

FREE TO MEN UNTIL CURED.

The effect of Electricity upon the weak, debilitated man is the same as rain upon the parched field in summer. He may be debilitated from varicocele, losses, impotency; may have confusion of ideas, fear to act and decide; gloomy forebodings, timid and fretful; avoid friends and company; without confidence in himself to face the slightest responsibility, and let him properly apply Electricity for but a few hours and all these symptoms vanish. A few weeks to a couple of months' use of this treatment banish them forever, and make strong, confident, manly men out of the puniest weaklings. For nearly forty years I have treated and restored weak men through my world-famed invention, and am still doing so with greater success than ever. In fact, I do not expect to fail in any case of this kind, and therefore, as most men are more or less sceptical, I will continue to give my Herculex

Dr. Sanden Electric Belt Free Until Cured.

Not one cent is to be paid me in advance or on deposit. Call or write and get the belt, and use, say, for sixty days, and if cured pay me price of belt only—most

DR. C. F. SANDEN, 140 Yonge Street, Toronto, Ont.
Office Hours: 9 to 6. Saturdays until 9 p.m. (516) Largest and Oldest Electric Belt Establishment in the World.

cases low as \$4; if not cured return the belt and the deal is ended. But I know what the belt will do, and will take the risk of my pay when you are cured. I also give my belts on same terms in Rheumatism, Lamé Back, Stomach, Kidney and Liver Complaints, etc.

As the originator and founder of the electric belt system of treatment, my forty years' success is the envy of many, and my belts of course are imitated. (What good thing is not?) But my great knowledge to advise and direct my patients is mine alone, and free to all who use my belt until cure is complete.

What would you not give to have your old vim back again? What would you not sacrifice to feel as you did a few years ago; to have the same snap and energy; the same gladness, joyous, light-hearted spirit and the physical strength you used to have? You know you are not the same man, and you know you would like to be. You might as well be. It's easy. I am making men out of wrecks every day, and the above offer must convince you what I feel I can do for you.

Call or send to-day for my belt; or, if you want to look further into the matter, I have the best two little books ever written upon Electricity and its medical uses, and send them free, sealed, upon request.

We Offer \$1,000

For a Disease That Liquozone Can't Kill.

On every bottle of Liquozone we offer \$1,000 for a disease germ that it cannot kill. We do this to assure you that Liquozone does kill germs.

And it is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact which gives Liquozone its worth to humanity; a worth so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights. And we have spent over one million dollars, in one year, to buy the first bottle and give it free to each sick one who would try it.

Acts Like Oxygen.

Liquozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is an absolutely certain germicide. The reason is that germs are vegetables;

and Liquozone—like an excess of oxygen—is deadly to vegetal matter.

Liquozone goes into the stomach, into the bowels and into the blood, to go wherever the blood goes. No germ can escape it and none can resist it. The results are inevitable, for a germ disease must end when the germs are killed. Then Liquozone, acting as a wonderful tonic, quickly restores a condition of perfect health. Diseases which have resisted medicine for years yield at once to Liquozone, and it cures diseases which medicine never cures. Half the people you meet—wherever you are—can tell you of cures that were made by it.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

|--------------------|---------------------|
| Asthma | Hay Fever—Influenza |
| Abscess—Anamia | Kidney Diseases |
| Bronchitis | La Grippe |
| Blood Poison | Leucorrhoea |
| Bright's Disease | Liver Troubles |
| Bowel Troubles | Malaria—Neuralgia |
| Coughs—Colds | Many Heart Troubles |
| Consumption | Plas—Pneumonia |
| Colic—Croup | Pleurisy—Quinsy |
| Constipation | Rheumatism |
| Catarth—Cancer | Scrofula—Syphilis |
| Dysentery—Diarrhea | Skin Diseases |
| Dandruff—Dropsy | Stomach Troubles |

Dyspepsia
Eczema—Erysipelas
Fevers—Gall Stones
Goitre—Gout
Gonorrhoea—Gleet

Throat Troubles
Tuberculosis
Tumors—Ulcers
Varicocele
Women's Diseases

All diseases that begin with fever—all inflammation—all catarrh—all contagious diseases—all the results of impure or poisoned blood.

In nervous debility Liquozone acts as a vitalizer, accomplishing what no drugs can do.

50c. Bottle Free.

