ordance with a resolution passed at the recent meeting of "Reformers" Guelph mestings were convened in the townships of Guelph, Eramosa and Pusnch at two o'clock this afternoon, for

NEARLY A FIRE

A Case Requiring Investigation.

A Case Requiring Investigation.

About nine o'clock on Sunday night, Mr. Christopher O'Neill, an employee of the Armatrong earringe works, noticed flames in the building at the corner of Yvoolwich Street, and Eramosa Rosd, owned by Mr. Wm. Heather and occupied by Mr. Heather as a tiu shop, a small portion having being rest of the American Hotel, and way for the past four or firs months. Mr. O'Neill at onge ran year to the American Hotel, and way alough as a battering ram succeeded in breaking in the door of Mr. Heather's alough as a battering ram succeeded in breaking in the door of Mr. Heather's shop. They found fire issuing from one of the partitions between it and the saddler's shop, which they also broke into. By this time the fire alarm had rung and a number of people had gathered on the soene. On entering Mr. Butt's shop, the fire was discovered to be in a cupbacard at one side of the stons chimney and was quickly put out with the aid of a few pails or water. The steam and hand engines were promptly yet out, but their services were not required. On an examination of the premises being marie, circumstances were

the aid of a few pails of water. The steam and hand engines were promptly down, but their services were not required. On an examination of the premises being made, circumstances were promptly down, but their services were not required. On an examination of the premises being made, circumstances were brought to light which justify the fequal to any establishment in the Dominion.—ADVY

ENLARGEMENT.—The Brampton Conservation has been enlarged and otherwise improved this week, a feet which bears striking testimony to its success under the careful editorial and general management of Mr. A. F. Campbell. It has the Herald's best wishes for its continued success.

BACK FROM THE CENTENNIAL—Mr. Geo. Rudd's Devon bulls "Hartland" and "Duke of Norfolk" returned to-day from the Centennial, having lost about 150 lbs. by the trip. They were exhited on the Market Square, and look as if they can't be beaten.

Welcome Home.—Lt. C.l. Peck, of Galt, who has been visiting Europe, is expected home this evening and will be welcomed to Galt by a torchlight procession, the volunteers, fire company, and citizens generally, intending to turn out en masse. Several of his frien's frought to light which justify the premium maney but the condition of the fire it was evident that it could not be a succession that a succession is the premium maney of the continued succession. The company of the c

leaving there at six and not returning until after he heard of the fire, adding that he was startling near the American check and saw someone walking up and down in front of the store, who looked like a stranger that had applied to him on Saturday for work. The theory that this person set it on fire is very improbable as there is no sign of the store having been entered until by those who put the fire out. The whole circumstances are very suspicious and Mr. Chas. Davidson, Secretary of the Wellington Mutual Insurance Company, in which Mr. Heather had the building insured, has decided to have an investigation held.

the Editor of the Guelph Herald.

the manner in which the new Ontario License Act is working; but I cortainly have not yet seen any instance in which have not yet seen any instance in which has been more flagrantly violated than in this village. At present there are two unlicensed taverns here, both as which are selling liquor openly on both week days and Saboath, erjoying eventuates the selling liquor openly on both week days and Saboath, erjoying eventuates the selling liquor openly on both week days and Saboath, erjoying eventuates the selling liquor openly on both week days and Saboath, erjoying eventuates the selling liquor openly on both week days and Saboath, erjoying eventuates the selling liquor openly on both week days and Saboath, erjoying eventuates the selling liquor openly of the more privileges than those why pay licenses. That they do a large trade in the unlicensed houses is evident from a statement recently made by the owner of one of them here, to the effect that has had sold a barrel and a half of beer on the preceding Sabbath. Besides these wounlicensed places here we have five licensed taverns, although the popularious reports of the law. When complaints were made as to the carrying out of the law in Welland a commission was issued to enquire into the matter, and I certainly think the state of affairs here demands a similar enquiry. The Inspector, Mr. Stovansan, has been appear to have taken any steps to enforce the law. Some say that he is oup as to the License Act in toto, and that it is just as openly violated in Mount Forest, where he resides. I may add that one of the commissioners, Mr. O'Callaghan, resides here, but has done of the open law the service of the law of the l

GUELPH CENTRAL EXHIBITION

MACHINERY, CASTINGS, &C. MACHINERY, CASTINGS, &c.

