

## REPLACED

A great many disk-filled and other common, complicated cream separators are replaced every year by simple, sanitary Sharples Dairy Tubulars.

Women prefer Tubulars because Tubulars are easiest to clean. Men prefer Tubulars because Tubulars wear a lifetime, run easiest, skim cleanest, skim fastest.

Tubulars probably replace more common separators every year than any other maker sells. Tubulars are the only modern separator—The World's Best. Oldest separator manufacturing concern in America. The manufacture of Tubulars is one of Canada's leading industries. Sales easily exceed most, if not all, others combined.

## Milk and Water CAN BE HONESTLY MIXED WITH

### WOODWARD Water Basins

Just test them and you will soon notice increase in milk. SAVE TIME AND LABOR. Your stock always watered at the right time. No worry. PREVENT DISEASE CONTAGION. We have thousands in use on the best farms in Canada.

Ontario Wind Engine and Pump Co., LIMITED, TORONTO, ONT.

### This Cylinder Shows Why The "EUREKA" Root Cutter

is the best on the market. See how it is designed. Grooved knives, with the grooves on one blade opposite the teeth on the next. Instead of slicing or pulping, the "Eureka" turns out roots in shreds—thin narrow strips—suitable for any kind of feeding. The "Eureka" shreds from one to two bushels a minute, and turns so easily that a child can operate it.

In the "Eureka" the feed is kept free from dirt, the feeder bottom being made with iron rods, thus allowing all dirt to drop out before it can reach the shredding cylinder. The sloping form of the cylinder makes the machine a self-cleaner. Write for catalogue which explains fully.

## Makes the Neatest, Smoothest Bales

The city dealer or exporter will pay you more for your hay if pressed into bales by the Dain Pull Power Press, because Joseph Dain's patented tucker makes bales that no other hay press can duplicate. They are smoother, neater, more firmly compressed. The skeleton drawing will give you an idea of the principle of the Dain tucker, and we advise you to study it carefully.

A is the tucker. It is a plate, the width of the bale chamber, with a flange at the top and a lip at the bottom. The tucker is pivoted on B, which is a strong rod attached to the top of the bale chamber. C, C, are two coil springs. One end is attached to the flange of the tucker, the other to the top of the baling case. D is the plunger that compresses the hay. The bottom of the tucker is a little above the top of the plunger.

When the plunger starts, the tucker is straight up and down. As the plunger moves in, the hay draws the tucker inward, as shown in the illustration. When the plunger moves out, the coil springs, C, force the tucker back to its former straight up and down position, and, as it returns back, the lip at the bottom folds the overlap down flat and even without wadding. The completed bale is smooth on both top and bottom. The Dain does the fastest baling—and without overtaxing either man or beast. It has a wide feed opening. You have lots of time to put in a big charge of hay. The feed table is convenient, and the plunger remains still and the feed chamber open its full length on one-fifth of the circle. The immense leverage, 160 to 1, allows us to use the short nine foot sweep, thus, in the same time, the team travels around the circle more often and more hay is baled than when horses have to complete a wider circle. For greatest convenience in operating, moving and setting, for greatest durability, buy the Dain Pull Power Full Circle All Steel Press. But, first send for our catalog and prices. Also tell us how much hay you will have to bale this season, and we will show you how you can secure more money for it by taking advantage of our Co-operation plan. A great many farmers are going to make bigger profits by this plan this season. There's no reason why you should not, so write for particulars this very day.

DAIN MANUFACTURING COMPANY, LIMITED.  
World's Largest Hay Tool Makers.  
90 Dain Ave., Welland, Ont., 2

### THIS IS THE SHEET METAL AGE.

Lightning, wind, rain or snow have no effect on a "Galt" Steel Shingled Roof.

Lightning just glides off our steel roof, follows down the conductors and disappears into the ground.

The continuous, overlapping, interlocking top joint and the Gale-proof, closed-end, side-lock afford no opening for the wind—and entirely prevent water or snow from being blown through the joints—one of the weaknesses of other shingles.

"Galt" Shingles make twice as secure a roof, because they are the only locked shingle nailed on two sides.

Handsome and easiest and quickest laid shingle on the market.

Catalog "B-3" tells about them.

THE GALT ART METAL CO., LIMITED, GALT, ONT.  
Sales and Distributing Agents: Dunn Bros., Winnipeg and Regina.

### STRENGTH AND ECONOMY

You can depend absolutely on PEERLESS Fencing to hold live stock under any and all conditions. It is made of all No. 9 steel wire heavily galvanized and has lots of spring in it, making ample provision for contraction and expansion due to changes in the temperature, sudden shocks, etc.

## PEERLESS

The Fence That Saves Expense

is held together by the Peerless lock, and the wires securely and easily. Peerless Fencing is made in the U.S.A. Write for catalogue and prices to Dept. B, THE BANKWELL WIRE FENCE CO. Ltd., Dept. B, 100-102, Winnipeg, Man.

WHEN WRITING ADVERTISERS, PLEASE MENTION "ADVOCATE"

## The New Model No. 24 Marlin

### Repeating Shotgun

This new 6-shot model is the simplest, surest, and fastest 12-gauge repeater made. It has the solid top, side ejection and double extractors—special Marlin features of comfort and convenience. The closed-in breech keeps the action clean and the shells dry—keeps out rain, snow, dirt, leaves twigs and sand.

The new take-down construction allows you to take gun apart in ten seconds for cleaning or packing, yet the joint is always as firm and rigid as in a solid frame, non-take-down gun. The fat forearm fits your hand and helps quick operation.

The full choked guns are guaranteed close-shooting, hard-hitting guns, and are unequalled for ducks, geese, foxes and all long-range work.

A circular giving large illustration, with full description of this handsome new gun, sent free on request or with complete 136-page catalogue for 3 stamps.

The Marlin Firearms Co., 113 Willow Street, NEW HAVEN, CONN.

## Get a Beath LITTER CARRIER

With the Beath Litter and Load Carrier you can save many hours a week. It carries all kinds of litter, and dumps it just where you want it. It is a decided improvement on other styles. No dog or brake required—an endless chain raises the load. All parts subject to strain are made of malleable iron. For sureness in operation, simplicity of construction and all-round excellence the Beath cannot be excelled. Send for catalogue and learn more about it.
