THE FARMER'S ADVOCATE.

OLLAR IS ST D

I will gladly give any sick one a full dollar's worth of my remedy to test. I ask no deposit—no promise. There is nothing to

of my remedy to test. I ask no deposit—no promise. There is nothing to pay, either now or later. The dollar bottle is free I want no references—no security. The poor have the same opportunity as the rich. The very sick, the slightly ill, invalids of years, and men and wo-men whose only trouble is an occasional "dull day" —to one and all I say, "Merely write and ask." I will send you an order on your druggist. He will give you free the full dollar package. My offer is as broad as humanity itself. For sick-ness knows no distinction in its ravages. And the

may other is as bload as humanity itself. For sick-ness knows no distinction in its ravages. And the restless patient on a downy couch is no more wel-come than the wasting sufferer who frets through the lagging hours in a dismal hovel. I want EVERYone, EVERYwhere, to test my

remedy. There is no mystery—no miracle. I can explain my

Inside Nerves!

134

Only one out of every 98 has perfect health. Of the 97 sick ones, some are bed-ridden, some are half sick, and some are only dull and listless. But most of most important system in the human body. Our life rests on the action of the vital organs. While they work we live. When they stop we die. While they per-form their duties properly we are well. When they perform their duties poorly we are ill. And the vital organs, each and every one, depend upon the inside nerve system, for it not only regulates them—it operates and controls them. The work of the inside nerves is not only the most important—it is the most laborlous. For our other nerves are exthe sickness comes from a common cause. The nerves are weak. Not the nerves you ordinarily think about—not the nerves that govern your movements and your that govern your movements and your thoughts.

But the nerves that, unguided and un-known, night and day, keep your heart in motion—control your digestive appa-ratus—regulate your liver—operate your kidneys.

only the most important—it is the most laborious. For our other nerves are ex-erted only at will. We think and talk and exercise only as we feel inclined, and when we are tired we rest. But the stomach, the heart, the liver, the kidneys, must constantly and continuously—day and night — fresh or tired — perform their necessary duties. We have no way of knowing even that they are tired or at fault save the weakening of the organs they supply. But this strong bond of sympathy has These are the nerves that wear out and break down.

It does no good to treat the ailing or Ran-the irregular heat-the disordered liver-the rebellious stomach-the derang-ed kidneys. They are not to blame. But go back to the nerves that control them. There you will find the seat of the trouble. trouble.

There is nothing new about this-nothing any physician would dispute. But it remained for Dr. Shoop to apply this knowledge—to put it to practical use. Dr. Shoop's Restorative is the result of a quarter century of endeavor along this very line. It does not dose the organ or deaden the pain—but it does go at once to the nerve—the inside nerve—the nower it and makes it well.

For Stomach Troubles

The stomach is controlled by a delicate nerve called the solar plexus. Prize fight-ers know that a blow over the stomach-a solar plexus blow-means a sure knocka solar plexus blow—means a sure knock-out. For this nerve is ten times as sen-sitive as the pupil of your eye. Yet the solar plexus is only one of the centres of the great inside nerve—the power nerve. It is one of the master nerves. The stom-ach is its slave. Practically all stomach trouble is nerve trouble—inside nerve trouble—solar plexus trouble. Dr. Shoop's Restorative strengthens the inside nerves —strengthens the solar plexus—and the -strengthens the solar plexus—and the stomach trouble disappears.

treatment to you as easily as I can tell you why cold freezes water and why heat melts ice. Nor do I freezes water and why heat melts ice. Nor do I claim a discovery. For every detail of my treatment is based on truths so fundamental that none can deny them. And every ingredient of my medicine is as old as the hills it grows on. I simply applied the truths and combined the ingredients into a remedy that is practically certain. The paragraphs below will show you the reason why. But my years of patient experiment will avail you nothing if you do not accept my offer. For facts and reason and even belief will not cure. Only the remedy can do that.

remedy can do that.

remedy can do that. In eighty thousand communities—in more than a million homes—Dr. Shoop's Restorative is known. There are those all around you—your friends and neighbors, perhaps—whose suffering it has relieved. There is not a physician anywhere who dares tell you I am wrong in the new medical principles which I

Many Ailments-One Cure.

I have called these the inside nerves for simplicity's sake. Their usual name is the "sympathetic" nerves. Physicians call them by this name because they are so closely allied-because each is in such close sympathy with the others. The result is that when one branch is allowed to become impaired, the others weaken. That is why one kind of sickness leads into another. That is why cases become "complicated." For this delicate nerve is the most sensitive part of the human the most sensitive part of the human system.