Inglis & Houser, Guriph, exhibit a steam on a shage solithing masohine, a sointle jointer, a stave jointer, and a larve pump for a boiler. The engine is the only one on exhibition, and shows first class workmanship.

Thos. Worswick, Guelph, exhibits a syster wheel and model of same, steam engine goveraor, new style, an is boiler ounce. The work has a first class linish, and attracts a good deal of attention.

Guraey & Ware, Hamilton, show an assortment of weigh scales, of every literation. The workmanship is beautifully done, and they have taken nine-teen first prizes at Provincial exhibit

teen first prizes at Provincial exhibitions.

Geo. Feck, Guelah, makes a most maguificent display in this class, exhibiting a brass free panmy with air chamber, one with direct action, an iron well punn, an irod estern pump, a bath with the necessary pipes, showers &c., a galvanized iron bath, boiler, and stand, steam heaving radiators, direct and indirect, novelties, and are probably the first shown in Canada. E. ele's patent hose bands, will prevent the hose boxele from separating from the hose. Vilves and cocks, i.o., from we inches up to eight, for steam, water and gas. He also shows a collection of lager home cocks and faacets. A hydranlier am canable of delivering thirty galons of water per hour. An iron sink, a grab box he of a punings, of London, seed the poor with both room lead best or traps, with bath room lead to be to traps, with bath room leads to the tand and the cocks for her and call.

HARDWARE.

satement recently made by the owner fone of them here, to the offect that a had sold a barrel and a half of beer on the preceding Sabbith. Basides these wo unlicensed places here we have five icensed taverus, although the population is only large enough to allow four, seconding to the requirements of the carrying out of the law in Wellanda commission was issued to enquire into the carrying out of the law in Wellanda commission was issued to enquire into the article of the sate of affairs here demands a similar enquiry. The Inspector, Mr. Stevenson, but does not appear to have taken any steps to enforce the law. Some say that he is only sad to the License Act in toto, and that it is just as openly visitated in Mount Forest, where he recides. I may did that one of the commissioners, Mr. O'Callaghan, resides here, but has done nothing to suppress the illegal traffic and it is said that an ex-balliff of this place has been type the legal traffic and it is said that an ex-balliff of this place has been the stellow of the commissioners, Mr. O'Callaghan, resides here, but has done nothing to suppress the illegal traffic and it is said that an ex-balliff of this place has been tapped to the Commissioners, Mr. O'Callaghan, resides here, but has done nothing to suppress the illegal traffic and it is said that an ex-balliff of this place has been tapped to the Commissioners, Mr. O'Callaghan, resides here, but has done nothing to suppress the illegal traffic and it is said that an ex-balliff of this place has been tapped to the Commissioners, Mr. O'Callaghan, resides here, but has done nothing to suppress the illegal traffic.

\*\*MRSE BALL NOTES\*\*

The Green Stockin a again take the selectal using numbers and intention and full adainst three machines, and what it is elsewhere, it is c that a said tote that can deat as bound not to be been done to the threat the selectal product and full adainst three machines, competitions and only and the said that an exchalled the selectal products and full adainst three machines are fitt

stoves.

