**PETERBORO HOG MARKET**  
Delivered on English markets last week totalled 33,000. The demand for bacon in the County is very poor. The delivery of deliveries being a little heavier. The Geo. Matthews Co., quote the following prices for this week's shipments: f.o.b. country points, \$8.50 a cwt.; weighed off cars, \$8.85 a cwt.; delivered at abattoir, \$9.00 a cwt.

**MONTREAL HOG MARKET**  
Montreal, Saturday, August 27.—The market here for live hogs has been declining steadily, owing to the increased offerings at each market, and the week is closing with prices down to \$9 a cwt. Lower prices are looked for with the steadily increasing receipts.

Dressed hogs are firm and selling freely at \$13 to \$13.25 a cwt. for fresh killed export stock.

**EXPORT BUTTER AND CHEESE**  
Montreal, Saturday, Aug. 23.—The market this week for cheese has been fairly steady, with very little movement in prices either way. At the various country markets in Ontario, prices ranged from 10½¢ to 10½¢, with the bulk of the goods selling at 10½¢, with more cheese in some cases selling at more money than white. The demand for export, however, was small, and the shipments for the week amount to barely 15,000 boxes, which is considerably below the average at this time of the year. On the other hand, the receipts for the week have been unusually light, and show a decided falling off from the figures for the same time last year, and there seems to be some reason to expect a smaller make from now on than we had at this time last year, due largely to the small make of cheese going on in the province of Quebec, and also because of the great demand from the United States for cream, which is inter-fering considerably with the manufacture of both butter and cheese in this country. We hear every day of factories along the line starting to put up cream for shipment across the border. This is bound to have considerable effect upon the output

of cheese and butter during the fall months. The factories that have kept on making cheese, however, report a full make with here and there slight increases. The market for butter is very firm owing to the falling off in the receipts from the country coupled with a good demand for export at advancing prices, and also a large speculative demand from the local dealers. A new feature during the past few days has been a demand from the United States for butter, and also for cheese. Prices are firm at 24¢ here for fancy Townships, with other sections of Quebec ranging at 19½¢ to 20½¢ a lb.

**GOSSIP**  
A new industry, based upon the discovery of Mr. A. Gaultin, of Paris, a French engineer, and developed by The Canadian Farm Produce Co., is producing homogenized milk and cream. This product contains a purity of milk and cream that is not otherwise produced and which is a weapon against infant mortality. A booklet discussing this industry may be had by Farm and Dairy readers for the asking from The Canadian Farm Produce Co., 21 St. Peter St., Montreal.

**THE FARMERS' GOLD MINE** is the title of a little booklet published by the Massey-Harris Co., dealing with important points in regard to the value and application of manure. For any one who is interested in learning more of the value of manure and its application by well constructed spreaders, this is an interesting booklet, and can be secured on request from the Massey-Harris Co., Limited, Toronto.

**CONCRETE MACHINERY**—With the advent of cement a great variety of machines have been invented for using this wonderful building material. Special machines have been constructed and put on the market for mixing concrete. One of the most up-to-date of these machines has just been placed on the market, full particulars of which may be had from the London Concrete Machinery Co., Limited, of London, Ont.
