HIGGINS' OFFICE PASTE

A PURE, opalescent, white paste, semi-fluid, or midway between a fluid mullage and a non-fluid or set paste. It spreads with great ease and smoothness, catches quickly, dries readily, has great adhesive power, and does not warp the paper. Very popular for general office or home use. The brush-holding device (our own patent) forms an attractive method of holding the brush for display. In use, the brush is withdrawn, the inner disk or lining of the cap removed, and the brush passed up vertically through the cap. In this position it can be adjusted to any desired height with reference to contents, thus always insuring the proper quantity of paste on the brush. It is a splendid general paste, put up in a novel, practical and beautiful manner.