Wm. Ker, Gueiph, shews an excellent lot of tinware and stoves. He exhibits 16 different varieties of stoves, from parlor to ktochen, His tin stove furnits very pretty and is also substantial. The Splendid, a parlor base burner, receives a large show of attention. He shows one of the tin parlor cook base burners in the building, and taken throughout his show of stoves and tinware presents a very fine appearance. Wm. Sunley, Guelph, exhibits a magnificent collection of 27 stoves of various grades and orders, in fact his display presents the appearance of a store for these articles. Portable ranges for coal and wood, wood cook stoves, cook stoves for coal, and hall and parlor cooks for both, hall stoves for coal, parlor cooks for both, hall stoves for coal, parlor cooks for both, hall stoves for coal, parlor stoves for coal, and hall and parlor wood stoves go to make up a collection which is continually crowded with admirers. Good judges of stover remark frequently that there is not a better show of stoves in the world, and having been at the Contennial report that the show there is not amperior. He takes a large number of prizes, for which see the prize lat. A large collection of copper and tin stove furniture, and general tinsmith's assortment, is also shown by Mr. Sunley, An assortment of Stone's tubular lantern is also shown by Mr. Sunley, An assortment of Stone's tubular lantern is also on exhibition here.

Burrow, Stewart & Milne, Hamilton, exhibit 12 stoves, solf-feeders and coal cooks. The Victory, a self-feeder, attracts much attantion from its beau y of finish, and the "Advance" took first in London and Hamilton.

The show in this class is the best ever got together in Canada, and as before remarked is not second in quality to that of the Parladelphia Contenual.

W. Bell & Co., Guelph, show two pianos and four organs. The pranos are a grand and a square-one, by Hardman, New York, and Hallet, Davis & Co., Boston The cross are for the parlor of the parlor of the parlor of the parlor of the parlor

SADDLERY, TRUNKS, &C.

J. & T. Hughson, Norva', shows one set of single harness, one set of double carriage harness, one set of team harness, a gentleman's saddle and vidte. He took first prize on the single harness, first for carriage and secund for team. He also secured the red ticket for saddle and bridle.

The sbow of ladies' work is simply immense this year, being nearly one hundred entries move than last season. The wax flowers present a very fine appearance, the Ladies of Loretto leading with the first prize. In wax fruit the display is not very large, and the first prize is awarded to Mrs. Wm. Watson, Guelph; Miss Annie Loyns, West Flamboro, being second. In festher flowers the display is very fine, Miss Lyons. Guelph; Miss Annie Loyns, Wes; Plants boro, being second. In feather flowers the display is very fine, Miss Lyons leaning, and Mrs. K. Johnson shows a yeary fine specimen. Miss E len Shaw, Esquesing, takes the red ticket for silver; wire flowers. The fl-wer weaths seem for the seem of the seem hed work is not so numerous nor hardly so pretty as formerly, though the
feet of this signingly atoned for by the
oret inces of the designs in bead work.
Mrs. Jas. Innes shows a cushic in this
class which is far superior to anything
class that form every imaginable source,
those shows the form small far parterms to neavy, large one.

It is the property of the property in the class
close that it would be extremely hard to
indge in the class, seve all specimens
being almost equally pretty in design and
quality of workmanship. The picture in

Charles and the first strength of the property in the class of the property of the prope being almost equally pre-quality of workmanship. The picture in Berlin wool by Mrs. M. Delf, of Guelph, must have taken a large amount of time-to complete, and with the chair of Mrs. Ws. Watset, in this class, was very much admired. The worked slippers benefitied those eight different nations.

case in the quality. The show in diameter is very good, the colors being very sharmonious, and site quality, on the whole, good. Cloths were not extensively exhibited, and the quality appeared in the first classes to be harsh, still they were very fair for country made tweeds. Carpets were dark and singy in colors, but the quality of the specimens would undoubtedly wear well. Cotton warp of very good quality was shown by the Dundas Cotton Co., and taken altogether their diplay was excellent. The rag carpet show was well kept up by Matthias Kirby, Guelph, and Margaret Riddell, Guelph, In socke Mrs. V. Clark, Paslinet, akee as described to the same township. Thee, McCrae exhibits a very fine specimens, and was closely followed by Mrs. M. A. McIn'yre, of the same township. Thee, McCrae exhibits a very handsome plaid, far superior to anything shown in the same line. J. Grant, Paslineth, takes a first prize, for home-made cloth, and on the whole the show is this class is fair. He also takes a foremost place in woollen mits, the samples shown being very beautiful, as well as warm. Winceys are not shown to any great extent, and the quality is mothing extra. In straw plaits, Canada, the show is confided to Mrs. J. Parkinson, Framosa, Mrs. J. McCounell, Nassagaweya, and Miss M. Lindley, Toronto, her specimen being very fine, and deservedly gams the red emblem of merit. Han made counterpanes largely occury the attention of persons about to need them during the coming winter, and to the whole are a good exhibition. The white ones pre-lominate, though the control of the same decreased and the quality is good, and the first prize, and counterpanes. In machine private graphs and the quality is not the woole are a good exhibition. The write ones pre-lominate, though the control of the late that they will not heavy to make the control of the same decreased and the play is the colors appear also very dull.

