## NOON IN CHATHAM

What is Going On In Town When The Clock Strikes 12.

Noon, the dinner hour, the hour of comfort, of pleasure and relaxation—the one hour in the twenty-four which comes to men and women of every station with greater similarity than the hour of any other function in life.

Promptly as the clock strikes 12 in Chatham the shadows on anxious faces turn to lines of good will, and if villainous hot bread, pies, spices and other indigestibles were excluded there would be no such words as dyspepsia or indigestion in the dictionary.

But the contrary is true, and medical science has to step in and aid the man or woman who has been too busy to pay proper attention to health.

The greatest step forward in medical discovery is Mi-o-na, which cures all stomach and digestive troubles. In hundreds of the best homes in Chatham and adjoining towns the handy little tablets, so pleasant to take, yet effective, have given quick and lasting relief in indigestion and that disagreeable full feeling after eating.

Mi-o-na acts very gently. Much of its wonderful power over indigestion comes from its uniform but fascinating action. The required stimulating and strengthening is given to the important organs of digestion without producing the slightest weakness or reaction. A 50-cent box lasts for a couple of weeks and ward off a dozen attacks of indigestion. C. H. Guan & Co. give a guarantee, absolute and unqualified, with every box of Mi-o-na to refund the money if it does not give satisfaction.

Absence of occupation is not rest; a mind quite vacant is a mind distressed.

The optimist looks forward to tomorrow, the pessimist sighs for yesterday.