If you need Liquozone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquozone is, and what it can do. In justice to yourself, please accept it to-day, for it places you under no obligation whatever.

Liquozone costs 50c. and \$1.

CUT OUT THIS COUPON.

For this offer may not appear again. Fill out the blanks and mail it to The Liquozone Company, 458-464 Wabash Ave., Chicago.

My disease is.....
I have never tried Liquozone, but if you will supply me a 50c. bottle free I will take it.

Any physician or hospital not yet using Liquozone will be gladly supplied for a test.

GOSSIP.

(Continued from page 169.)

with which farmers with new land awaiting the plough, road carriers, contractors and others made their purchases regardless of quality, that brought about the ruin of the industry. Here we have the evil of haphazard breeding, instead of trying to produce uniformity of results. "Crespin" (Australasian Pastoralists' Review, February 15th, 1900) remarks:—"How often do we see stallions' cards describing the horse as suitable for producing carriage horses, hacks and remounts, while he is merely a rather well-made mongrel?" The use of such animals is one of the best ways to spoil any breed.

In the exclusive breeding of strains which have their respective stud books, like thoroughbreds, Shires, Suffolks and Hackneys, the breeder's task is much more simple than in the production of a non-registered strain, like army horses and hunters. Here our only safety with horses intended for saddle work is to keep them as free as possible from harness blood, which will infallibly introduce faults of conformation that no resulting increase in size or substance will counterbalance. The horse that does his work in the shafts, whether Hackney, Cleveland, Yorkshire Coach horse, chestnut Suffolk, Clydesdale, Shire, Ardennes, Percheron or Orloff trotter, requires comparatively massive shoulders to fill the collar and draw the weight behind him. This preponderance of weight on the forelegs will render the back tendons and suspensory ligaments of the forelegs of a saddle horse which is required to gallop, jump and stay, unable to stand this kind of work, even if the animal is able to occasionally accomplish it. For mere show purposes the cross may have its merits. For instance, I have sold to Russian officers half-bred Hackneys which delighted these gentlemen immensely by the way they picked up their feet, bent their knees and cocked their docks, and walked along as if the whole world belonged to them; but these horses would not have done either in the hunting field or on the South African veldt, for their shoulders and necks were too heavy. As I have, unfortunately, no practical knowledge of American trotters, I must refrain from discussing them, beyond saying that the good results obtained by crossing them and other harness strains with thoroughbred blood seems to point out that a saddle cross, judiciously applied, is useful in the production of light harness horses.

Strength and gentleness. Men have cultivated the one and women the other. Do thou cultivate them both.

Lambs sold in Chicago last week for \$7.75 per 100 lbs. This surely promises well for a good demand for breeding sheep in the near future.

SHORTAGE OF SHEEP IN ENGLAND.

We are sorely in need of a big crop of lambs to reinforce our much depleted flocks of sheep. The totals of sheep in Great Britain have been continuously declining year by year since 1899. In that year the number was returned at 27,238,754; by this year it had fallen to 25,207,174.—[Meat Trades' Journal.]

NEW SPECIES OF SHEEP.

Dr. J. A. Allen describes a new species of wild sheep from Northwestern Kamchatka in the Bulletin of the United States National Museum. The only other wild sheep of Kamchatka known to science is closely related to the American bighorn. The new sheep belongs to the Argali group.

ANOTHER SHORTHORN SALE IN SIGHT.

If there's luck in odd numbers, the stock sales being advertised this winter should score successfully. The figures 49 have represented the number of animals included in several sales lately, and now comes the announcement, in our advertising columns, that on Wednesday, Feb. 8th, Messrs. Fitzgerald Bros., of Mount St. Louis, Simcoe County, Ont., will sell at auction 49 head of Shorthorn cattle, including the stock bull, Imported Diamond Jubilee; also 20 Cotswold ewes and a number of draft horses, further particulars of which may be looked for in later issues of the "Farmer's Advocate."

"Fundamentally the questions of love and confidence between parents and children underlie the whole social system—not only underlie, but are. Our civil life in the long run will rise or sink as the average family is a success or failure. All questions of social life will solve themselves if the children are brought up to be the highest they are capable of being, if our social and family relations are as they should be; if not, no material prosperity, no progress in literature, art, success in business or victory in war will make up for it to the nation."—Theodore Roosevelt.