NATURAL HISTORY.

The exhibition of Natural History classes an

colors appear also very dull.

NATURAL HISTORY.

The exhibition of Natural History classes is very creditable. In staffed birds the display is good, and the first place is the display is good, and the first place is the display is good, and the first place is the display is good, and the first place is the display is good, and the first place is the display is good, and the first place is the display is good, and the first place is the display is good, and the first place is the display is good and the first place is the display in the part of the country. The collection of Native Insect shown by Win E. Sauniers, Longitude worthy the attention and time visitors beatow on it. Next in order comes that of Alex. Young, Berlin, who shows half the number of cases. In Memmilla and propoles, Mr. Gibbs runs off with the shonors easily. One of the mest interest the state shown by David Boyle, Elora, and which illustrate the Guelph formation. He shows the rocks of both the light and dark types. John Wilkie shows a very which illustrate the Guelph formation. He shows the rocks of both the light and dark types. John Wilkie shows a very which illustrate the Guelph formation. He shows the rocks of both the light and dark types. John Wilkie shows a very corritable assortment of Canadana fail A collecten of a sets compress, 100 vericties is excited by the second prize being won by Thomas Hense, Pilkie gon. A collection of bride eggs is snown by Mrs. L. Angell, Guddah, and is composed entirely of Canadana eggs. There are very few exhibitors in native planes, but the collections snown are very good. John Miski Guelph, shows a cliection of and a which is one of the motunquiand complete in the building. The collection should afford great pleasure to the grower, and must be a source of much congratulation to him. Miss L Stevenson, Guelph, also shows a very fair collection.

PRINTING AND BINDING. There are a few passable oills and posters shown, and the fine printing is very fairly executed. F. T. C apman, exhibits some very grod ruling, and letter press work. His binding is also first

GOLDSMITH'S WORK.

R. Clawford, of Goldsmith Hali,
Guslph, exhibits a fine case of watches,
skeleton clocks, and jewellry. He se
curse a first prize, and the whole state
incident to the manufacture of an entire watch are shown.

SHOEMAKER'S AND BOOMMAKER'S WORK

C. Roos & Son, Galt, shows a pair of triple decker alligator boots, which are canowledged to be the best piece of work ever exhibited here, and took the first prize. A patent leather hoot also shows the workmanship. He also shows a one seamed boot, for strong work, which is unique in style and sure to have a large sale. In the ladies department the stock shown is greatly admired, and ins trauble. The whole collection is a very creditable one-and would be hard to surpass.

Win. Tawse & Son, Guelph, show an immense collection of boots and shoes or all descriptions. They take praze in machine and hand sewing, and have certical off this prize for four years in succession. Tawse's Little Man, whose witty sayings are always acceptable to a Guelph public, says the firm is always on hand with good boots and shoes. They show Wire's patent shoes, of Boston, and take a first prize in the class. Their collection, on the whole, is a credit to the town of Guelph.

R. McGregor & Co. f Guelph, exhibit a large collection of very fine boots and shoes, from the lightest to the heaviest. They show a patent leather boot whole weighe only fourteen ounces, and althouga so light, is strong and durable looking. They take the red tricket for heavy pegged boots and second on younn's sewed. The collection is a credit to the establishment from which the stock emanates.
