sins. But I have been very good, thank God. You will find a slip for the money under your dresser scarf. With my heart full of love for all your kindness and tender love, goodbye. (Signed) "BEATRICE."
