

It Wins in Clover

This picture from an actual photo shows Louden Balance Grapple Fork lifting a third of a ton of dry clover hay.

There isn't another fork in the world in its class. It's the only one that can handle clover, alfalfa and threshed straw as successfully as timothy. No dribbling or scattering, with long stuff or short, large load or small.

Louden's BALANCE GRAPPLE Fork

has a patented arch support that gives perfect balance. It takes hold or releases its load at the slightest touch. Simple in design, made of steel with heavy malleable connections. Will lift half a ton without bend or break.

Question Drawer

This department of The Guide is open to all readers, and it is hoped that they will take advantage of it. All questions relating to the problems of the farmer of Western Canada will be answered in this department. Write questions on one side of the paper only, and send only one question on one sheet of paper. Join in making this department of the greatest value.

MUST HAVE NAMES

Questions sent in, with, the name of the sender attached will not be answered. The name will not be used if not desired, but it must be sent in as a guarantee of good faith.

ALTERATION OF NOTE

"Soaked."—The alteration of a note by erasing 8 per cent. and writing in 10 per cent. would make the note void, but if you afterwards paid the note, knowing of the alteration, you would then be stopped from setting up that it was altered. You had better let the matter drop.

RAILROAD CROSSING FARM

Louis Arnold and Peter Cameron:—To secure full information with regard to the taking of lands by railway companies and the payment of compensation therefor, we would advise you to obtain a copy of the Dominion Railway Act, which you can secure from the Department of Railways, Ottawa. What you require will be found in sections 172 onwards.

You could probably get a more satisfactory settlement from the railway company if all the farmers through whose land the line runs in your district could appoint some man well posted in the matter and on whom you could depend, to take care of your interests. You are entitled to the value of the land taken and crop destroyed and also compensation for all other damage to the value of your property through the building of the railroad, and if you cannot agree with the company as to the amount you should receive you must arbitrate in accordance with the provisions of the Railway Act.

THRESHING LIEN

Ques.—I threshed for a neighbor and it is now thirty days since I finished and have not received anything yet. I have reason to believe that there is a lien on his grain, but the elevators are closed now and the party cannot sell it. The lien is for machinery. Does my threshing bill come first? What is the law for collecting threshing bills in Saskatchewan.

SUBSCRIBER.

Ans.—The party threshing has a lien in Saskatchewan which attaches for sixty days from the time of the completion of the threshing. The lien may be enforced by selling a sufficient amount of the grain to pay the threshing bill plus 1½ cents per bushel for hauling.

HOMESTEAD EXEMPT

M. W. A.—Can make a will in the usual form and leave property to his family. Judgments in Manitoba are good for ten years unless sued upon again, and must be registered every two years. We presume the Alberta statutes are the same. If enquirer continues to reside upon his homestead it will be exempt from seizure, but not if he leaves it.

THRESHER LIABLE

Ques.—A threshing outfit set on my place to thresh four stacks of wheat, all being together, and when they had nearly finished the first setting a spark from the engine set fire to the other setting and burned it. Who is responsible, they having no sparker on their engine?

O. HOLMBURG.

Ans.—The owners of the threshing outfit would be liable on the facts stated.

INDORSER OF NOTE

Ques.—A. obtains note from B. A. trades note to C. and signs his name on back of note. Can C. hold A. for note, B. failing to pay?—JAMES HAUGHTON.

Ans.—A. is indorser and is liable if the note is protested.

W. W. Bryan, Taber, Alta.—We are publishing a special co-operative number of The Guide at the end of March, and this will contain full information with regard to the establishing of co-operative societies.

Another Great Bargain

The Weekly Farmers' Tribune

Without intelligent direction and an honest press, you cannot succeed. The Farmers' Weekly Tribune has fought your battles for a quarter of a century. Have you rewarded it with your patronage? In this crisis, when efforts are being made to destroy the Farmers' Movement to protect themselves, the only thing to do is to put our shoulders together and struggle for the common good. An arrangement has been made with The Grain Growers' Guide, your official organ, by which you can secure The Tribune and The Guide for twelve months for \$1.25. The Tribune is a splendid newspaper in addition to being an advocate of the Farmers' Cause.

FREE PRIZES

For the instruction, interest and amusement of the boys, girls and adults in the country during the long winter evenings, The Tribune is inaugurating a great book lovers' contest, which all may enter. Send a card to The Tribune office for particulars.

Make Plowing The Easiest Work Instead of the Hardest

PLOWING has always been hard and the most monotonous work of farming. But now it is different. The Traction Engine has not only made plowing easy but it has greatly reduced the cost—has enabled men to do more, in less time.

You ought to know the facts and figures—what traction-power plowing means to you—how it adds to your profits. Why not investigate? We will gladly send you our catalogue and any special information you may desire.

IHC Gasoline and Tractors

are not new. They have proved their reliability, strength, and economy in official contests, as well as in every-day tests on thousands of farms.

Not alone in plowing, but in seeding, disking, harrowing and hauling, in belt-power and draw-bar work of all kinds, IHC tractors have proved their value and superiority.

The IHC local dealer will tell you about IHC tractor victories in Winnipeg and in Europe. He will point out the many IHC tractor features and advantages in design, materials, and construction; and he will tell you about the complete IHC line, which includes gasoline and kerosene tractors, 12, 15, 20, 25, and 45-H. P. In several styles—and horizontal and vertical engines, stationary or mounted on skids or trucks, air-cooled or water-cooled, 1 to 50-H. P. If you prefer, write nearest branch house.
