Strathroy, Ontario

IHC WAGONS HAVE STOOD THE TEST OF ALL LOADS AND ROADS FOR YEARS

THE real proof of the strength, durability, and value of IHC wagons is what they have done and are now doing for thousands of farmers throughout the Dominion. Light loads and heavy loads have been carried by IHC wagons, over good roads and bad roads, for so many years that there is hardly a farmer who is not familiar with the high quality that these names on wagons represent—

Petrolia Chatham

Either of these should be your choice if you want to be sure of lifetime service. The quality in both is the highest possible—the result of years of wagon-building experience, and the use of the best materials, shaped by skilled workmen operating with the finest manufacturing equipment.

Petrolia Wagons are constructed of the finest quality wood stock which is thoroughly seasoned by being air dried. The ironing is of the very best. The inspection of each part is most rigid. Petrolia Wagons must be made so that they will live up to the IHC standard of excellence or they are never sent out of the shops.

Chatham Wagons have a long record for satisfactory service in Canada. Made with hard maple axles, oak bolsters, sand boards, rims, and spokes, and oak or birch hubs—they represent the highest standard of wagon construction. When you buy a Chatham wagon it is with the assurance of getting the utmost service and satisfaction out of it.

Be sure to call on the IHC local agent. Get a pamphlet. Let him show you one of these wagons. If you prefer, write for literature or any other information you want to the International Harvester Company of America at nearest branch house.

EASTERN CANADIAN BRANCHES—International Harvester Company of America at Hamilton, Ont.; London, Ont.; Montreal, Que.; Ottawa, Ont.; St. John, N. B.

IHC Service Bureau

The bureau is a center, where the best ways of doing things on the farm, and data relating to its development, are collected and distributed free to everyone interested in agriculture. Every available source of information will be used in answering questions on all farm subjects. If the questions are sent to the IHC Service Bureau, they will receive prompt attention.

POTASH MEANS PROFIT

when employed judiciously in conjunction with the required amounts of Phosphatic and Nitrogenous Fertilizers. POTASH may be obtained in the highly-concentrated forms of

Muriate of Potash and Sulphate of Potash

from the leading fertilizer dealers and seedmen.

Before purchasing be sure to obtain copies of our Illustrated Bulletins, which will instruct you HOW TO PURCHASE AND USE FERTILIZERS ECONOMICALLY.

The following VALUABLE BOOKLETS will be mailed FREE to any reader of this paper: "Artificial Fertilizers: Their Nature and Use," "Farmer's Companion," "The Potato Crop in Canada," "Fertilizing Orchard and Garden," Etc., etc.

The Dominion Agricultural Office of the Potash Syndicate
1102-1105 Temple Building, Toronto.

GILSON ENGINE

"GOES LIKE SIXTY"

Always ready for work. Perfectly adapted for operating all farm machinery from pump to the biggest Thrasher. Improved timing, governing and sparking devices. Latest date. All sizes. Write for catalogue. Gilson Mfg. Co. Ltd., 1000 St. George Street, Montreal, Que.

Have Double Skimming Force, So Must Skim Twice as Clean.

That is how

SHARPLES

TUBULAR
CREAM SEPARATORS

repeatedly pay for themselves by saving what others lose. So surely farmers take only Tubulars. The double skimming force makes dregs and other complicated devices wholly unnecessary. So Sharples Dairy Tubulars contain no such hard-to-wash contraptions. Busy women want only Tubulars. These facts explain why all other separators are being discarded for Tubulars.

You can afford a Tubular, for it wears a lifetime. Guaranteed forever by oldest separator concern on this continent. Later than, different from all others. In world-wide use many years. Sales easily exceed most, if not all, others combined. One of Canada's leading industries.

How can you afford any "peddler's" or other cream-wasting, cheap machine, the average life of which is but one year? Only a Tubular will satisfy you, so better get it first and use it for life. If you don't know our local representative, ask us his name. Write for catalogue No. 193.

THE SHARPLES SEPARATOR CO.
Toronto, Ont. Winnipeg, Man.

FARM BARNS Must Be Fireproof

Brick and stone are out of the question for building farm barns. The first cost is too high—and the expense of freight and hauling prohibitive.

"IDEAL" FACE DOWN CONCRETE BLOCK MACHINES

give you fireproof building material at most reasonable cost.

With an "Ideal" machine, you can make the concrete blocks right on the spot—make them yourself—so that the only cost is for actual material and putting them in place.

A barn, built of "Ideal" Concrete Blocks, is a barn to be proud of—solid, substantial, absolutely fireproof, warm in winter, and built for all time.

Even if you are building only one barn, silo or house, an "Ideal" Machine will pay for itself—and you can make concrete blocks for your neighbors and net a tidy profit all the year round.

Write us for handsomely illustrated catalogues.

BOYS FOR FARM HELP The managers of Homes for Farm Help, Dr. Barnardo's, are looking for applications from farmers, or others, for the boys who are arriving periodically from England to be placed in this country. The young applicants are mostly between 11 and 13 years of age, and will have passed through a period of training in Dr. Barnardo's English Institutions, and they have been carefully selected with a view to their mental and physical suitability for Canadian conditions. Particulars as to the terms and conditions under which the boys are placed may be obtained on application to Mr. Alfred B. Owen, Agent for Dr. Barnardo's Homes, 60-62 Peter St., Toronto.