Does this not explain to you some of

bystem. Does this not explain to you some of the uncertainties of medicine—is it not a good reason to your mind why, other kinds of treatment may have failed? Don't you see that THIS is NEW in medicine? That this is NOT the mere patchwork of a stimulant—the mere soothing of a narcotic? Don't you see that it goes right to the root of the trouble and eradicates the cause? But I do not ask you to take a single statement of mine—I do not ask you to believe a word I say until you have tried my medicine in your own home at my expense absolutely. Could I offer you a full dollar's worth free if there were any misrepresentations? Could I let you go to your druggist—whom you know—and pick out any bottle he has on his shelves of my medicine were it not UNIFORM-LY helpful? Could I AFFORD to do this if I were not reasonably SURE that my medicine will help you?

apply. And for six solid years my remedy has stood the severest test a medicine was ever put to—I have said, "If it fails it is free"—and it has never failed the said,

said, "If it fails it is free"—and it has never failed where there was a possible chance for it to succeed. But this mountain of evidence is of no avail to those who shut their eyes and doze away in doubt. For doubt is harder to overcome than disease. I cannot cure those who lack the faith to try. So now I have made this offer. I disregard the evi-dence. I ky aside the fact that mine is the largest medical practice in the world, and come to you as a stranger. I ask you to believe not one word that I say till you have proven it for yourself. I offer to give you outright a full dollar's worth of Dr. Shoop's Restorative. No one else has ever tried so hard to remove every possible excuse for doubt. It is the utmost my unbounded confidence can suggest. It's open and frank and fair. It is the supreme test of my limitless belief.

Simply Write Me.

The first free bottle may be enough to effect a cure—but I do not promise that. Nor do I fear a loss of possible profit if it does. For such a test will surely con-vince the cured one beyond doubt, or dis-pute, or disbelief, that every word I say is true.

Is true. The offer is open to everyone, every-where. But you must write ME for the free dollar bottle order. All druggists do not grant the test. I will then direct you to one that does. He will pass it down to you from his stock as freely as though your dollar laid before him. Write for the order to day. for the order to-day. The offer may not remain open. I will send you the book you ask for beside. It is free. It will help you to understand your case. What more can I do to convince you of my in-What terest-of my sincerity?

For a free order for a full dollar Bcok 1 on Dyspepsia. bottle you must Book 2 on the Heart. a d d r e ss Dr. Book 3 on the Kidneys. Shoop, Box 52, Book 4 for Women. Racine, W is. Book 5 for Men. State which book Book 6 on Rheumatism. you want.

Mild cases are often cured with one or two bottles. For sale at forty thousand drug stores.

For Kidney Troubles

LOT KIULTY ITOUDIES The Kidneys are the blood filters. They are operated solely by the inside nerves. The branch which operates them and regulates them is called the renal plexus. When the renal plexus is weak or irregular, the kidneys become clogged with the very poisons they should throw off. No kidney treatment can clean them out or cure them, and one stage leads in-to another until after a while the kidneys themselves begin to break down and dis-scive. There is only one way to reach kidney trouble—that is through the inside nerves that control them, which Dr. Shoop's Restorative alone strengthens and restores. and restores.

they supply. But this strong bond of sympathy has a useful purpose. For it shows us clear-ly that all are branches of one great sys-tem—that if we make the system strong we strengthen every branch. This is why so many ailments can be cured by one form of treatment. For almost all sickness is nerve sickness—inside nerve sickness and other kinds of sickness, such as purely organic derangements are

such as purely organic derangements are frequently due to lack of proper inside nerve treatment.

A Bond of Sympathy.

The inside nerve system is plainly the

most important system in the human

sand times a day. And every heart beat is an impulse of the inside nerve branch called the cardiac plexus. The heart is a muscle, but it is the nerve that makes the muscle do the work. An irregular or weak heart is, almost in every instance, the direct result of a weak or irregular nerve-inside nerve. To cure heart trouble restore the nerve to correct Draw nerve-inside nerve. To cure heart trouble, restore the nerve to normal. Dr. trouble, restore the nerve to normal. Dr. Shoop's Restorative will restore the cardiac plexus, just as it restores the solar plexus and the renal plexus. For all are equal parts of the great inside nerve system—the power nerves — the master nerves.

For Womanly Troubles

Almost all of the troubles that are pe-culiar to woman are caused by weakness of the inside nerves. There is no need to doctor or dose an ailing organ when it depends alone for its supply of energy on the inside nerves. Inside nerve weak-ness, if not attended to, will spread. The common name for the inside nerves is the "Sympathetic Nerves." Each centre is in close sympathy with the other, and when one becomes deranged, general weakness and derangement frequently ensue. Dr. Shoop's Restorative gently tones up the inside nerves and removes the cause of weakness, permanently and forever.

S **IE** For economy's sake, keep a bottle of Dr. Shoop's Restorative always on the pantry shelf. When off days come a few doses will increase your appetite -relieve your dullness-set you right. Neglected, these dull, listless spells may develop into serious illness. A dose in time is the truest economy.
