### IN 1910, SAYS ARMOUR

**Astrologer Who Predicted Entry of U. S. Sees Trouble for Kaiser in November.**

Stuart Armour who in February of this year predicted the entry of the United States into the European war, has since then made very careful mathematical calculations and gives it as his opinion that the war will come to a close in March or April, 1918. Mr. Armour is not a professional astrologer, but has been a sincere student of it for twenty years. He is the manager of Mount Stephen House in Field, British Columbia, and in his leisure hours devotes his attention to figuring out events from the stars and his predictions have come to pass to such an extent that he made quite a name for himself as a prophet in western Canada. His prediction now is:

"From the viewpoint of astrology, the entry of the United States into the great war has given us another factor to be taken into consideration in arriving at a conclusion of the time the war will endure. With this addition to the forces of right the war can be no means last past July 1918, and those who are talking of two or three more years of war are mistaken."

"As I stated in my article in the New York Herald of October 22, 1916, there is much evidence that the war will close in 1917, though from the stellar influence of the United States, now to be taken into consideration, it may possibly last until June or July, 1918. However, when the evil aspects that are brewing against the Kaiser are considered, in my opinion, the utmost length of the war can go to March or April, 1918."

"Gemini has been a fateful sign to the United States and the disturbing, liberty-loving planet Uranus, on the other hand, Jupiter in that sign brings peace and prosperity to the United States and Jupiter enters Gemini, June 15 of this year and leaves it in July, 1918."

"In November of this year, the planets in the Kaiser's horoscope will produce a chaotic condition of affairs—plots, counter plots and revolutions. The German people will begin to see the abyss toward which they have been led since 1914."

"The question that occurs to an astrologer is, Will this finish the Kaiser and lead to a peace or will events wait until March or April, 1918, when Saturn is stationary in opposition to the Kaiser's sun? It calls for a close decision, but one thing the reader may be sure of—that on the arrival of the last named period the Kaiser will either be dethroned or he will die. It will be not end in 1917 the end of it will be so clearly in sight that the world will begin to figure on what shall be done when peace arrives."

**LOOKING FOR OIL IN CAPE BRETON.**  
Alpheus Bell, acting in the interests of Standard Oil Company, has been in Halifax after some weeks spent on the island of Bonaventure, where he has leased 5,000 acres, comprising some sixty-five farms. He announces that drilling for oil will be commenced at once, the contracts for the drilling having been given to Matych and Wilkins, of Pittsburgh, Pa. Mr. Bell expects that it will be necessary to drill to a depth of 3,000 feet to prove the areas which he has taken up. He seems sanguine of success, the location selected being in the center of coal areas and in direct line of the eastern oil belt.

**NEW YORK, N. Y.**—Since the remarkable discovery of organic iron, Nuxated iron or "Fer Nuxate," as the French call it, has been the country by storm. It is conservatively estimated that over three million people annually are taking it in this country alone. Most astonishing results are reported from its use by both physicians and laymen. So much so that doctors predict that we shall soon have a new age of far more beautiful, rosy-cheeked women and vigorous iron men.

Dr. Ferdinand King, a New York Physician and Medical Author, when interviewed on this subject, said: "There can be no vigorous iron men without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anemic men and women is lack tone; the brain fags and the memory fails and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks."

"In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degenerated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and still methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss."

"Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

"Former Health Commissioner, Wm. R. Kerr, of the City of Chicago, says: 'I have taken Nuxated Iron myself and experienced its health giving strengthening effect and in the interest of public welfare, I feel it my duty to make known the results of its use. I am well past three score years and want to say that I believe my own great physical activity is largely due today to my own experience with Nuxated iron. I feel it is such a valuable remedy that it ought to be used in every hospital and prescribed by every physician in this country.'"

Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given any medical information or advice for publication as I ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish to increase their strength, power and endurance should take it."

tomorrow afternoon from the late home. Robert Hamilton Armstrong, a respected resident of Fairville, died suddenly. After breakfast he went to the post office for his mail, and on his return cranked his automobile with the intention of going out for a ride. Five minutes later Thomas Stotter, his brother-in-law, found Mr. Armstrong resting his arms on the car door, semi-conscious. He was carried into the house and before Dr. Allingham arrived Mr. Armstrong had passed away. Heart failure was the cause of death. Deceased was a native of St. John and a prominent contractor and builder. He was sixty-three years of age and leaves to mourn six sisters and three brothers. The sisters are the Misses Elizabeth, Mary and Grace, at home; Mrs. W. S. Robinson, of Roxboro, Mass.; Mrs. George Reed, Fairville, and Mrs. T. E. Stotter of Fairville. The brothers are Charles and William of Butte, Mont., the Chancellor of the Exchequer for the House of Commons. For five weeks from April 1 to May 5, 1917, the statement shows the daily average of expenditure was \$7,471,000, while for the five weeks from May 6 to June 5, it was \$7,532,000.

For the ten weeks from April 1 to June 5, the expenditure is shown to have averaged \$7,752,000. For the respective periods set forth the actual war expenditure daily, the Chancellor states, is as follows: \$7,457,000, \$7,532,000 and \$7,752,000. The increase in expenditure for army service, says the statement, is in part attributable to payments and advances which are ultimately recoverable."

**TAKE NOTICE,** that William H. McQuade, of the City of Saint John, in the County of Saint John, and Province of New Brunswick, Debt Receiver, pursuant to the provisions of Chapter 141 of the Consolidated Statutes of New Brunswick entitled, "An Act respecting Assignments and Preferences by Insolvent Persons," did on the ninth day of July, in the year of our Lord one thousand nine hundred and seventeen, make an assignment for the benefit of his creditors to the undersigned, John A. Barry, Esquire, of the said City of Saint John, in the County and Province of New Brunswick, aforesaid. At a meeting of the Creditors of the said William H. McQuade will be held at the office of the said John A. Barry, Esquire, assignee, at the Building No. 109 Prince William street, Saint John, N. B., on Monday, the sixteenth day of July, A. D. 1917, at three o'clock in the afternoon, for the appointment of inspectors and giving directions with reference to the distribution of the estate, and transaction of such other business as shall legally come before the meeting.

**NOTE:** Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as nervous, run-down conditions. The manufacturers have such great confidence in Nuxated iron, that they offer to forfeit \$100.00 to any charitable institution if they cannot take dry man or woman under 60 who lacks iron, and increase their strength 100 per cent. or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Watson's Drug Store and all good druggists.

## BOARD OF TRADE NOTES

At a meeting of the Council of the Board of Trade, held yesterday, the committee that had considered the assessment report was appointed a nominating committee to select the assessment commissioners to be named in accordance with the act passed at last session of the legislature.

No action was taken upon the communication of the Winnipeg Board of Trade relative to the appointment of an inland Trade Commission, pending the receipt of further information. Reports were presented on harbor development and on shipbuilding, the council expressing satisfaction that the port would soon have three ship-building yards in active operation.

There was a frank discussion on the urgent need for street improvement just so soon as war conditions would permit. The matter was left with the civic committee.

The council approved of the establishment of a baggage transfer station at the harbor, in line with modern methods of travel.
