THE SITUATION

to date over fifteen thousand prisoners have been taken. Meanwhile reports show that Austria would like peace just as quickly as it can be obtained. All of the conditions have been accepted in full, as laid down by President Wilson, and the latter has been asked to make an immediate move in the matter "without awaiting the result of other negot! ations." The circumstance indicates that the dual kingdom is now exceedingly anxious to get out from under, but it is not yet clear that

complete surrender is contemplated The French are successfully mainand the Serre, and have taken many favored half of the American conpositions of importance.

In Mesopotamia, British troops continue to advance, and they have now taken the important town of Kerluk, 155 miles north of Bagdad.

Field Marshal Haig reports, after overcoming stiff opposition, the line south of Valenciennes has been still further advanced.

On the heights of the Meuse, American troops have for the sixth time retaken the Bois de Belleu wood.

THE VISITATION OF THE 'FLU. This community in common with countless others the world over, has suffered severely from the Spanish influenza epidemic, but it is gratifying to know that all the indications now point to a well defined curtailment of the menace. The betterment in the condition of affairs has been

brought about by a spirit of hearty co-operation. This has been manifested in a variety of ways reaching its apex in the splendid manner in which so many have volunteered their services in connection with the Emergency Hospital and from that entire population. Hats off to the radiating in countless directions. whole outfit, The community feeling has been strongly developed and we should all be the better for this merging of self into the general weal. The mani-

festation is part and parcel of the same spirit which among the Allies himself trying to negotiate more has brought all classes together holes than on any course yet insame spirit which among the Allies shoulder to shoulder in face of a vented. mon and menacing foe and which Major-General Fotheringham, Diwhen hostilities have ceased will broaden the conduct and the outlook

acted with suitable tolerance. Store keepers have suffered from the prevailing lack of help, but they have certainly met the emergency in excellent style and are all taking the necessary precautions in the matter of fumigation and shorter hours so that their employes will not be subjected to an undue strain. The medical men, nurses, druggists and all others upon whom a very heavy burden has fallen, have been unsparing in their response and with patient effort continued the exceedingly try ing experience should ere long be come a thing of the past. When this immediate task has been completed there should be a vigorous clean-up of the entire city with health precautions placed at top notch efficiency

and kept there. JUST REMEMBER. 1. Had it not been for the success

BRITISH CASUALTIES.

By Courier Leased Wire.

London, Oct. 28.—British casualties reported for the week ending to-day numbered 32,249, compared 22,249, compared 22,249. to-day humbered 32,245, compared to 37:150 for the previous week. They are divided as follows:

Killed or died of wounds—Officers 436; men 5,307.

Wounded or missing—Officers, 1,144; men 25,365.

ve Hundred of Toronto's livest business men, all members of the organization, were thrilled on Thursday night by stirring addresses of the chief executives for the task of raising \$80,000,000 in the city, which is almost one-sixth of Canada's objective.

To The Editor of The Courier

The Editor Brantford Courier.

Dear Sir,— On the eve of the Victory Loan I think that everyone, whether rich or poor, should make up his mind to do his share towards making it a success. We, who have been privi-leged to stay at home, well-fed, warm and comfortable, secure and safe, should feel bound to offer some help towards winning the war, and every true Canadian citizen, man or wo-man, can and should lend to the

force of duty is the attractiveness of the security itself. In the first place it yields nearly twice the interest on receives from a banking account and as to security—it is guaranteed by every bank and article of value in the country whether it belongs to an individual, a municipality, a prov-ince, or to the Dominion Govern-Then as to the ability of Canad

to carry out her obligations.

Some days ago I was looking over a pamphlet issued by the 'National City Company' of New York, and according to its figures, Germany's War Loans per capita to date amount to \$306; Great Britain's to \$297; Anstria's \$202; France's \$171; Australia's \$137; Hungary's \$107; the United States' \$97 and Canada's United States' \$97 and Canada' \$93. Indeed Holland's Mobilization Loans alone amount to over \$44 per capita. To be sure the burdens on all countries will be heavy, but In the kingdom of the blind the one-eyed man is King, and in this case canadians will at worst be the One eyed Man because our War Debt is considerably less than that of oth-ers and our resources incalculably

more per capita.

It will, I think, be reasonable to assume that Canada in the future will progress in population as the United States did from the time they that in twenty-five years Canada will possess a population of fifteen millions which would cut down our percapita debt by one-half. This is quite aside from the probability of our enemies paying our total war

of wheat could be bought for seven pence, a cow for ten shillings and a sheep for a shilling and six pence, while a laborer's wage was three pence per day. In 1500 the price of an ox was bwenty-two shillings that of a sheep two shillings and four pence, and the wage of a laborer, six pence a day. The products of our labor will continue to the hance in value in their relation to sold and I take if that the debt in

gold and I take it that the debt gold and I take it that the debt in twenty-five years will thus automatically reduce itself because it will take much less produce to pay its interest or to pay the debt itself. A laborer's wage has trebled in my time, when it reaches six dollars a day our debt will be reduced by half as this would be an infallfble sign that labor can produce things to double the value in currency that it now does.

Paper Controller About to Order Cutting Off of Unpaid Subscriptions

At a public hearing in Ottawa last week in connection with paper conservation, the Paper Controller for Canada intimated that regulations about to be issued would include one to the effect that:

"Publishers of daily newspapers must cease sending their wspapers to subscribers three months in arrears, unless subscriptions be definitely renewed and all arrears fully paid.

The reason for this regulation of the Paper Controller is that it is the practice of some publishers to send their newspapers until ofdered stopped, and this practice frequently results in loss to the publisher, besides a virtual waste of paper. It is to prevent paper waste that the new regulation has been decided on-

The manufacture of paper consumes labor, wood, coal, chem icals and transportation facilities, and every ton of paper saved means just so much more labor, raw materials, chemicals, fuel and transportation available for urgent war needs. For these reasons the Government insists that paper shall be saved, and proposes that only those who pay for their publications shall receive them.

Under these regulations The Courier will have no choice in the matter of dealing with subscriptions in arrears for over three months. You need The Courier, and we want to continue sending it t ou. So if your subscription is in arrears, please pay up at once to
