Questions and Answers. Miscellaneous

Purchase of Implements.
A sells his stock, implements, and loose effects to B, and later the farm to C. Is the horse fork car a chattel, and can B remove it, or has C a right to claim same as a fixture to which he is entitled through purchase of place?

Ontario. A SUBSCRIBER.
Ans.—B would seem to be entitled to remove the article in question, provided he does so before the date for C's taking possession of the farm, and provided also it is removable without injury to building.

Ox Killed.
Neighbor A came to neighbor B and arranged to put their oxen together and plough turn about. A ploughed three days with six-ox team for himself; then while B was ploughing for himself lightning struck them, killing B and his two oxen and one belonging to A. A admits that there was nothing said about being responsible to each other when they arranged about the work. Now A puts in a claim of \$100 for his ox.

1. Has A a just claim?
2. Can A obtain the price of his ox by law, under this circumstance?

Ontario. SUBSCRIBER.
Ans.—1. No.
2. No.

A Henhouse.
Would like a pen to accommodate about 100 hens. What is the best shape to build, and of what material, and what the probable cost?

T. H. L.
Ans.—The open-front house should give you good results in your part of the country. For 100 hens, it should be 20 feet by 20 feet. The side directed to the south has posts only three feet high, and a small board is put along the bottom to keep the scratchings in, but the remainder of that face of the building is covered with wire netting. The posts at the back, or north side, are four feet six inches high. The gable end is seven feet high. A door is situated in the east end, and a window in the west. The window should be as large as convenient, perhaps 5 feet 4 inches by 4 feet 2 1/2 inches, and should be on hinges, so it may be opened in the summer-time, that the building may not become too hot. It has been found that fowls remain healthier in a building of this kind, as the ventilation is as near perfect as can be obtained without the presence of draughts. The material will cost you between fifty and sixty dollars.

Apples -- Basic Slag.
1. What is the weight of a bushel of apples?

2. How many bushels of apples are there in a standard barrel of apples?
3. What are the dimensions of a standard apple barrel; diameter of head, and depth of sides or staves?

4. Where could a person get sweet-clover seed?
5. Would basic slag be a good fertilizer to use on an oat crop; where could a person get it, and what quality would you use per acre?

S. J. H.
Ans.—1. Most evaporators and canneries buy apples at 50 lbs. to the bushel. By measure, they vary considerably in weight. Some varieties are much heavier than others.

2. The standard apple barrel contains 96 quarts, or 3 bushels.

3. The minimum size of a standard barrel containing 96 quarts is prescribed in the Inspection and Sale Act as follows: Head diameter, 17 inches; between heads, 26 1/2 inches; middle diameter, 18 1/2 inches. All inside measurements. The barrel in common use in Ontario is made from 30-inch staves. Its average dimensions are as follows: Between heads, 27 1/2 inches; head diameter, 17 inches; middle diameter, 19 1/2 inches.

4. Correspond with some of the seed firms advertising in our columns.

5. If your soil is in need of lime or phosphates, basic slag would give good results. Oats are quite heavy feeders of phosphates. From 300 to 500 pounds per acre is a moderate amount to apply. Consult our advertising columns, and get acquainted with the firms handling this fertilizer.

Make Your Stock and Poultry Pay Better with Royal Purple

STOCK AND POULTRY SPECIFICS

At a cost of less than a cent a day per head of stock, it will increase their value 25 per cent. Permanently cures Colic, Debility, Worms, Bots and Skin Diseases. Tones up run-down animals so that they quickly gain weight and vigor. Increases the yield of milk cows three to five pounds a day, besides enriching the quality of the milk.

ROYAL PURPLE is not a food. It is a conditioner—the best ever so'd. If there was any better we would be making it. It enables your stock to eat the natural food they should eat and get the most benefit from it. Here is the advice of all thorough veterinary doctors—"Feed your stock on food of your own growing"—not pamper them with soft predigested mush so that after a time they cannot digest good, wholesome feed. Feed the good food grown on your own farm—hay, oats, bran, chop, etc. You know what these things cost you and what they will do.

ROYAL PURPLE is an aid to these natural foods and if you use it as directed, we can guarantee better results than if you feed any of the concoctions offered on the market as "prepared foods."

