HAYWOOD TRIAL DRAGGING ALONG Defense Makes Charges Against McParland They Claim the Detective Attempted to Manufacture Testimony Against Hauwood—He Denies BOISE, Idaho, July 9 .- The defense in the Steunenberg murder case today charged that Detective James McParland had been guilty of an attempt to manufacture testimony against William D. Haywood, but was unsuccesses ful in getting the basis and details of the charge before the court and jury. Alva A. Swain, Denver corresponder f the Puebla Chieftain. was called to the stand and questioned as to a conersation he had with Detective Mcarland in Denver last fall. Senator Borah for the state objected to the conersation on the ground that no founation had been laid for it. Clarence Darrow for the defense who was examining Swain, explained that the testimony was offered for the purpose of showing that there existed a conspiracy between the mine owners and the Pinkertons to secure a conviction and execution of the prisoner. "McParland approached this witness inan attempt to manufacture testimony," he declared, "and we have a right to show it. Judge Wood said there was nothing in the evidence that would furnish a proper foundation for the introduction of such testimony and sus-tained the state's objection. The de-Big ense took an exception and said they yould later make another attempt to secure the admission of Swain's testimony. Counsel for the defense are evidently counting on reaching the matter through McParland himself, but it is quite probable that the state will ot call McParland as a witness. It is claimed by the defense that Mc-Parland told Swain that he had a letter from Harry Orchard saying that when Haywood paid him for the Vindicator job he took him to one of the Denver banks to draw the money and that when they came out of the bank gine of the Central Vermont which Swain was standing at the door and left Montreal yesterday morning blew saw them. It is said that Swain told McParland that he could not remember the incident, whereupon McParland seriously injured that they will be impressed him with the importance of maimed for life. It also smashed a it as evidence and significantly urged number of loaded cers and tore up the him to recall it and become a witness in the case.

ELEVEN

Detective McParland denies that he ever suggested anything improper to Swain. He says he got the letter as. descriged by Orchard, who wrote that Swain was at the door of the bank on the day in question; there being a run on the bank, and that he believed Swain might remember seeing him. He says that when he went to see Swain the latter said that he could not tell whether he remembered the incident o

PPREHENSION IN REGARD TO CAUSE OF ACCIDENT ON C. P. R.

(C. P. R. Press.)

RONTO, Ont., July 8 .- With reto the accident on the C. P. R. or wenty-minth of April last, by A. M. Villeneuve of that comlost his life, it appears that the vations of Mr. Justice Riddell in idgment that the bridge had been ed to decay were made under a chension. The matter came the court at Ottawa merely by of a motion to apportion amongst mily of the deceased employe the nt of compensation voluntarily by the company, and no evidence taken with regard to the cause e accident. Under these circum: es counsel for the C. P. R. stated the supposed liability was admitn the ground of a "defect in the ion of the ways, works or premusing the technical words used workman's compensation for inact, but there was no admission the bridge had in the ordinary fallen into decay or become de e. The bridge in question was a wooden trestle bridge fifty-eight n length, situated in a lonely disorth of Lake Superior, and it apto have been burned just prior e passage of the train on which eased was a brakeman. The train which crossed the bridge on ay of the accident passed over at five p. m., the train on which uve was employed reaching this t at about 10.50, or six hours later, the bridge was burned in the inthe fire not having been noticed ny of the employes. The accident irs not to have been due to negon the part of the company or vants, the bridge having been cted by the company's engineers he third of April, and by the secmen on the day of the accident, ound to be in good condition. On ttention of Mr. Justice Riddell bealled to the misapprehension unwhich he proceeded in giving judghe immediately communicated the attorney general, advising of the explanations made by counfor the C. P. R.
