

Out of Mr. David Zarbrigg's house at Tavistock, which is roofed and sided with our **Galvanized Goods**, which will not rust, and need no repairing.

Out of Mr. Fred. Weicker's barn at Haysville, Ont., which is covered with our **Galvanized Roofing**. We can give you the names of hundreds of other farmers who have used our roofing to their advantage.

WE WANT the names of every farmer who intends to build or repair any of his buildings. If you will write and state your intentions, we will send you cuts and prices of **Roofings, Sidings, Ceilings**, or any other goods you can use to advantage. We will also send you cuts of many barns and houses, and plans showing their arrangement.

We can help you to build a barn with fire and lightning proof roof, at same cost as wood shingles. Our roofing requires no paint, and will easily last for fifty years. Write at once, and we will mail you some interesting catalogues, etc.

Our literature fully describes construction and operation.

The Beath Litter Carrier

Patented Feb. 9, 1904, and July 18, 1905.

Awarded Diplomas at Canadian National Exhibition, Toronto, 1905; Central Fair, Lindsay, 1904.

We claim that the **Beath Carrier** is the only perfect machine on the market, and solicit inspection and comparison.

No farmer will try to get along without a **Beath Litter Carrier**, when he understands their perfect and durable construction, the ease of installation and operation, and the great saving in work which they affect.

This is the season to install them, and no progressive farmer will try to get along without one.

Send us a plan of your stables, and we will mail you copies of letters from users and make you an interesting proposition. Where we have no agents, we are quoting special prices to introduce. We guarantee complete satisfaction. Write us at once.