Try It On a Poor-Conditioned Animal

If there is a run-down, poorly nourished beast on your farm, see what **ROYAL PURPLE SPECIFIC** will do for it. A 50-cent package lasts a cow or horse 70 days. The cost is so trifling that no farmer in Canada has any excuse for having out-of-

health stock around his place. Try it on the poorest-conditioned animal you have and we know you'll be surprised at the result of a short treatment. Cattle and hogs fatten up a month earlier than without it, which means you save a month's feed and a month's labor. You can bring six pigs to the pink of condition at the cost of \$1.50. Steers treated in the same way cost no more than \$1.00 each to put in prime state for market. **ROYAL PURPLE SPECIFIC** fattens and keeps well horses, mares, colts, cows, calves, steers, hogs. Sold in packages, 50c, and air-tight tins, \$1.50.

Try ROYAL PURPLE POULTRY SPECIFIC on Your Hens

Do you know that **ROYAL PURPLE POULTRY SPECIFIC** makes hens lay in winter as well as in summer, and keeps them free from disease? It does, and helps them over the moult, fattens and keeps them in vigorous health. A 50c package lasts 25 hens over 70 days. Shouldn't you try it? We have hundreds of recommendations from all parts of the country. If **ROYAL PURPLE** does not give you better results than anything you ever used, or give you satisfaction, we will refund your money. No matter what your opinion of other preparations, we want you to give **ROYAL PURPLE POULTRY SPECIFIC** a chance to show what it can do for your poultry—and a 50c package will show you some fine results. Sold in 25c and 50c packages and \$1.50 air-tight tins.

WE ALSO SELL

Royal Purple Cough Specific for cough and distemper. (Will cure any ordinary cough in four days). 50c, by mail 60c.
Royal Purple Sweet Liniment for lameness, rheumatism, sprained tendons, etc. 50c, by mail 60c.
Royal Purple Worm Specific for animals; removes the worms, also their larvae. 25c, by mail 30c.
Royal Purple Disinfectant, in 25c, 50c and \$1.00 tins.

Royal Purple Lice Killer for poultry and animals. 25c and 50c, by mail 30c and 60c.
Royal Purple Gall Cure for scratches, harness scalds, open sores, etc. 25c and 50c, by mail 30c and 60c.
Royal Purple Roup Specific for roup, pip, diphtheria, typhoid fever, canker, white diarrhoea, swelled head, etc., in poultry. 25c, by mail 30c.

Free TO STOCK AND POULTRY RAISERS

We will mail for the asking our new revised 30-page book on common ailments of stock and poultry. Tells how to feed light and heavy horses, colts, mares, cows, calves, steers, hogs; also how to feed and keep poultry so that they lay winter and summer. Cover lithographed in six colors, showing farm utility birds in their natural colors. This is a book that should be in every farmer's possession. IT'S FREE. Write for your copy today.

W. A. Jenkins Mfg. Co. London, Canada

Shorthorns & Clydesdales

We have seven yearling bulls and seven bull calves from 7 to 12 months. All reds and roans, and of choice breeding. We have some extra good imported mares, for sale also some foals. If interested write for catalogue of their breeding.

SHORTHORNS

"A FLENTY." I have a wide range for selection in Shorthorn bulls and heifers, in pure Scotch or Scotch topped, beef bred and beef type. Dairy bred and dairy type; make a point to visit my herd at Markdale, Ontario.

T. L. MERCER, MARKDALE, ONTARIO

100 SHORTHORNS IN OUR HERD 100

Our 1913 crop of 22 bulls are all sold, we have 20 extra bull calves coming on for the fall trade. For Sale—25 heifers and young cows; these old enough are bred to Right Sort (imp.), or Raphael (imp.), both prize winners at Toronto last fall.

MITCHELL BROS. Farm 1/4 mile from Burlington Junction. BURLINGTON, ONT.

Shorthorns

I have ten young Shorthorn bulls, some fit for service now. Part of them are bred, and made so that they are fit to head the best herds in any country. Some of them are of the thick, straight, good feeding kind, that will produce money-making cattle; some of them are bred from the best-milking Shorthorns, and the prices of all are moderate. I have Shropshire and Cotswold rams and ewes of all valuable ages. Write for what you want. I can suit you in quality and in price. Ask for Bull Catalogue.

ROBERT MILLER, STOUFFVILLE, ONT.

Shorthorn Bulls, Cows & Heifers

For Sale.—A number of them from imported Sire and Dam and from good milking families. Prices reasonable. Write or call on

H. J. DAVIS, WOODSTOCK, ONT.

Salem Shorthorns—As ever in the front rank. Special offering: Ten young bulls, quality and price to suit any buyer.

J. A. WATT, Elora, Ont.

Glenallan Shorthorns

We have some of the best young bulls we ever bred, Scotch or Booth breeding, low thick mellow fellows of high quality also some heifers.

Glenallan Farm, Allandale, Ontario. R. MOORE, Manager.
