RIDEOUT ONLY MAN TO BREAK WHISKEY RINGS

Nova Scotia Gov't Visited by
Big Delegation in His
Behalf.

CLAIM SITUATION GROWS DESPERATE

Ten Thousand Voters En-
dorse Request That Chief
Cape Breton Officer.

Halifax, July 19.—That there is an organized liquor ring in Sydney and vicinity, and that conditions there will not be improved unless George R. Rideout, formerly temperance act inspector for Sydney, or some other equally competent official is appointed to cope with this illicit traffic, was the statement made by a delegation of Cape Breton citizens which today waited on the provincial government to ask for the appointment of a deputy inspector to have jurisdiction over the whole island.

Situation Desperate.

Members of the delegation reiterated that the condition of affairs in the mining towns with regard to the enforcement of the Nova Scotia Temperance Act was desperate and demanded remedies that were out of the ordinary. They asked that Rideout be appointed inspector for Cape Breton under an amendment to the Temperance Act recently passed.

C. P. Moore, a business man of Sydney, told the government members that the delegation had come to Halifax not at the instigation of a few "cranks," but on solicitation of over ten thousand voters of the counties of Cape Breton and Inverness. They asked, he said, that the government should do what lay in its power to alleviate the evil which every right thinking citizen deplored.

Premier's Statement.

Premier George H. Murray, expressed his whole-hearted sympathy with the delegation in their desire to have the law enforced, but pointed out that at present the onus of responsibility in regard to the enforcement of the Temperance Act rested with municipal bodies. He realized the necessity for a special officer for Cape Breton, but A. E. Lamont was already carrying on that work. He would make it extremely awkward for the provincial government to appoint Mr. Rideout to the position, after he had been turned down by the Sydney city council.

The Premier promised that the government would give consideration to the matter.

Threatens Revolution In Russian Church

Monk Pledges Himself to
Fight Priests on Behalf of
the People of Russia.

Riga, Latvia, July 19.—The monk Ilidor (Heliolodius), former preceptor and afterward antagonist of the notorious Rasputin, is again attracting attention in Russia by announcing his purpose to start a revolution in the Orthodox Russian Church. He, Ilidorus fled from Russia after his break with Rasputin in the early part of the war, but returned after the Bolsheviks gained control. He was unfrocked by the church.

His reappearance in public in Russia was almost simultaneous with the revival of fever in the Orthodox Church, which the Bolsheviks now are trying to combat. In an address at the "Tsarist" (of which he was formerly abbot) he recently declared: "I consecrate myself to the fight for the people's cause and to start a campaign against the popes (priests) which is to make a revolution within the church."

Every Sunday and on many religious feast days in Russia the churches now are crowded. Communists, themselves, are attending the services, and this has brought down on their heads a warning from the government "not to set so bad an example for the peasants." On that subject, the Moscow Pravda says that some of the Communists even have used Soviet official automobiles to take their families to church services, weddings and christenings. The newspaper printed the following warning from the party heads:

"The Soviet power has no intention to compel anyone by forcible means to leave off the services of professional darkness, but the Communist party as a whole has a right and is bound to demand from its responsible members that they not only should not take part in religious ceremonies and services, but should try by example and explanation to others to overcome all religious superstitions. Every member of the party directly and openly should recognize and strengthen by the example of his own conduct the truth that religion and scientific Communism are absolutely incompatible."

The New Excuse.
Rorified Old Lady (sympathizing with crippled beggar)—Mercy sakes! How did you ever happen to become so disabled?
The Object of Her Inspection (good naturedly)—I ran me legs off, mum, lookin' fer 'n apartment.

Less Danger Now In Bush Fires

Reports from Various Parts
of the Province Indicate
Blaze is Smaller.

Fredericton, N. B., July 19.—The report from the McLeod fire which before the rains gave so much trouble is now very favorable. Yesterday a call was sent in for more men and about fifty were sent to it, but this crew is necessary to keep the fire from spreading. Aside from this there is no danger as the fire, in its present location is under control.

Recent word from the Busby's Sliding fire is that the flames have not reached the railroad. It is reported controlled.

The last report from the Mill Stream fire is also favorable.

A fire has broken out three or four miles from Ripples, and two crews have been sent to it. It is now thought to be controlled.

The fire which broke out on Bald Mountain just before the heavy shower of Thursday is now under control. Two hours rainfall last night at Newcastle and heavy rainfall at Campbellton were enjoyed. No fires are reported from Madawaska County. The smoke has been very dense for the last few days and this makes the work of the look-outs difficult. It is thought that last night's rain was rather general and will aid somewhat in the work of controlling the forest fires.

Swear In The New York-Sunbury Judge

Hon. A. R. Slipp Takes Oath
of Office Before Mr. Justice
Barry.

Fredericton, N. B., July 19.—This morning at 12 o'clock at the Judge's room, Parliament buildings, Hon. Arthur R. Slipp presented his commission appointing him county court judge of the counties of York, Sunbury and Queens, when the oaths of allegiance and of office were duly administered by His Honor Justice Barry of the Supreme Court. The proceedings were carried out in the presence of Hon. Mr. Justice Crockett and H. G. Benet, clerk of the York County Court.

