## LARGE EXTRA DIVIDENDS IN U. S. STEEL LIKELY

Trading Continues Dull in Afternoon but Market Holds Firm with Strong Spots Here and There.

(McDOUGALL & COWANS). New York, July 27.—Trading continued dull in the afternoon but the market held firm with strong spots here and there. The advance in U. S. Steel to more than a point above previous close was accompanied by rumors that large extra dividends would be declared in order to offset the clause in the tax bill taxing undistributed surplus. There was nothing to confirm these rumors and there are good reasons for rejecting them. Baldwin made the most aggressive movement of the day but there were also substantial advances in a few other stocks including Alcohol and Mexican Petroleum. Much talk is heard of the formation of pools of various issues to accumulate stock. There is as yet little concrete evidence of an awakening at Washington but there are a number of slight indications that one is preparing. The prompt re-organization of the new shipping board is an illustration.

## "LOOKING INTO THE FUTURE"

Civic pride is a wonderful thing. It makes a man respect his community and respect its laws. Imbue a man with civic pride and he is at once a loyal, useful and desirable citizen. There is not a loyal, true citizen of this community but who rejoices living within our borders but who desires to assure the future prosperity and greatness of our city. Failure of such a citizen to do his part in building forth the future of his city is not a matter of indifference. In practically every instance it is a lack of knowledge.

The purpose of this home products movement is to show such citizens why "Buying and Boosting Home Products" is essential to the continued prosperity of the city in which he lives.

If our city is governed by the "Buy Home-Made-Goods" Rule, the needs of our enlarged resources and industries and their relative values will soon be spread universally and the world outside will listen and heed. Orders will pour into our city for our goods and we can meet the outside demand as well as our own on all lines, and with the best products. The best assurance we can have of future prosperity and progress is for us to adopt the rule—"Buy and Boost Home-Made Goods."
