POOR DOCUMENT

THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N B., APRIL 30, 1902.

W HERE ISAAC OULTON WAS BORN; FACTS OF HIS EARLY LIFE AND RELATIONS.

The Black Sheep of the Family-His Closeness Exhibited in Youth-Most Respectably Connected-How He Came to Leave Home-Many Relatives in This Province and Nova Scotia.

Ro the Editor of The Telegraph:

Sir.—In reading yesterday's issue of The Telegraph I noticed an article freaded "Issae Oulton, minety pedlar, recluse and miser had a strange life," in which a certain "Morth End gentlemen" volunteered a certain amount of information concerning "Issae Oulton, his mode of life, the latives, level." He Delignia, however, by saying that he cannot give "any reliable information in regard to the date and place of Oulton's birth." Permit me to say that much if not all the proferred information is not correct. I might say forthe benefit of this gentleman of the North. End that Issae Oulton is the eldest son, of the late Charles and Lunice Oulton and was born in the year 1813, Cumberhad county, N. S., on the farm occupied and owned at present by his youngest brother Bushy. His (Issae's) second wife was Ruth Oulton, second daughter of the late William Oulton, two of the most flourishing farmers of Baie Verte, and Captain S. B. Oulton, of Brocklyn, N. Y., retired, are her brothers.

He 'urther says: He has some fell fives and I can add that he has many although they did 'not recognize him on account of his histor's of life. The writer ray there are the ready has a winder of the late brothers.

He 'urther says: He has some fell fives and I can add that he has many although they did 'not recognize him on account of his histor's of life. The writer ray there are the says that least summer his brother, and the several summer his brother, and the professed him they are life to the say that we have been and harmes to drive any such in his home up river for the leasen above mentioned. He was married and settled in Nova Scotia, and was too fond of a good horse and harmes to drive any such in his home up river for the research held in this province and for which he was one of the leading hotels will be said and the can be professed in yesterday's paper. His brother to the leading hotels will be said and the case of the family was a most respectable in the family was a most respectable in the famil

wrife at one of the leading hotels while went to call on Isaac, here is no man by the name of Duthere is no man by the name of Duthere is no man by the reservoir at Winches-Highland. Mass. There is a man Busby, who is now living in Cumberland

ent of the Winchester Water Works. He is no relation whatever, bit his wife is slightly related. Outlon's sister did not come from Boston last summer to see him. He had no sister at that time. The last sister he had was Mrs. N. H. Smith of Jollichre, Westmorland county. N. B. and she died about 13 years age. Despite the statement to the contrary he has no nephews handiers than Westmoreland county. N. B.

In concluding I might say that your informant is not elever enough to distinguish the late miser's brothers or relatives by the clothes they wear, the teams they drive nor, yet the homes in which they dwell. It seems a pity that any person should interfere with what is none of the miser had few, perhaps no relatives, were married. It had been thought that the miser had few, perhaps no relatives, but here are many. These are the debic statement to write the biography of a man about whom he evidently knows so little. We must give, and has a fine home. Evidence of the training which was given and from which Isaac form which Isaac

Hartland, April 28-On Thursday Deputy Sheriff Foster arrived from St. John with the man Howell, for whose arrest W. F. Thorton, hotel keeper, laid information on a charge of horse stealing. The accused gave a satisfactory account of himself and there was no evidence to show that Howell was guilty of an indictable offence. Justice Barnett dismissed the man.

message from Morgan, Texas, states that a tornado passed over Glenrose, a smartown in Somervall county, between 5 and 6 o'clock this evening, killing five persons, injuring 40 more, and demolishing much property. One-third of the business houses of the town were wrecked. Assistance has been sent to Glenrose from Morgan. Definite particulars are not obtainable.

