

Red Rose Tea stands alone

Red Rose Tea stands alone as the only tea of uniform goodness. No other tea is so carefully selected and blended. It is the only tea that is so consistently pure and of such high quality. It is the only tea that is so consistently pure and of such high quality. It is the only tea that is so consistently pure and of such high quality.

There may be something in this that you will not find in any other tea. It is the only tea that is so consistently pure and of such high quality. It is the only tea that is so consistently pure and of such high quality. It is the only tea that is so consistently pure and of such high quality.

The middle-aged, or many of them, have profited by experience. They are apt to be tolerant of the modern type of architecture. They are apt to be tolerant of the modern type of architecture. They are apt to be tolerant of the modern type of architecture.

Berlin, Germany, has been trying to produce this result. The emperor himself has been active in trying to produce this result. He has encouraged foreign ambassadors to become spenders and has strongly encouraged the modern type of architecture.

A city which strives to be a well-stated should be better able to clothe its people. It is the only tea that is so consistently pure and of such high quality. It is the only tea that is so consistently pure and of such high quality. It is the only tea that is so consistently pure and of such high quality.

More honors for Lipton. The firm of Thomas J. Lipton has just received the special appointment of the Merchant to His Majesty King George V. This is the fifth successive monarchs speaks volumes for Lipton's Tea.

A piece of a mortgage. In another column is announced an opportunity to purchase a percent bond of the Dominion Bank. The company has earned over 100 percent on their bond interest, and any one who invests in it is sure to get a high interest return.

ELECTRICITY GOOD FOR SHEEP

PROFESSOR WENTWORTH'S EXPERIMENT. The people in Montgomery county, a modern highway 20 miles long, has been done by the state. The greatest piece of road-building on record was accomplished in that state recently when in the space of one single year a line of road 200 miles in length was stretched across the state.

INCREASES ENERGY. The whole question is probably one of the electric ions or infinitesimal particles of energy given off by the charged wires. Professor Wentworth, of King's College, London, explained to the London Daily Mirror that a great deal has been written lately on the function of electrical energy in causing the formation of plant food from the mineral substances.

PLANTS PROVE THEORY. If that is so in the case of plants, it should not be the proof that the plant that makes up the cells of an animal is able to use electric energy. Similarly, an animal cell plant, protoplasm, is very sensitive to electricity, and reasoning from the fact of the electric current upon plants, one would expect that animals should be more sensitive to electricity.

THE THIRSTY TRADES. Occupations Which, It is Said, Produce Most of the Thirst. An address was delivered recently at a meeting of the Society of Medical Officers of Health, London, England, on the relation of public health to industrial diseases by Dr. W. F. Deardon, medical officer of health to the port of Manchester.

INDUSTRY IN THIS COUNTRY. The firm of Thomas J. Lipton has just received the special appointment of the Merchant to His Majesty King George V. This is the fifth successive monarchs speaks volumes for Lipton's Tea.

A PIECE OF A MORTGAGE. In another column is announced an opportunity to purchase a percent bond of the Dominion Bank. The company has earned over 100 percent on their bond interest, and any one who invests in it is sure to get a high interest return.

Shiloh's Cure. It is the only tea that is so consistently pure and of such high quality. It is the only tea that is so consistently pure and of such high quality. It is the only tea that is so consistently pure and of such high quality.

Shiloh's Cure. It is the only tea that is so consistently pure and of such high quality. It is the only tea that is so consistently pure and of such high quality. It is the only tea that is so consistently pure and of such high quality.

On the Farm

POULTRY AND FRUIT. Fruit culture and the production of poultry products can frequently be combined in a most satisfactory manner. There are several reasons why fruit and poultry can be produced economically together.

INCREASES ENERGY. The whole question is probably one of the electric ions or infinitesimal particles of energy given off by the charged wires. Professor Wentworth, of King's College, London, explained to the London Daily Mirror that a great deal has been written lately on the function of electrical energy in causing the formation of plant food from the mineral substances.
