### THIS WEEK'S HOME

With 3,100 square feet of spacious living, this is a home for a large family. Main level has a formal living room, a large dining room, a huge kitchen with many cupboards and an eating area. There's a separate walk out to the patio and a lovely family room with fireplace and walk-out. This gives access to the hallway which affords entry into the

main-floor laundry room and exit door. A two-piece washroom complements this main level. Circular stairways accord access to the upper and basement levels. Five large bedrooms are on upper level. The master bedroom has a walk-in closet and a special five-piece washroom, which has an extra shower for the large family and any guests. The

bedroom over the garage area can easily be converted into a lovely den or office. Trees complement this property in comparison to the proper surrounding homes. All this and more for only \$164,900. To visit and appreciate this home, please call S. Reeves Coleman at Montreal Trust Company at 270-3930 or 275-6828.
