**MARKET CANNOT BE MOVED
TEXT OF A JUDGMENT IN 1858**

The Market Question Was Apparently a Live Issue in Brantford Over Half Century Ago.

Considerable interest will be attached to the following dedication injunction which was issued in 1858 by the Chancellor of the day on the Brantford market question. The following is the text of the document in full:

1858—The Attorney-General v. the Municipality of the Town of Brantford

Dedication Injunction

November 9—In the year 1830, when the site of the Town of Brantford was laid out into building lots a part containing nearly two acres was reserved for a public market square. In 1850 the Municipal Council of Brantford executed building leases of portions thereof, with covenants for renewal. Upon an information filed, the court restrained the renewal of such leases, or the granting of any new leases, or the Attorney-General assenting to the leases already made continuing for their respective terms.

This was an information by the Attorney-General of Upper Canada, against the Municipality of the Town of Brantford, George Watt, William Hunter, and several other persons, lessees of the municipality of certain portions of what was called the west market square in Brantford, setting forth that in 1830, government had caused a survey of the site of the town to be made and laid off into lots which was accordingly done, and a portion thereof containing one acre and six-tenths of an acre, was set apart for a public market square, which had been used as such by the inhabitants, and was kept free from buildings, other than those for accommodation until the year 1850, when the municipality without any authority from the government, or the inhabitants, leased certain portions of this square to the other defendants, or those through whom they claimed, upon building leases, and that buildings had been erected thereon in compliance with such terms. The information charged that the buildings so erected were a public nuisance, and that the municipality should be restrained from continuing the same—from granting any new leases, or executing renewal of those already made.

The answers set up that the buildings were not prejudicial to the town, that sufficient of the block reserved for the market square remained for the purposes of a market; that the leases had been leased by auction, which was publicly advertised, and that no act had been done to prevent such auction being carried out, and the leases perfected, and that the information, as well as the Attorney-General had acquiesced in the erection of the buildings complained of, and were not entitled to any relief in respect thereof.

The cause was brought on by way of motion for decree, by Mr. Gwynne, O.C., for plaintiff.

Mr. Crickmore for the municipality. Mr. Roaf for the other defendants. The judgment of the court was delivered as follows:

THE CHANCELLOR—I have read all the affidavits laid before me, and, as might have been anticipated from the nature of the case, they are in direct conflict. Some ten gentlemen swear that the buildings complained of are highly injurious, and a precisely similar number swear that they are extremely beneficial to the public; so that had it been necessary to determine the point, its solution must have been sought by some mode of the proceeding better calculated to elicit the truth than the production of affidavits evidence. But, fortunately, it is unnecessary to determine the question. The property in question was dedicated to the public as a market place as far back as the year 1830, and it was used by the inhabitants of Brantford for that purpose for more than twenty years before the erection of the buildings complained of. Under such circumstances the municipality of the town of Brantford had no authority to deal with this as ordinary property of the corporation. They had not the power to lease it for building purposes, thereby diverting it from the use to which it had been dedicated and to which the inhabitants of the town of Brantford had a right to insist that it should be applied. We acted upon that principle in the Municipality of the Town of Guelph v. The Canada Company (a), and in the Attorney-General v. The Inhabitants of the Town of Goderich, (b), although in these cases the fact of dedication was much controverted. But here the fact is admitted, and I have no doubt therefore, as to the right of the Attorney-General to a decree.

It was argued on behalf of the defendants, that the public had so far acquiesced in these leases, and the expenditure made on the faith of these leases, that a decree directing their cancellation would be unjust. But the Attorney-General intimated that he had no desire to interfere with the present leases, and the decree will, therefore, be confined, by his consent, to an injunction restraining the municipality of the town of Brantford from granting any further leases upon the property known as the west market square, and from renewing such as have been already granted. And I consider him clearly entitled to that decree with costs.

Got Rid of Bronchitis

The worst feature of bronchitis is the tendency to return year after year until the system is worn out and gives away to consumption, or other ravaging disease.

Dr. Chase's Syrup of Linseed and Turpentine owes much of its great popularity to the fact that it positively cures bronchitis, and this is about as severe a test as can be made of a medicine of this kind.

Mr. W. H. Walker, Calmar, Alta., writes: "I am pleased to say that Dr. Chase's Syrup of Linseed and Turpentine has done much good to myself, wife and children. My eldest girl 7 years, had bronchitis, and the doctor who attended her did not seem to do much good. We got Dr. Chase's Syrup of Linseed and Turpentine for her and she soon became well. We always keep this medicine in the house now ready for use, and find that it soon cures coughs and colds."

In fighting diseases of the throat and lungs half the battle is in having Dr. Chase's Syrup of Linseed and Turpentine at hand to be used promptly. This is why many people prefer to buy the large family size bottle.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh), that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Doctor Pierce's Golden Medical Discovery

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this pure glyceric extract and alternative of the greatest efficiency and without the use of a particle of alcohol.

Just the sort of remedy you need to make rich, red blood, and cure that lassitude and feeling of nerve exhaustion, Dr. Pierce's Golden Medical Discovery bears the stamp of PUNY APPROVAL and has sold more largely in the past forty years than any other blood purifier and stomach tonic.

"Some time ago I got out of health—my stomach seemed to be the root of the trouble," writes Mrs. ERNA WILLIAMS, of Belleville, Kan. "I consulted a doctor with all the doctors at home as well as with other specialists on stomach and digestive organs. None seemed to do me any good. Most of the medicines did me harm. Finally, I wrote to Dr. Pierce, Belleville, Mo., who replied, stating that I had live Golden Medical Discovery and 'Pleasant Pills'."

"The 'Discovery' and 'Pleasant Pills' have put me on my feet again— I cannot be just what I needed. I could not have recovered without them."

Dr. Pierce's Pleasant Pills are for Liver Ills.

"Hydro Electric" installation will be commenced as soon as snow is off the ground," was announced made by England at his office this morning.

"Brantford will have a number of lights for residential streets," Mr. Ireland, an endeavor made to secure something ordinary which has not elsewhere. In fact it is to make Brantford one of the most brightly lighted cities in the province, because experience already in other places is being brought here to excellent effect. Prices are now being secured, and in this connection contractors and supply firms afforded every opportunity.

It is expected that all the head material will be on hand by April 1, and a considerable number of men will be employed throughout the summer months.
