Poetry.

THE ANGEL OF LIGHT.

BY SOUTHEY.

It seemed that from the gust of day
Her hand had pluck'd a golden beam,
And twin'd around the glittering ray,
The gentle moonlight's silent gleam,—
With angel chaplet bright as this,
She did her spotless brow adorn,
And moonbeam softly seemed to kiss
Where rested bright the ray of morn.

On mission sent, with God's own light,
She hover'd like a heavenly sign,
Dispelling the dark shades of night,
With a sweet power all divine:—
She paus'd beside the drooping soul,
To shed her holy influence there,
And pointing to a brighter goal,
Whisper'd "Oh, have but faith in prayer."

HOPE.

Hope in the young heart springeth,
As flowers in the infant year;
Hope in the young heart singeth,
As birds when the flowers appear.

Hope in the old heart dieth,
As wither those early flowers;
Hope from the old heart flieth,
As the birds from wintry bowers.

But spring will revive the flower,
And the birds return to sing;
And Death will renew Hope's power
In the old heart withering.

An Irishman named John McCoy, was arrested in New York, on Monday, for bathing in the basin of the Park fountain. Previous to his arrest he addressed the spectators who were laughing at him as follows:—"Arrah and isn't this a grand public bath that I'm in? and is it the likes of ye that would be after making fun of me. Isn't it a free country and haven't the Corporation—long life to 'em—furnished us with the means of improving our condition?"

A NOVEL PICKLE.—The farmers' dames in Hampshire, England, and perhaps in other countries, when eggs are too plentiful for profitable sale in the neighbouring markets, adopt the following plan of preserving them, and the confidence is said to be infallible. Take from four to six dozen of eggs newly laid, boil them tolerably hard, divest them of the shells, place them in large mouthed ear then jars and pour upon them scalding vinegar, well seasoned with whole pepper, alspice, ginger, and for those who like the flavour, a few cloves of garlic. When the pickle is cold grate the jars quite close, and the eggs will be fit for use in a month.

July 4. WILLIAM CARVILL.

Great Saving in Soap & Labour.

Royal Letters Patent—Granted March 4, 1844.

Patent Washing & Cleansing POWDER.

ONE great advantage which this Powder possesses over others, consists in its not injuring the hands of the persons using it. Other Washing Powders contain Carbonate of Soda in its free state, which by acting upon the skin, inflames the hands, and renders them sore and wrinkled.

Other advantages peculiar to this Powder, may be stated as follow, viz:

A saving of at least one half of the Soap which is necessary when Soda is used.

A great saving in the labour of washing.

The colour of linen and other fabrics turn out far superior in whiteness to that which is given by any other means.

N. B.—Warranted not to injure articles though made of the finest materials.

☞Sold in packets at 1d each, by
JOHN G. SHARP, Chemist,
May 2. Corner of North M. Wharf.

National Loan Fund Life Assurance Society.

Office 26, Cornhill, London.

CAPITAL £500,000 sterling.

EMPOWERED BY ACT OF PARLIAMENT.

THIS Company insures for sums from £100 to £3000 on a single Life. It has the *mutual* system, or distribution of profits—offers advantages while living, as well as to widows and orphans after the death of the insured—loans part of the premiums paid when needed—induces persons to insure the lives of others who may be indebted to them—insures a man and his wife *jointly,* payable to the survivor on the death of either—grants endowments to children on reaching the age of twenty-one years—and conducts its operations upon a most comprehensive and satisfactory system.

F. NEILL.

St. John, June 6, 1845.

EXTENSIVE MILL PROPERTY

To be sold by Private Bargain.

ALL, that large and extensive MILL PROPERTY, situated about a mile and a half from the mouth of the Nashwaak, nearly opposite Fredericton and consisting of one MILL, containing six saws in single frame with a GRIST MILL, in good order, driving two pair of stones.

The Saw Mills are capable of containing as many Gangs as there are now single Saws, which could be substituted at little cost; they are in perfect order, and some of the Gangs could be driven throughout the entire day, as there are always several of the Saws kept going during the entire Winter; and the Grist Mill has the same advantage. The Draw is perfect and complete order, having been completed at very great expence, and runs entirely across the river Nashwaak, thus securing the whole waters of the river for the driving of the Mills.

Connected with the Mills there is a fine large Store, well adapted for the business of the country; also a Blacksmith's Shop, and a good Cottage and Garden attached, well suited for the manager of the Mills besides a number of Houses suitable for the Workmen at the Mills.

There is also a tract of Land on the Eastern side of the river, containing 500 acres, and about 200 acres on the western side, the latter embracing the Holybrooke Farm, and the whole highly capable of cultivation, and precluding any interference by other establishments on the river. These valuable Properties will be sold along with the Mills, and reasonable accommodation will be given to the purchaser. There can scarcely be found within this Province such a valuable Water privilege, and it is therefore well deserving the attention of any party wishing to embark in the Lumber trade; the whole can be seen at any time, and full particulars given on application to W. J. Bedell and Co. Fredericton, Charles Perley, Esquires, Woodstock, or to the subscribers at St. John. ROBERT RANKIN & CO.
March 21, 1845.—tf.