What is

Castoria is for Infants and Children. Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other Narcotic substance. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays Feverishness. Castoria cures Diarrhoea and Wind Colic. Castoria relieves Teething Troubles, cures Constipation and Fixtulency. Castoria assimilates the Food, regulates the Stomach and Bowels of Infants and Children, giving healthy and natural sleep. Castoria is the Children's Panacea-The Mother's Friend.

"Castoria is an excellent medigine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. Osocod, Lowell, Mass.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D. Brooklyn, N. Y.

CANADIAN TRADE.

A WORD TO DAIRY FARMERS."

Experimental Farm, Ottawa, Urges the Keeping of Milk Records, and Tells Why

of the different cows?

In order to know your cows you must, keep a daily record of the milk yielded by each cow. We would like to see you do this. We are willing to help you do it. During the past year a number of dairy farmers, at our suggestion, made an effort along this line. The results were most satisfactory. In our possession are many farmers letters emphasizing the importance and value of such records, both as a guide in selecting cows and as an effective means of directly improving the totula herd. The extra outlay required is very simil. We would supply you with record forms for a time at least. The deeping of such records takes about one half minute per cow per day. The outlay for a balance world be from 50 cents to \$5.

The increased flow of milk due to keeping such a record where 10 cows are kept would pay for the balance in a week. Keeping such a record where 10 cows are kept would pay for the balance in a week. Keeping milking records induces a spirit of interest and competition among milkers and, in the mind of the milker, among the cows milked by the same milker. Rapid, clean and careful milking will raise the cows milked by the same milker. Rapid, clean and careful milking will raise the everage return from a cow by from two to ten per cent according to the cow—the better the cow the greater the interests and competition among milkers and, in the mind of the milker, among the cover the better the cow the greater the interests and competition among milkers and, in the mind of the milker, among the cover the balance of the cow—the better the cover the bester the cover the balance of the cow—the better the cover the bester the cover the balance in week to be a support to the solid the little and the crowd, and above the soundary of the cover the cover the balance in week. Keeping milkers and competition among milkers and, in the mind of the milker, among the crowd and each girl took the senting the average return from a cover by the cover the cover the cover the cover the cover the cover the cove

the sale. Especially is this true if she is a pure bred. Further, knowing the rea pure bred. Further, knowing the return from each cow in any herd, you are in a position to easily select for breeding, besides, in almost every herd are found "herviers" course that you have a call on her. After mustering sufficient courage, he rang the ing, besides, in almost every herd are found "boarders"—cows that pay a very low price for their food, leave no profit, and frequently are kept at a loss. They should be detected and fed off for beef. Keeping a milk record is a ture way to discover them. To the breeder of pure bred stock of any of the milking breeds, Jersey, Guernsey, Ayrshire, Canadian or milking Sharthern strains the daily milk. miking Shorthorn strains, the daily milk not understanding that an introduction record should be quite as important as the breeding record. We venture the as-sumption that in a very few years every breed putting forward any claims as a dairy breed will be making a specialty of milk records. The reasons are obvious. Beauty of style, color and conformation are properly invested and when the breeder. are very important, and where the breeder

fact the great unrest is upon us even as wise, is always a real trial to a reporter with the real newspaper instinct, and so bodings. What would life be without the injured air towards humanity in ge and its unreasonableness in this reasonableness in this reasonableness in this reasonableness. Elysium where mortal man, lulled into really does happen, he is right in his ele-forgetfulness of the temporary nature of ment and his only trouble then is in try cooked dinner 365 days in the year, and an easy chair to rest his tired body when the labor and worry of the day over, he refires to his home, would never the labor and world where movings are no more. No, give us the annual move and house-cleaning to remind us at least one month in twelve that earth is but a desert drear, that "I'm but a pilgrim here; Heaven is my home." Moving is undoubtedly the great test of human contentment and the man who can face it good naturedly has nothing to fear from the world's rebuffs. Moving came into vogue with the serpent in Eden and had, perhaps, as much to do with man's unhappiness as either Eve or the orchard.

"What in the world is the matter with you, Blank?" asked reporter No. 1, who