Judge Slipp, who now enters upon his duties as Judge of the County Court of York, Sunbury and Queens, is the third person to occupy this position since Confederation, extending over a period of 64 years. Hon. Jas. Steadman, who had formerly been a member of the executive council, was the first appointee, and on his retirement in June, 1898, on account of having reached the age limit, the Hon. Wm. Wilson succeeded, and after serving 23 years, was retired in March last on the same ground as his predecessor.

The swearing in of Judge Slipp this morning means that the machinery as far as the jurisdiction of the county courts in the above named counties go, is once more set in motion. For over four months these counties have been without a judge.

FIRE AT GEORGETOWN.

Georgetown, July 19.—Fire early Sunday morning completely destroyed the grocery store at Georgetown owned by Mr. Fred Onellett. The contents were not saved, but it is understood that the loss is mostly covered by insurance.

The alarm was rung in from Box 18 about 1:50 o'clock in the morning, but it was impossible to save the store. The all-out sounded at 3:10 o'clock.

AGREE TO SILENCE.

New York, July 19.—Women's prerogative is fully protected in an unusual domestic agreement just signed by Mr. and Mrs. Chas. Y. Beauman.

Under its provisions Mrs. Beauman may talk when, where and as much as she pleases.

The husband, however, agrees that, though living in the same apartment with his wife, he will not speak to her for nine years except when it is absolutely necessary.

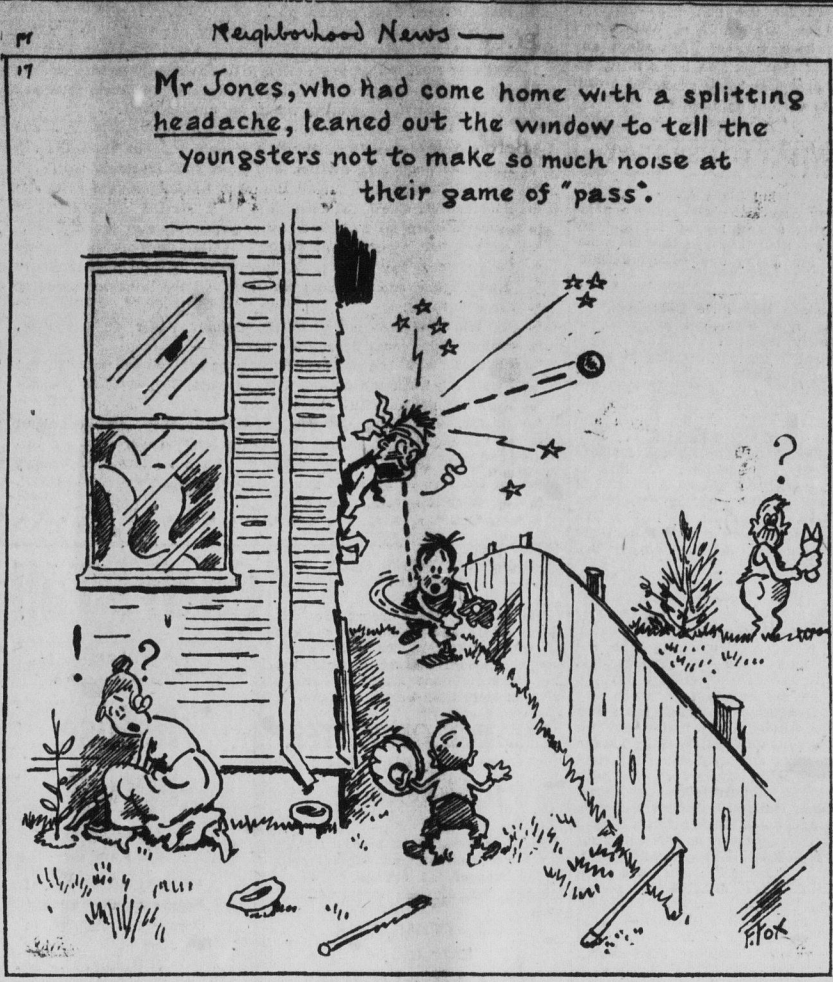

The same agreement was entered into nine years ago after a disagreement. It expired yesterday and was renewed.

Mr. Beauman is 59 years of age and his wife 45.

Where They Differ.
So, Portland sage says a man is seldom as old as he feels, or a woman as young as she looks.

Fredericton

Fredericton, July 19.—John H. McCollom of Fredericton, has been appointed to succeed William Hughes as city marshal. He will take up his duties on Wednesday. The appointment is tentative, the finance committee having named Mr. McCollom, but it is altogether likely that it will be confirmed by the city council.

Ex-City Marshal Hughes will remove to Devon, his native town, where with his brother, Frank Hughes, he will engage in farming upon the Hughes farm.

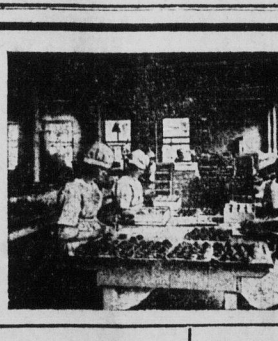

Mr. McCollom is a native of St. John, but has resided in Fredericton for the last ten years. He formerly was a member of the St. John police force and later was chief of the Fredericton force. He is a veteran of both the South African and European wars. He was wounded in France.

