## STILL GIVES ORCHARD LIE

Davis Under Cross-Examination Adheres to His Story.

Denies Taking Orchard to Meeting of Miners' Union-How Detectives Wrecked Train-Former President of Federation Gives Evidence-Judge Gives Important Ruling Which May Limit Defence.

Boise, June 28 .- In his cross-examnation yesterday morning Senator Borah took Davis over the period he spent in hiding in the Hercules mine after the Bunker Hill explosion. He said that Paulson and another man were there. He remembered two men calling at the mine while he was there. They were union men get-ting out of the country. Orchard said that he was at the Hercules at this time.

Davis was unable to recall Orchard as one of these men, nor could he remember when he first met Steve Adams at Cripple Creek. Davis said he was at home on the night of the Vindicator mine explosion and denied that he had called at Orchard's

nied that he had called at Orchard's house early and taken him to a union meeting.

At Cripple Creek.

Davis could not tell when he last saw Orchard prior to the explosion. Referring to his previous testimony that all was quiet at Cripple Creek before the troops were sent there, Davis admitted that he had heard of various murders there, but that some had occurred after the troops arrived.

arrived.

However, he insisted that he would stand on his previous statement regarding the condition of Cripple Creek before the troops came there.

Denver Convention. Davis said the mine owners continually sought to disrupt the Federation. He believed the two men killed at the Vindicator Mine were nonunonists. He denied telling a representative of the Vindicator Mine that if the property was opened with nonunion men there would be trouble. Davis also denied that there were unusual features of the Denver convention of the Federation, regarding which Orchard had testified that Haywood had told him that something wood had told him that something should "be pulled off."

Detective Wrecked Train.

W. W. Rush, formerly engineer of the Florence and Cripple Creek Railway, testified that Detectives Scott and Sterling staged and executed a train wreck on his line during a strike of miners.

train wreck on his line during a strike of miners.

"Ed." Boyos, formerly president of the Western Federation of Miners, and now one of the owners of the Hercules mine, testified that in 1893 James H. Hawley, now leading counsel against Haywood, but then retained as counsel for the miners, suggested to Boyoe the organisation of the Western Federation of Miners as an offset to the Mine Owners' Association.

as an offset to the Mine Owners' Association.

He denied the existence of an "inner circle," or of a conspiracy in the organization to do an illegal act. The main feature of the Boyce cross-examination was the production of a copy of a speech by him at the convention of the Federation at Salt Lake in 1898, in which he said that every union should have a rifle club and every member a rifle, so that the Federation could march 25,000 armed men in the ranks of labor.

A ruling by Judge Wood while Boyce was testifying may limit materially the showing by the defence about the existence of a counter conspiracy against Haywood and his associates.

Mr. Hawley for the state objected

spiracy against tay works sociates.

Mr Hawley for the state, objected to the general question as to the policy and practice of mine owners throughout the west of blacklisting union miners. In the argument that followed Clarence Darrow for the defence, claimed the same latitude to proving counter conspiracy that the state had in showing a conspiracy.

Mr. Hawley contended that the state had directly shown the existence of a conspiracy by Harry Orchard and by so doing had laid the foundation for all the evidence subsequently offered on the subject. He said that the defence was trying to prove a counter conspiracy by various isolated instances for none of which a proper foundation had been laid.

GREAT FIRE AT BERLIN.

Warehouses and Stables Destroyed—Explosion Narrowly Averted.
Berlin, June 28.—One of the largest fires Berlin has ever known destroyed the great warehouses and stables of the Berlin Omnibus Co. on Wednesday night. The whole fire brigade vainly fought the fiames for many hours, but the firemen saved the adjoining Royal victualling warehouse, where 5,000,000 litres of spirits were stored. These were threatened for a long time, causing fears of a terrific explosion.

Lindsay, June 28.—Dr. Wood, coroner of Lindsay, left for Kirkfield yesterday to investigate the facts of the finding of the body of Peter Graham, a bachelor, 60 years of age, in his brother's barn, in the Township of Eldon, suspended from a beam by a logging chain.

The coroner decided an inquest to be unnecessary, the conditions pointing to suicide while temporarily insane.

C. P. R. Guilty of Negligence Says Mr. Justice Riddell.

-Case Sent to the Attorney-General-Judge Declares Facts Disclose Crime-Crown May Take Action-Suit Arose Over Accident Resulting From Defective Bridge.

Resulting From Defective Bridge.

Toronto, June 28.—"The facts of this case disclose a crime," says Mr. Justice Riddell, of the suit brought by the widow of Andrew M. Villeneuve against the C.P.R.

