**Kaiser Can Keep Investments on Pacific Coast**  
LONDON, Oct. 10.—Correspondence of the Associated Press—Emperor William is popularly supposed to have large investments in the timber and mineral lands of British Columbia, and it has been rumored in London that the British Government was considering the confiscation of the Emperor's property in Canada.

It can be stated on the authority of a Foreign Office official that Government has no intention of confiscating the property of alien enemies located within the confines of the British Empire.

Though Alva von Alvensleben, of Vancouver, B. C., a number of prominent Germans are said to have bought large tracts of British Columbia lands, particularly mineral and timber lands. The German Emperor is supposed to be heavily interested with Mr. Von Alvensleben in Western Canada properties. However, the British Government has not even made an investigation of the titles of the properties in question, and disclaims any curiosity as to the Emperor's reported investments.

Even after the reports that the German Government has taken over property of British in Germany, and that cigarette factories in Batavia, Dresden and Baden-Baden were seized by the German Government, because a majority of the stock of the companies controlling the factories belonged to Englishmen, there was no disposition on the part of the British Government to change its attitude towards property in English territory owned by Germans.