Prior to going overseas he was battery sergeant-major with the 9th Siege Battery in St. John. At the time of going to South Africa he was with the Royal Canadian Regiment of the permanent force, with which he served one term of enlistment.

Got Alleged Gin.

Chief Inspector J. B. Hawthorne and Sub-Inspector Fraser Saunders visited Minto on Sunday and took the inhabitants rather by surprise, as Sunday visits are not usual. A Belgian resident was caught with three bottles each containing a small quantity of gin.

The man who was charged with violation of the Prohibition Act and who was caught through using a "phony" gallon tin which contained three-quarters of a gallon of water in a separate compartment, is to come up for a hearing on the 25th. His companion

The chief inspector recently returned after a tour which included Woodstock and Millville. Sub-Inspector McClements at Woodstock, reported conditions quiet there. The racing meet last week, although attended by thousands, produced few violations of the act.

Hopewell Hill

Hopewell Hill, July 19.—Judgeon Steeves of Riverside, is selling his fine farm to Mariner Anderson of Waterville. Mr. Steeves will take up his residence at this place.

Weldon Steeves is negotiating with Sears Steeves for his farm.

The Women's Institute met in their new rooms this afternoon. The annual business was transacted. Mrs. W. J. McGorhan read a paper on "The Home and Community."

It being the twenty-seventh anniversary of one of our active members, Mrs. W. T. Wright's wedding day. Congratulations and best wishes were presented to her by the president.

The Baptist and Methodist Sunday schools held their annual picnic on Tuesday afternoon on West's Hill.

The mammoth picnic will take place next Tuesday at Cape Rock.

This will include all of the Sunday schools in Albert County.

Rev. Mr. Nicholson is supplying for the Presbyterian Church at Riverside during the summer months.

REAL FREEDOM TO BE FOUND IN ENGLAND

British Are a Freer Race
Than Are Boasted
Americans.

UNITED STATES HAS YET MUCH TO LEARN

Sir Charles Sykes After Tour
Through U. S. Expresses
Faith in Her Friendship.

London, July 19.—Sir Charles Sykes, M.P., who has just returned from a visit to the United States and Canada, says in an article contributed to Lloyd's Weekly:

"So far as the United States is concerned, I have brought back two dominant impressions; first, the deep, and I believe, all but universal friendship toward Great Britain, and secondly, that except in certain more or less technical directions the United States has less to teach this old country than some people seem to think."

"And, after all, it is natural that it should be so. All that is highest and best in the political and social life of the great republic of the west has been derived from Great Britain."

"In working out legislative and administrative principles which we hold in common, the United States has, in my view, not preserved as much of the freedom as we have ourselves retained. The tendency toward grand-motherly legislation is very strong in many states and there is a narrow and repressive spirit at work which it is impossible to ignore."

"On the whole I had the feeling that there is more personal freedom in the Old World than in the New and that liberty and dignity of the individual mean rather more to us than to our cousins."

Loves Old English Ways.

"I confess to be a lover of our old English ways and customs and at the same time a believer in British capacity to produce the best."

"We have nothing to fear from the United States. Of that I am assured. America is our friend and that friendship is real and vital, not only to us both, but to the world."

"As to business, America is in possession of great natural advantages, yet she is not, on the whole, in a better position than we are, and if we settle down to work, we shall come out of our post-war difficulties stronger than ever."

"The tendency in the United States, as in this country, is not to realize that the days of artificial prosperity are numbered. Today the whole world is hard up, and the only real cure for that is hard work."

Jemseg Chicken Has Four Legs

J. A. Colwell Possessor of
Freak Bird for Which He
is Offered Fancy Prices.

Jemseg, N. B., July 19.—Mr. J. A. Colwell, of Jemseg, N. B., has in his flock of chickens hatched out last May, one Plymouth Rock chicken which might be called a freak of nature. This chicken is of normal size, but has four legs and a double back; the two legs which it walks on seem to be of ordinary size, although the two on its back are not quite up to size of standard, but are very little less. The two legs on its back seem to be connected with the double back, which is fastened on the back of the chick. This chick appears to be in first class health and condition and runs around at leisure, except when it gets tangled in shrubbery and heavy grass these extra feet get entangled and sometimes has to be helped out.

Mr. Colwell has been offered quite a substantial sum; in fact, has been offered a horse for this chick, but the curiosity, not only around Jemseg, but from quite a distance, seem to warrant him to keep it just to have the neighbors and friends call on him and see this extraordinary domestic bird.

Carbonated Ice Cream

The newest and purest thing "Under the Sun."

The ice cream industry of the world has been turned topsy-turvy by a wonderful new method of making super pure ice cream which is known as "Carbonating." By means of a tiny device attached to the freezer, all ordinary air is forced out of the cream and replaced by atmosphere a hundred times purer than air. The result is ice cream far purer and finer than anyone has ever imagined was possible.