Villeneuve was a trainman and was killed on April 29th at Fire Hill, Nipissing, north of Lake Superior. It was admitted by counsel that the engine upon which the unfortunate man was fell through a bridge owing to the fact that the bridge had been allowed to decay.

"The claims agent of the company investigated the facts and found that the company had no defence," says Judge Riddell, "to an action at the instance of the widow and step-children of the deceased; accordingly an agreement was come to that the company should pay the sum of \$2,318.58, the amount of three years' wages of the deceased.

Niagara Falls, Ont., June 28.—A fifteen-year-old boy named Dick Carpenter was the means of saving three men from drowning in the lower Niagara River. The men were James Stewart of Queenston and James Scott and Hector Lidger of Lewiston, all fishermen. They went out on the river in a skiff and got caught in the whirlpool below Boiling Rock, and in spite of their efforts the skiff shipped water and they were thrown out. in spite of their efforts the skiff shipped water and they were thrown out. Young Carpenter saw their plight and put out in another small boat to their aid. Scott and Lidger were able to eatch his boat and climb in, but Stewart was helpless. Scott grabbed for him and got his hat, but the man went down. When he arose for the last time Lidger managed to catch him, but could not get him into the boat. Scott and Carpenter pulled the boat to shore and Lidger dragged Stewart behind. He was nearly dead, and it took a doctor some time to resuscitate him.

ney disease, another from here and there, and in this way they present alike to themselves and their easy-going or overbusy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptome caused by some uterine disease. The physician, sonorant of the cause of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better the reason of the wrong treatment, but probably worse. A proper medicine like Dr. Picroc's Favorite Prescription, directed to the cause would have enturely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said that a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects in any community or the Temate system.

Relinquishing the books, he claimed, would frustrate his purpose of erecting a large church in Montreal. Montreal, June 27.—Joseph E. Costin, formerly manager of the French-Canadian agents of the Mutual Life Insurance Company of Canada, pleaded guilty yesterday to the charge of theft that was laid against him by the local manager, Mr. Allen.

He pleaded guilty to a theft of \$4,000. There is not much likelihood that further charges will be made against him.

DROWNED IN BARREL.

Suspected.

Cornwall, June 27.—Mrs. Thomas Keys of Harmony, in Dundas County, was found drowned in a water barrel under circumstances which seem to indicate suicide. Her daughter-in-law, injured in a recent runaway accident, was unable to leave her bed, and her husband and son were milking when the sad affair occurred. On their return they were horrified to find her body in the barrel.

Mrs. Keys had been ill for some time, and this is supposed to have affected her mind.

Willing to Settle.

"A writ was issued by the widow and her two children, step-children of the deceased, and the case was brought on before me at the weekly court at Ottawa, June 22nd, by way of a motion that the plaintiff be awarded judgment for the sum of \$2,318.58, or an apportionment of the amount among the plaintiffs, and for an order for payment into court of the infants' share."

After quoting from Union Colliery v. The Queen, Mr. Justice Riddell says:—"I have quoted this largely from this case because it is exactly in point. Here the defendants maintain a railway, they have a bridge; it is their duty to maintain it that an engine will not fall through; they disregard that duty; the anticipated event happened (that such an event was to be anticipated is manifest,—it is notorious that but the other day a similar occurrence took place in a city in Ontario, fortunately without loss of life)—'they are criminally responsible for it,' and it makes no difference that the unfortunate victim was an employe. No doubt also in this case there is some one persomperhaps more than one—who is guilty of personal negligence, and therefore equally liable to an indictment and for manslaughter."

Crown May Take Action.

Mr Justice Riddell approves of the settlement and adds: "it being the duty of the Crown, if so advised, to prosecute for crimes, 'offences against the public at large,' and this kind of offence has been held to be, by the the Supreme Court, a copy of this part of my judgment will be sent to the Attorney-General for such action against the company or an employe or officer thereof as may be considered justified by facts."

The apportionment is as follows:
Susan M. Villeneuve, \$1,250; Lavan Ferguson, \$318.58; Mary Ferguson, \$750. The defendants must also pay the costs of the plaintiff's solicitor, \$130.

Dr. Chisholm, M.P. for East Huron, in a capital speech said that the French-Canadian people were getting tired of so much scandal, and with the lower provinces would do well at the next election.

The following were nominated, but retired: Robert McLean, Goderich; David Cantelon, Clinton; Matthew Lockhart, Auburn, and Joha Cax, Porters' Hill.
