## *The Proposed Memorial Hall.*

### *Description of Hall.*

The Memorial Hall will be constructed of cut stone and, as the illustration shows, will be of a Modified Gothic design, with tower and chimes. It will provide seating space for eight hundred people. The interior will be fitted with a large stage, pipe organ and everything which goes to complete a modern Assembly Hall, and the names of the seven hundred students and ex-students who fought in the Great War will be suitably inscribed on tablets to be placed on the walls. The Hall will cost at least \$100,000. See the plan on the inside back cover.
