BRITISH AVIATOR WINGS TWO HUN AIRMEN AS THE SOLDIERS CHEER

Forces Ooe German Down a Captive, and Within a Few Hours Routs Second Foe—Second HidUnder His Machine

Josph W. Grigg, a staff correspondent of the New York World with the British armies in the field, writes; From one of Britain's most brilliant airmen I obtained to-day the thrilling details of two air fights that occurred in the last few days. He is a young Irishman of medium height, with a ready smile and long list of victories to his credit. He comfortably smoked his pipe as he told of these two encounters, which were both witnessed by thousands of soldiers. In both instances he got his enemy as the latter made a last desperate attempt to get away when within 1,000 feet of earth.

"A Hun plane was reported coming over the lines, and I immediately went up," he said. "The Germans never come over our lines to fight, and when they come for observation they go very high and return at full speed as soon as we go after them. This fellow was evidently ordered to attack a certain one of our observation balloons, and he came down quite low. While he was doing this I ascended some distance away. He didn't notice me until I had got between him and his lines and at a very advantageous height. Then he suddenly wheeled and started for his lines.

Shot Off Own Tail

"I made a long steep dive for him and he came so close I could see him looking over his shoulder at me. He manoeuvred to bring his gun into action, but I dived under the tail of his machine. In his efforts to hit me he completely shot his tail away and then his machine made a headlong dive to earth, where hundreds of soldiers were wildly cheering me on. I could plainly hear them as could the Hun pilot. I hadn't hit him in any vital spot and his fall did no fatal injury. I went around to see him in the hospital next day."

The second fight, which happened within a few hours after the first was with a two-seater plane. The noted airman, describing this fight, said;

"I was well up in the clouds when I saw a Boche machine over our lines, but near enough to his own, as he must have thought to make a getaway if necessary. I mounted high and kept well behind the clouds until I got a position where I could again dive and cut off his retreat and make him come down in our lines. He saw me as I began to dive for him, and instantly turned for his lines and dived to make a quicker descent. But I closed in on him. He couldn't get over his lines. Again there was a great crowd of soldiers below watching the chase. I got so close I could see him look at me.

Hid under His Machine

"I didn't want to hit him if I could make him land without doing so. I gave him every chance to land voluntarily. But I must say he tried to get away even after he had gone down to about 1,000 feet and knew it was all over with him. Then I had to let him have a burst from my gun. His pilot was killed and his machine fell into our lines. I saw the soldiers cluster around it, and was told afterwards that when the German observer, who was uninjured, had disentangled himself and saw them he hid under his machine, which had turned over. He finally came out and was made a prisoner."

Many of the recent air fights have been forced upon the Germans by the British at points eight or more miles inside the German lines. The Germans have painted some of their battleplanes scarlet in the belief that the sight of one of them dashing toward the British would have a nerve racking effect. Other machines have insignias upon them imitating the marks on British planes. The British airmen are greatly interested in the huge air program in America, and an officer in charge of one of the principal squadrons which has done such brilliant work said; "You Americans should make a wonderful record in this war."

BUY SHEEP IN ONTARIO.

By Courier Leased Wire

Winnipeg, Sept. 24.—The Manitoba Government will spend $125,000 for the purchase of sheep in Ontario at once and will sell these at cost to the farmers of the Province. This is the announcement made by Hon. Val Winkler, minister of agriculture. The minister was notified by the Department of Hon. W. J. Hanna, that large quantities of sheep were being sold for slaughter on the Ontario market, and that it might be wise for Manitoba to get a number of sheep to stock up the farms of the province.

Rippling Rhymes

From mountain and from sea resort the tourists are returning, and they have freckles by the quart, and sunburn fiercely burning. No doubt you gamboled with the rest, where sylvan torrent gushes, where little robins build their nests, and sparrows chase the thrushes. No doubt you're full of thrilling yarns, that you desire to tell us, of ocean waves or mountain tarns—which tales will make us jealous. But have you brought back nothing more than rather idle stories of basking by the briny's shore, or mid the forest's glories? Have you brought back a lot of pep for your employer's service, or have you still a lagging step, and are you stale and nervous? Have you brought back new vim and zeal, from all your rural scouting? Unless you have, I surely feel, you've had a useless outing. Have you brought back a glad desire to quit your lazy nodding, and labor like a house afire, and set the boss applauding? If you still hunt the easy chair in which we've oft surveyed you, your tan won't get you anywhere, your freckles will not aid you.

WHEAT YIELD GOOD THROUGH ALBERTA

Harvesting Practically Over and Threshing is Now Going on.

Edmonton, Sept. 25.—The reports received by the Department of Agriculture Saturday state that harvest operations are practically finished and threshing has become quite general throughout the province. Reports announce good yields generally with high grading. In several districts 45 and 50 bushels of wheat, and oats at the 100 bushels per acre mark have been received. Indications are that the average yield will fully justify previous optimistic reports. Very encouraging are the reports from the Peace River and Grand Prairie districts. The yield is fully up to expectations with a high grade.
